November 5, 1986

To Members of the Fifty-sixth Colorado General Assembly:

This report represents the first edition of the Tax Handbook, a guide to state and local taxes in Colorado. The purpose of this handbook is to provide a reference book which explains key facts about Colorado's state and local taxes.

The handbook will be updated on a periodic basis. Any additions, corrections, comments, or suggestions for improvement are appreciated and will be given consideration for the next publication of this report.

Legislative Council staff contributing to the publication were Stan Elofson, Principal Analyst, Deborah Godshall, Principal Analyst, Scott Nachtrieb, Senior Research Assistant, and Bill Goosmann, Senior Research Assistant.

Respectfully submitted,

David F. Morrissey
Director

INTRODUCTION

The following pages present an outline of major state taxes imposed and collected in Colorado. A section on local taxation has been included to provide as complete a profile as possible of taxation in Colorado. Not included in this report are license and registration fees, permits, and revenues from fines and court costs. The Colorado lottery has been included as it is a significant source of income for several governmental purposes.

Constitutional and Statutory Budgetary Requirements

Colorado's Constitution mandates a balanced budget each fiscal year (Article X, Section 16). Currently, a statutory reserve requirement of 5 percent of the moneys appropriated from the general fund in a fiscal year is to be maintained. Colorado law also requires the state to limit general fund appropriation increases to 7 percent over the previous year's appropriations. Moneys appropriated for reappraisals of classes of property are not included in the 7 percent limitation (24-75-201.1, C.R.S.).

Total Tax Collections

State government in Colorado collected approximately \$2.6 billion in taxes for fiscal year 1986 from eighteen tax sources. About 64 percent of that revenue was collected from two sources -- personal income tax and sales tax (see Table I).

Several tax revenues are earmarked for special purposes. Earmarked taxes include unemployment insurance, motor fuel, tourism promotion, severance, and gross ton-mile taxes as well as the Colorado lottery. Some revenues from income and sales and use taxes are also earmarked.

Table I

TOTAL STATE TAX COLLECTIONS FOR FY 1986
Collections Without Regard to Fund Disposition
(\$ in Millions)

| Tax | Fiscal 1986 | Percent Of Total |
|---------------------------|------------------|---------------------|

I. GENERAL FUND

All moneys not earmarked by the constitution or by statute for special funds are credited to the general fund. This fund is the state's major operating fund. The major taxes credited to the fund are personal income, sales and use, corporate income, and several excise taxes. Other taxes credited to the fund include: cigarette; insurance premiums; liquor; pari-mutuel racing; and the estate, inheritance, and gift taxes. Taxes that the state no longer levies but which still produce revenue are the inheritance and the gift taxes. These two taxes were removed as of January 1, 1980. The tobacco products tax was added effective July 1, 1986 and is not included on Chart I.

Chart I

1986 GENERAL FUND TAX RECEIPTS

Table II compares 1977 through 1986 general fund tax receipts by source and shows the amount and percentage each tax contributed to the general fund. Personal income and sales and use taxes accounted for approximately 85.3 percent of the 1986 general fund receipts.

General fund tax receipts have increased approximately 118.6 percent since 1977. There has been a dramatic increase in the importance of personal income taxes as the major source of support of the general fund -- over 48 percent of general fund revenue in 1986. Taxes that have a smaller percentage contribution to the total general fund revenue in 1986 than in 1977 are cigarette, corporate income, liquor, sales, pari-mutuel racing, and the total of inheritance and estate taxes. Insurance premiums and use taxes also were more important to general fund collections in fiscal 1986 than they were ten years earlier.

Table II

TAX RECEIPTS FOR STATE GENERAL FUND
Comparison of FY 1977 and FY 1986
(\$ in Millions)

| Tax | Fiscal 1977 | Percent of 1977 Total | Fiscal 1986 | Percent of 1986 Total |

Tax Collections History

An historical perspective of collection figures for each tax source from 1977 to 1986 reveals that sales tax collections peaked in 1984 at \$731.4 million with the imposition of a temporary 1/2 cent increase and dropped by more than \$50 million from this figure in the last two years -- see Table III. Corporate income taxes have been sporadic with a low of \$66.5 million in 1983 and a high of \$124.4 million in fiscal 1986. Individual income tax receipts have increased in nine of the last ten years, the one decrease occurring from 1979 to 1980.

Table III

** Department of Labor and Employment.

1/ Information on this table is from the Division of Accounts and Control (sales through pari-mutuel) and from Department of Revenue (inheritance through unemployment insurance).

