

ACKNOWLEDGEMENTS

The New Century Colorado project represents the combined efforts of over 70 state employees working with our private-sector partner, KPMG Consulting LLC. We are indebted to all of the public and private sector staff who dedicated their time and skills to this effort. Our thanks also go out to the Governor for his vision and leadership in challenging the State to find ways to use new technologies and business practices to do more with less. In addition, we want to thank all of the Executive Directors who provided resources to support this initiative, especially Nancy McCallin, the Director of the Office of State Planning and Budgeting; Larry Trujillo, the Executive Director of the Department of Personnel / GSS; and Marc Holtzman, the Secretary of Technology. Finally, we want to thank Alan Philp of the Office of Innovation and Technology. His tireless dedication helped keep this project moving forward.

Mike Trevithick and Paul Quade
NCC Project Co-Directors
