IV. THREATS AND ANALYSIS	103
A. Threats Potentially Affecting GUSG	103
<u>Disease and Parasites</u>	103
<i>West Nile Virus</i>	103
<i>Coccidiosis and Tularemia</i>	104
<i>Avian Malaria</i>	104
<i>Diseases of Captive Birds</i>	105
<i>Conclusions</i>	105
<u>Fire and Fuels Management</u>	107
<u>Genetics</u>	109
<i>Inbreeding Depression</i>	109
<i>Loss of Genetic Variation</i>	111
<i>Accumulation of New Mutations</i>	112
<i>Conclusions</i>	113

Grazing	114
<i>General Debate</i>	114
<i>Impacts on Sage-grouse Habitat.....</i>	115
<i>Impacts on Sage-grouse Behavior and Demographics.....</i>	116
<i>Grazing Rotation, Intensity, and Timing.....</i>	117
<i>Recommendations</i>	118
<i>Grazing Management: Related Structures and Activities.....</i>	118
<i>Wild Ungulate Effects on Sage-grouse Habitat.....</i>	119
<i>Conclusions.....</i>	119
Habitat Quality.....	121
Hunting	122
Lek Viewing.....	124
Mining, Energy Development, and Human Community Infrastructure	127
<i>Habitat Loss, Fragmentation, and Degradation</i>	127
<i>Disturbance to and Collision Mortality of Grouse</i>	128
<i>Increased Predation Pressure.....</i>	128
<i>Spread of West Nile Virus</i>	129
Noxious and Invasive Weeds.....	131
Pesticides	132
<i>Insecticides.....</i>	132
<i>Herbicides</i>	133
Predation	134
<i>Sage-grouse and Predators.....</i>	134
<i>Predator Community and Interactions</i>	134
<i>Predator Control - Background.....</i>	136
<i>Predator Control - Methods.....</i>	136
<i>Habitat Management as Predator Control</i>	137
<i>Conclusions.....</i>	139
Recreational Activity	141
Weather/Drought.....	143
Threats Summarized by ESA Listing Factor	144
B. Habitat – Risk of Permanent Loss	149
Problem Definition.....	149
Regulatory and Other Relief	149
Risk Assessment of Habitat Loss Among Populations.....	150
Conversion to Agriculture Uses.....	154
Spatially Explicit Analysis of Impacts of Additional Housing Units	154
Prioritization of Habitat Protection Efforts.....	160
C. Habitat Linkages Among GUSG Populations	163
Theory and Background.....	163
Mapping Potential GUSG Habitat Linkages.....	164
D. Population Viability Analysis.....	168
Concepts and Principles	168
Current Model.....	169
<i>Baseline Parameters and Simulations</i>	169
<i>Relative Extinction Risk</i>	170

<i>Sensitivity Analysis</i>	173
<i>Maintenance of Genetic Diversity</i>	176
<i>Population Augmentation and Relative Extinction Risk</i>	176
<i>Conclusions</i>	179
E. Population Augmentation	180
<u>Translocation</u>	180
<u>Captive Breeding</u>	181
<i>Sage-grouse</i>	181
<i>Other Prairie Grouse</i>	182
<i>Summary</i>	183
<u>Potential Approaches for GUSG</u>	183
(1) <i>Transplant Eggs to Populations in Need</i>	183
(2) <i>Incubate Eggs in Captivity to Reduce Depredation Losses</i>	184
(3) <i>Supplement Wild-reared Broods with Captive-produced Young</i>	184
(4) <i>Raise Grouse in Captivity and Release to Populations in Need</i>	185
(5) <i>Maintain a Captive Flock as a Genetic Diversity Bank</i>	185
F. Analysis: GUSG Population Size in Relation to the Amount of Available Habitat	186

APPENDICES

Appendix A: Scientific Names of Organisms Mentioned in the RCP	A-1
Appendix B: Definitions of Acronyms Used in the RCP and Description of “Responsible Parties” Listed in the Conservation Strategy	B-1
Appendix C: Available Funding Opportunities for GUSG Habitat Conservation.....	C-1
Appendix D: GUSG GIS Data: Habitat Type, Landownership, Easements	D-1
Appendix E: Effective Population Size Discussion	E-1
Appendix F: Detailed Discussion of Spatially Explicit Analysis of Additional Housing Units in GUSG Habitat	F-1
Appendix G: Report on PVA Analysis for GUSG	G-1
Appendix H: GUSG Structural Habitat Guidelines	H-1
Appendix I: GUSG Disturbance Guidelines.....	I-1
Appendix J: GUSG Habitat Use Data.....	J-1
Appendix K: Tables of Content and Introductions from 2 sections of Monsen (2005)	K-1
Appendix L: Suggested Management Practices Applicable for Oil and Gas Development, within Lease Rights	L-1

ACKNOWLEDGEMENTS

Many people, agencies and organizations have contributed to the development of this conservation plan. Special thanks go to Robbie Baird-LeValley, Michelle Cowardin, Jim Garner, James P. Gionfriddo and the Colorado Natural Heritage Program, Paul Jones, Chris Kloster, Kathleen Mawhinney, Stephen B. Monsen, Philip S. Miller, John Toolen, Alma H. Winward, the Western Association of Fish and Wildlife Agencies, and those, both from the public and from various agencies, who reviewed and commented on the plan.