II. OTHER MAJOR STATE FUNDS

In addition to the general fund, there are a number of special funds that have been created by either the constitution or statute for specific purposes. The following section provides a summary of the other major state funds referenced in this report.

Old Age Pension Fund

Constitutional and statutory citations. The Old Age Pension Fund (OAPF) was created in 1936 by a vote of the people (Article XXIV to the Colorado Constitution). The provisions of this article were amended by the electors in 1956. Statutory sections relevant to the OAPF are 26-2-111 through 26-2-117, and 39-26-126, C.R.S.

Purpose. The fund was established to provide minimum assistance for needy persons 60 years of age or older, who are residents of Colorado, and whose income is not sufficient to maintain necessary health services and to allow such persons to retain their independence, self-care, and self-support.

Revenue sources. The Constitution requires that the following moneys be credited to the OAPF:

- 85 percent of all sales, use, and excise taxes;
- 85 percent of retail license fees;
- 85 percent of liquor taxes and license fees connected therewith;
- unexpended moneys in any fund of the state or political subdivision thereof that was allocated to the OAPF before January 1, 1957;
- all federal grants for old age assistance;
- all inheritance taxes, estate taxes, and incorporation fees; and
- such moneys as the General Assembly may allocate.

Disbursement of fund. The Department of Social Services administers the OAPF. Any funds remaining after meeting the basic requirements of the OAPF are transferred to the following:

- Stabilization Fund -- maintained at \$5 million; and
- Old Age Pension Health and Medical Care Fund -- up to \$10 million annually.

After satisfying the requirements of the OAPF, the stabilization fund, and the medical care fund, all remaining moneys are credited to the general fund. Listed on the following page are moneys credited to the OAPF by source, moneys used by OAPF requirements, and the total remaining that was credited to the general fund in 1986 as reported by the Department of Social Services.

| <u>Tax Source</u> | <u>Total Collections</u> | <u>OAP Obligations</u> | | |
|-------------------|--------------------------|------------------------------------|---------------------|--------------------------------|
| | | <u>OAPF and Stabilization Fund</u> | <u>Medical Fund</u> | <u>Balance to General Fund</u> |
| Sales Tax | \$665,747,684 | | | |
| Use Tax | 73,428,514 | | | |
| Liquor Tax | 23,832,235 | | | |
| Cigarette Tax | 51,473,545 | | | |
| Others | + 13,678,509 | | | |
| Total | \$828,160,487 | \$38,831,102 | \$10,000,000 | \$779,329,385 |

Highway Users Tax Fund

Constitutional and statutory citations. The Highway Users Tax Fund (HUTF) was created under Article X, Section 18 of the Colorado Constitution. Sections of the Colorado Revised Statutes relevant to the HUTF are 39-26-123, 43-2-116, 43-2-129, and 43-4-201 through 43-4-216.

Administration. The HUTF is administered by the Department of Highways.

Purpose. The HUTF is to provide adequate funding for the state's highway construction and maintenance needs.

Revenue sources.

| | <u>FY 1985-86 Receipts</u> <u>(in millions)</u> |
|---|--|
| Basic Fund: | |
| 7 cent motor fuel tax | \$116.2 |

| Total | <u>\$324.4</u> |

(Source: Department of Highways)

Water Conservation Board Construction Fund

This fund was created by section 37-60-121, C.R.S., and is managed by the Colorado Water Conservation Board. The General Assembly allocates money to the construction fund to finance water projects that are of statewide concern. The fund also receives money from charges imposed by the board for contracts entered into for the use of construction fund moneys.

Capital Construction Fund

The construction fund was created by section 24-75-302, C.R.S., to finance the state's capital construction needs. The moneys for the fund are allocated from The General Assembly and from 50 percent of the net lottery proceeds. The General Assembly approves projects paid for from the fund. Recommendations for expenditures are submitted by the Capital Development Committee and the Governor.

Severance Tax Trust Fund

The severance tax trust fund was created by section 39-29-109, C.R.S., and is a permanent fund held in trust as a replacement for depleted natural resources and for the development and conservation of the state's water resources. Fifty percent of the severance taxes are credited to the state severance tax fund and 50 percent to the local government severance tax fund. Income from investment of the state trust fund is credited to the state general fund.

Local Government Severance Tax Fund

The local government severance tax fund was created by section 39-29-110, C.P.S. Fifty percent of the state severance tax receipts are credited to the fund. The Department of Local Affairs distributes the moneys to local governments impacted by the development of natural resources. Also, 15 percent of the fund is distributed to the counties or municipalities based on the proportion of employees of natural resource industries residing in incorporated and unincorporated areas.

