University of Colorado

An Overview

The University of Colorado is the state's premier teaching and research university. Founded in Boulder in 1876, the year Colorado joined the union and the nation celebrated its centennial, CU has expanded into a dynamic network of four campuses: the University of Colorado at Boulder, the University of Colorado at Colorado Springs, the University of Colorado Denver and the University of Colorado Anschutz Medical Campus. Together, CU's campuses form the foundation of a strong, integrated network that advances academic and research excellence, creates a wealth of opportunities for students and faculty researchers, and meets the needs of Colorado and the nation.

Fast Facts

- Some 56,000 students from around the world are pursuing academic opportunities at CU.
- CU's academic prestige is marked by four Nobel laureates and a team of scientists who shared in the 2007 Nobel Peace Prize, four National Medal of Science winners, seven MacArthur "Genius Fellows," 19 Rhodes Scholars, 25 Guggenheim Fellows, 127 faculty Fulbright Scholars and 56 Distinguished Professors.
- The National Science Foundation ranks CU seventh among public institutions in federal research and development expenditures in engineering and science.
- CU receives more NASA funding than any other public university in the United States, and has 18 alumni astronauts and one M.D. alumni astronaut in training.
- CU researchers received a record \$711 million in sponsored research funding in fiscal year 2008-09.
- Over the past five years, 51 startup companies have been founded based on technology and research that started at CU.
- CU contributes approximately \$7 billion to Colorado's economy through its demand for goods and services (includes University of Colorado Hospital).

- *Sierra* magazine's No. 1 "green campus" in the nation in 2009
- 23 NCAA championships

At the **University of Colorado at Boulder (CU-Boulder)**, Tuscan-inspired architecture provides a striking contrast to the nearby rugged Rocky Mountain foothills. Colorado pink sandstone buildings feature red-tile roofs and cupolas, wrought-iron balconies, white limestone trim and lion-ensconced water fountains. CU-Boulder's beautiful setting is surpassed only by the quality of its undergraduate and graduate programs, and the many accomplishments of its faculty and students.

Academics—CU-Boulder offers more than 3,400 courses in 150 fields of study and nearly 100 learning opportunities in more than 30 academic departments. Colleges and schools include College of Architecture and Planning, College of Arts and Sciences, Leeds School of Business, College of Engineering and Applied Science, College of Music, Graduate School, School of Education, School of Journalism and Mass Communication and the School of Law.

University of Colorado at Colorado Springs

The **University of Colorado at Colorado Springs (UCCS)** opened in 1965. Today it is a regional academic and research powerhouse serving a broad range of students—from traditional four-year students to working adults. The campus sits east of Pikes Peak, one of the most acclaimed mountains in the United States, and the inspiration for “America the Beautiful.” Campus architecture is a blend of Spanish and midcentury modern, reflecting the region’s pioneer history and UCCS’s strong focus on scientific and technological innovation.

Academics—UCCS offers 34 bachelor’s degrees, 19 master’s degrees and five doctoral programs. Colleges and schools include College of Business and Administration, College of Engineering and Applied Science, College of Letters, Arts and Sciences, Beth-El College of Nursing and Health Sciences, College of Education, Graduate School and School of Public Affairs.

University of Colorado Denver

Points of Pride ...

- The Rocky Mountain West's premier urban public research university campus
- Diverse campus with students from 50 states and 128 countries
- One of three downtown Denver college campuses that together rank seventh nationally for colleges purchasing clean energy
- College of Architecture and Planning is a national leader in the redevelopment of schoolyards aimed at improving learning and health
- School of Public Affairs among *U.S. News & World Report's* top 12 percent, offering the nation's only federally funded domestic violence prevention program
- School of Education and Human Development a driving force in Colorado's efforts to enhance science, technology, engineering and math (STEM) education
- Business School has more graduate students than any other business program in the state
- Eight faculty Fulbright Scholars

University of Colorado Denver (UC Denver), located in the heart of downtown Denver, is the Rocky Mountain West's premier urban university. It opened in 1912 by offering extension courses for the CU-Boulder campus and became an autonomous campus in 1974. Working adults, students of all ethnic backgrounds and a thriving international student population make UC Denver one of state's most diverse college campuses.

