## **STATUTE OF LIMITATIONS**

A federal agency may publish a notice in the Federal Register, pursuant to 23 United States Code (USC) §139(1), indicating that one or more federal agencies have taken final actions on permits, licenses, or approvals for a transportation project. If such notice is published, claims seeking judicial review of those federal agency actions will be barred unless such claims are filed within 180 days after the date of the notice, or within such shorter time period as is specified in the federal laws pursuant to which judicial review of the federal agency action is allowed. If no notice is published, then the periods of time that otherwise are provided by the Federal laws governing such claims will apply.
