PREFACE

This compilation is a companion to the list of winter staff compiled under the direction of Miss Makepeace, The Personnel of Colorado State College, 1879-1937. Duplication of entries has been avoided, with the result that former members of the winter staff are not included as summer visitors.

The information given for each person covers: Name, Academic training, Position held at time of latest visit, Years of service on the summer staff, and an identification of field or Department of teaching at Colorado State College.

Because changes occur in personnel of staff after the catalogs are issued, this list cannot pretend to accuracy or completeness, although available sources and authorities were consulted. It does provide a fairly dependable "Who's who" to the summer staff, not otherwise assembled for ready reference.