Academics—UC Denver offers 31 bachelor's degrees, 48 master's degrees and nine doctoral programs. Schools and colleges include the Business School, College of Engineering and Applied Science, College of Liberal Arts and Sciences, School of Education and Human Development, College of Architecture and Planning, College of Arts and Media, School of Public Affairs and Graduate School.

University of Colorado Anschutz Medical Campus

The burgeoning **University of Colorado Anschutz Medical Campus (AMC)**, located at the site of the former Fitzsimons Army Medical Garrison, is one of the newest and most dynamic educational, health care and biomedical research facilities in the world. When completed, it will encompass 6.5 million gross square feet for cutting-edge research, education and clinical facilities. The AMC encompasses CU's health schools and programs, University of Colorado Hospital and The Children's Hospital, both designated Magnet¹ hospitals for nursing excellence and both among Colorado's top teaching medical centers. Other affiliates include National Jewish (the nation's top-rated respiratory hospital), Denver Medical Health and the Veterans Administration Medical Center, planned for a site adjacent to the AMC.

Academics—Anschutz offers three bachelor's degrees, nine doctoral degrees and 14 first-professional programs. Colleges and schools include the College of Nursing, School of Medicine, School of Dental Medicine, School of Pharmacy and Graduate School.

Points of Pride ...

- Home of the CU School of Medicine, a 125-year-old institution that is Colorado's first and only comprehensive medical school, attracting internationally recognized faculty
- Highly selective health sciences programs in nursing, medicine, pharmacy and dental medicine
- One M.D. alumnus astronaut in training
- Recipient of competitive \$76 million NIH grant to speed research discoveries from labs to patient bedsides, the largest grant to a Colorado university or college to date
- Partner in the only School of Public Health in the Rocky Mountain West
- Adjacent to industry partners at the Colorado Science and Technology Park at Fitzsimons
- University of Colorado Hospital is a Magnet medical center that cares for more than 500,000 patients a year, and is the Rocky Mountain region's most-recognized hospital in *U.S. News & World Report's 2009-10 America's Best Hospitals*
- Anschutz Medical Campus is a national model for the re-development of decommissioned military bases

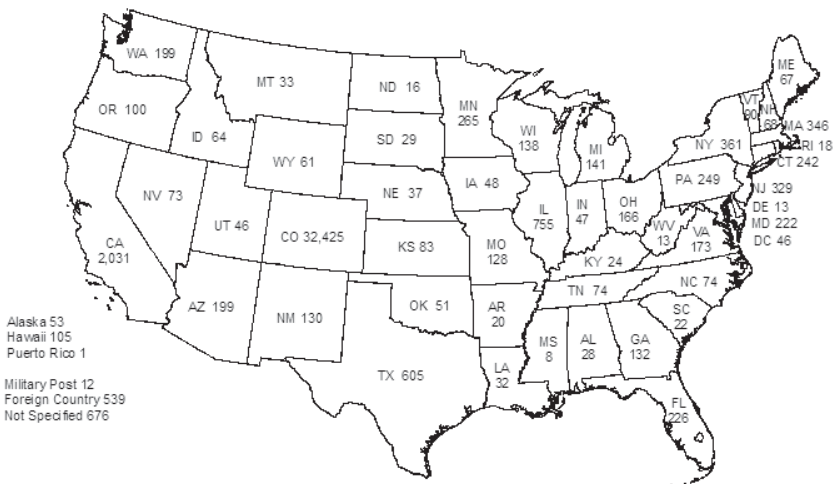

University of Colorado Students

Where They Come From

CU is proud to be a state university that provides Coloradans with excellent undergraduate and postgraduate programs. The university is equally proud that students from across the United States and around the world recognize the value of a CU degree. A total of 339,545 students have earned degrees at CU since 1876.*

Fall 2009 Undergraduates by Home State, Systemwide

Student Diversity

CU values diversity—ethnic, racial, religious, national origin, age, military status, political, sexual orientation and first-generation scholars—and continually works to improve recruitment and retention of students from underrepresented groups. Statistics below pertain to ethnic and racial diversity.