Conservation Trust Fund

The conservation trust fund was established by section 29-21-101, C.R.S. The conservation trust fund receives 40 percent of the net lottery proceeds. Moneys credited to the fund are disbursed by the Division of Local Government to eligible counties, cities, and special districts based on population. The disbursed moneys can only be expended for the acquisition, development, and maintenance of new conservation sites or for capital improvements or maintenance for recreational purposes.

Public School Fund

The public school fund was created by Article IX, Section 3 of the Colorado Constitution. The statutory provisions relating to the investment and use of the fund are contained in Article 41, Title 22, C.R.S. The school fund consists of the proceeds of such lands granted to the state by the federal government for educational purposes, all estates that may escheat to the state, and grants, gifts or other devices made to the state for educational purposes. No part of the fund may be transferred to any other fund. The fund itself is inviolate; only the interest from the fund can be expended and only for the maintenance of the state's schools.

Fire and Police Members' Benefit Fund

The General Assembly established the Fire and Police Members' Benefit Fund in 1979 to establish an actuarially sound statewide retirement system for all firemen and policemen hired after April 8, 1978, and to provide for the actuarial funding of all the existing pension systems (section 31-30-1012, C.R.S.). Contributions to the fund are from local government employers, employees, and the state. Since 1979 the state has made annual contributions of roughly \$21 million to assist local governments.

The annual contributions have been distributed as follows:

- Approximately \$14 million to prefund the unfunded liabilities of the "old" funds;
- Approximately \$6 million, which decreases 10 percent per year until termination in 1994, to the death and disability fund;
- Approximately \$1.2 million to match the local levy of up to 1/2 mill for volunteer firemen's pensions.

State contributions are to terminate when the fund is determined to be actuarially sound.

III. STATE TAXES

The following information is presented in this section for each state levied tax: the date of enactment; the constitutional and statutory citations; the tax base; the present rate; the administration and collection; the history of the rates; the disposition of revenue; the collections after refunds; information on similar taxes in neighboring states and other states; and similar federal taxes that are levied. Additional information may have been added to assist in understanding certain taxes and their application. The descriptions for each tax have been summarized to provide a basic understanding of each tax. Technical details may have been omitted.

This information was obtained from the Colorado Revised Statutes, (C.R.S.), and the Session Laws of Colorado, 1877 through 1986. The revenue collection figures are from the annual reports of the Department of Revenue and the Division of Accounts and Control unless otherwise noted. Information on taxes in other states and federal taxes was taken from the Commerce Clearing House State Tax Guide and Federal Tax Guide and are updated to October 1, 1986.

Cigarette Tax

Enacted: 1964

Constitutional and Statutory Citations: Article XXIV, Colorado Constitution; Title 39, Article 28, C.R.S., and Section 39-22-623, C.R.S.

Tax Base: Cigarettes, imposed at the wholesale level.

Present Rate: Twenty cents per package of twenty cigarettes or ten mills (1 cent) per cigarette. (Cigarettes are not subject to the state sales or use taxes.)

Administration and Collection: The Department of Revenue is responsible for administering the cigarette tax. The tax is imposed on wholesalers, and payment of the tax is evidenced by stamps affixed to cigarette packages or by a metered imprint. Metering machines are read once a month to determine the amount of tax. Wholesalers receive a discount of four percent of the face value of stamps if payment is received before the twentieth day following purchase. Wholesalers using a metering machine must pay the tax on or before the twentieth day following reading of the machine to receive the discount.

History of Tax Rates: Cigarettes were subject to the state sales and use taxes prior to their exemption from the sales and use tax base in 1959. From 1959 to 1964 there were no state-imposed taxes on cigarettes in Colorado.

| <u>Effective Date</u> | <u>Tax Rate Per Cigarette</u> | <u>Tax per Package of 20 Cigarettes</u> |
|-----------------------|-----------------------------------|---|
| July 1, 1964 | 1.5 mills | 3 cents |
| June 1, 1965 | 2.5 mills | 5 cents |
| July 1, 1973 | 5.0 mills | 10 cents |
| July 1, 1977 | 7.5 mills | 15 cents |
| July 1, 1978 | 5.0 mills | 10 cents |
| Nov. 1, 1983 | 7.5 mills | 15 cents |
| July 1, 1986 | 10.0 mills | 20 cents |

Disposition of Revenue: Article XXIV of the Colorado Constitution creates the Old Age Pension Fund (OAPF) and provides for the funding of its basic requirements from excise taxes, retail business license fees, alcoholic beverage taxes, inheritance tax fees, incorporation fees and other money the General Assembly may allocate. Funds remaining after meeting the basic requirements of the OAPF are then credited to the general fund. Since July 1, 1973, local governments have been entitled to a share in the proceeds of the state cigarette tax. In order to qualify for these moneys, local governments are prohibited from imposing fees, licenses, or taxes on any person as a

condition for engaging in the sale of cigarettes, and they are prohibited from taxing cigarettes.

