Colorado Family and Adult Literacy Indicators: Sources and Definitions

Data for these county and congressional district reports on adult and family literacy indicators comes from United States Census 2000, Summary File 3 (SF 3), produced by the U.S. Census Bureau. The bureau web site is <http://www.census.gov/>. Following is an explanation of the indicators selected.

Population

Age group data figured from U.S. Census data downloaded 11/4/2003 from U.S. Census Bureau web site, P8. SEX BY AGE [79] - Universe: Total population.

Ability to Speak English ("English-Speaking Ability" in these reports)

For people who speak a language other than English at home, the response represents the person's own perception of his or her ability to speak English, from "very well" to "not at all." Because census questionnaires are usually completed by one household member, the responses may represent the perception of another household member. PCT 62A-G: AGE BY LANGUAGE SPOKEN AT HOME BY ABILITY TO SPEAK ENGLISH FOR THE POPULATION 5+ YEARS figures were combined to reflect the population group 18 years and over. Numbers not exact because of 2000 handling of racial/ethnic groups. Data downloaded 11/17/2003 from U.S. Census web site.

Educational Attainment

Refers to the highest level of education completed in terms of the highest degree or the highest level of schooling completed. Downloaded 11/17/2003 from the U.S. Census web site. PCT 25: SEX BY AGE BY EDUCATIONAL ATTAINMENT FOR THE POPULATION 18+ Years.

Labor Force

The labor force includes all people classified in the civilian labor force, plus members of the U.S. Armed Forces (people on active duty with the United States Army, Air Force, Navy, Marine Corps, or Coast Guard). The Civilian Labor Force consists of people classified as employed or unemployed. P43. SEX BY EMPLOYMENT STATUS FOR THE POPULATION 16 YEARS AND OVER [15] - Universe: Population 16 years and over. Data Set: Census 2000 Summary File 3 (SF 3) - Sample Data. Downloaded 11/18/2003 from U.S. Census web site.

Poverty Status

"Following the Office of Management and Budget's (OMB's) Directive 14, the Census Bureau uses a set of money income thresholds that vary by family size and composition to detect who is poor. If the total income for a family or unrelated individual falls below the relevant poverty threshold, then the family or unrelated individual is classified as being "below the poverty level." P87. POVERTY STATUS IN 1999 BY AGE [17] - Universe: Population for whom poverty status is determined. Data Set: Census 2000 Summary File 3 (SF 3) - Sample Data, downloaded 11/19/2003 from the U.S. Census web site."

Public Assistance

P64. PUBLIC ASSISTANCE INCOME IN 1999 FOR HOUSEHOLDS [3] - Universe: Households Data Set: Census 2000 Summary File 3 (SF 3) - Sample Data, downloaded 11/19/2003 from U.S. Census web site.

P73. AGGREGATE PUBLIC ASSISTANCE INCOME IN 1999 (DOLLARS) FOR HOUSEHOLDS [1] - Universe: Households a Set: Census 2000 Summary File 3 (SF 3) - Sample Data, downloaded 11/19/2003 from U.S. Census web site.

Note: Broomfield County did not exist at the time of the 2000 Census. In 2001, Broomfield city, CO, was designated a county. Prior to the change, the city had been divided among three counties--Adams, Boulder, and Jefferson.

Congressional District 7 was delineated after the results of the 2000 Census were known.