In fiscal year 1986-87, cities, towns, and counties will be apportioned from the income tax an amount equal to 31 percent of the proceeds from 15 cents of the cigarette tax while all the proceeds from the remaining 5 cents will be credited to the state. Beginning July 1, 1987, local governments will be entitled to an amount equal to 27 percent of the proceeds from the entire twenty-cent tax. The funds are apportioned to cities and towns in proportion to the amount of state sales tax collected in a jurisdiction relative to all state sales taxes collected. Funds are distributed to counties based on the percentage that collections in the unincorporated area of the county bear to sales tax revenues statewide. Distributions to local governments are made monthly.

Distribution of Cigarette Tax Revenues

(Source: Accounts and Control for both tables.)

Other States: Cigarette taxes are imposed in all 50 states. The tax ranges from two cents per pack in North Carolina to 39 cents per pack in Minnesota. Minnesota allows a credit for the federal cigarette tax. Hawaii's tax rate is 40 percent of the wholesale price. Tax rates for neighboring states are as follows:

| <u>State</u> | <u>Rate per Pack of 20 Cigarettes</u> |
|--------------|---|
| Kansas | 24 cents |
| Nebraska | 23 cents |
| New Mexico | 15 cents |
| Oklahoma | 18 cents |
| Utah* | 12 cents |
| Wyoming | 8 cents |

* Rate is scheduled to increase if the federal cigarette tax decreases.

Federal Tax:

| | |
|--|---|
| Small cigarettes (weighing no more than 3 pounds per thousand) | \$8 per thousand (16 cents per pack) |
| Large cigarettes (weighing more than 3 pounds per thousand) | \$16.80 per thousand (33.6 cents per pack) |

Estate and Gift Taxes

I. Estate Tax

Enacted: 1927 -- Inheritance and Succession Tax (not applicable
to estates of decedents dying on or after 1/1/80)
1980 -- Estate Tax (replaced inheritance tax)

Constitutional and Statutory Citations: Article XXIV, Colorado
Constitution; Title 39, Articles 23 (Inheritance) and 23.5 (Estate),
C.R.S.

Tax Base: Tax is imposed on the transfer of the taxable estate of
every deceased domiciliary, nondomiciliary, and alien in Colorado. An
additional 10 percent fee on the tax payable is also imposed under
provisions of the Colorado Public Assistance Act (section 26-2-113 (2)
(a) (II), C.R.S.).

Present Rate: The rate is an amount equal to the federal estate tax
credit for state death taxes. The estate's total tax bill remains the
same but part of the money, equal to the federal estate tax credit,
goes to Colorado. This is called a "pick up" or "gap" tax. If there
is no liability for federal taxes, there is no liability for Colorado
taxes.

| <u>If The Adjusted Taxable Estate is</u> | <u>The Maximum Tax Credit Shall Be</u> | <u>Plus % Applied To Excess Over</u> |
|--|--|--|
| \$0 but not over \$40,000 | \$0 | 0% |

|--|--|--------------------------------------|
| Over \$2,040,000 to \$2,540,000 | \$106,800 | 8.0% over \$2,040,000 |
| Over \$2,540,000 to \$3,040,000 | \$146,800 | 8.8% over \$2,540,000 |
| Over \$3,040,000 to \$3,540,000 | \$190,800 | 9.6% over \$3,040,000 |
| Over \$3,540,000 to \$4,040,000 | \$238,800 | 10.4% over \$3,540,000 |
| Over \$4,040,000 to \$5,040,000 | \$290,800 | 11.2% over \$4,040,000 |
| Over \$5,040,000 to \$6,040,000 | \$402,800 | 12.0% over \$5,040,000 |
| Over \$6,040,000 to \$7,040,000 | \$522,800 | 12.8% over \$6,040,000 |
| Over \$7,040,000 to \$8,040,000 | \$650,800 | 13.6% over \$7,040,000 |
| Over \$8,040,000 to \$9,040,000 | \$786,800 | 14.4% over \$8,040,000 |
| Over \$9,040,000 to \$10,040,000 | \$930,800 | 15.2% over \$9,040,000 |
| Over \$10,040,000 | \$1,082,800 | 16.0% over \$10,040,000 |

If the property of a deceased resident is subject to an estate tax by another state(s), the amount of Colorado tax due may be reduced by the lesser of the following two amounts:

- (1) The amount of tax paid the other state tax that is a credit against the federal state tax;
- (2) An amount determined by multiplying the federal credit by a fraction, the numerator being the value of the gross estate minus the value of the property included in the gross estate and the denominator being the resident's gross estate.

Colorado also taxes the transfer of the gross estate of a nonresident who has property within the state. The amount of the tax is determined by multiplying the federal credit by a fraction, the numerator of which is the property value located in Colorado that is included in the gross estate and the denominator is the value of the gross estate.

Administration: Department of Revenue

Collection Period: On or before the date the federal return is required to be filed.

History of Tax Rates: Until 1980, Colorado's inheritance and succession tax applied. The tax had graduated rates that varied in amount for different classes of beneficiaries. Those beneficiaries having the closest relationship to the decedent were subject to lower tax rates than those with a more distant relationship. The 1927 tax rates were not increased until 1967 and were increased again in 1977. The new law taxes all beneficiaries according to the same rate and does not consider the beneficiaries relationship to the deceased.

Disposition of Revenue: After requirements of the Old Age Pension Fund have been satisfied, the remainder is credited to the general fund (see page 7).

(Source: Department of Revenue.)

Federal Estate Tax: A federal estate tax is imposed on all transfers of a taxable estate of every decedent that is a resident or a citizen of the United States. A unified tax credit and credits for state death taxes are allowed.

Other States: Estate or inheritance taxes are imposed by 49 states. Twenty states have both an inheritance and estate tax in effect. Nevada prohibits the imposition of an estate or inheritance tax by an amendment to its constitution. Twenty-seven states impose only an estate tax (tax on the net estate of decedent). Texas and Oregon impose only an inheritance tax (tax on the share of an estate received by each beneficiary). Colorado's neighboring states impose estate taxes based on the federal credit. Kansas and Nebraska impose an inheritance tax in addition to their estate tax.

II. Gift Tax

Enacted: 1937

Statutory Citation: Title 39, Article 25, C.R.S.

Tax Base: Although the state receives a small amount of revenue from the tax, Colorado no longer imposes a gift tax. Originally, the tax was imposed on the transfer of property by gift by any individual, resident, or nonresident, but the tax now applies only to transfers of property by gift which occurred on or before December 31, 1979.

Present Rate: The statutes set four classes of beneficiaries with graduated tax rates under each class. To illustrate, the lowest and highest rates for the four classes are shown below.

Low and High Tax Ranges for Gift Taxes

| <u>Class A</u> | <u>Class B</u> | <u>Class C</u> | <u>Class D</u> |
|---|--|--|--|
| Parent, spouse, child | In-law, grandparent, brother, sister | Uncle, aunt, niece, nephew | Other persons and corporations |
| 2% for gifts not over \$50,000; | 3% for gifts not over \$10,000; | 4% for gifts not over \$2,500; | 7% for gifts not over \$2,500; |
| 8% for gifts in excess of \$500,000 | 10% for gifts in excess of \$200,000 | 14% for gifts in excess of \$500,000 | 16% for gifts in excess of \$500,000 |

Administration: Department of Revenue

Collection Period: The tax applies to transfers of property by gift on or before December 31, 1979. The statutory provisions for this tax remain in full force and effect until all such revenue is collected.

Disposition of Revenue: General Fund.

Collections:

Gift Tax Receipts

| | | 1986 | 2,783 |

(Source: Department of Revenue.)

Other States: Delaware, Louisiana, New York, North Carolina, Oregon, South Carolina, Tennessee, and Wisconsin impose a gift tax.

Gross Ton-Mile Tax

Enacted: 1927

Statutory Citation: Section 42-3-123 (14), (15), (16), and (17), C.R.S.

Tax Base: The gross ton-mile (GTM) tax is applied to owners or operators of trucks registered as metro vehicles when operating beyond their permitted radius and to all other trucks, truck trailers, trailers, and semitrailers having an empty weight exceeding 10,000 pounds. The amount of the tax is based on the number of miles the vehicle travels on public roads in Colorado and the empty weight and cargo weight of the truck in tons. Trucks subject to the ton-mile tax pay a registration fee of \$25.30 plus the GTM tax. The GTM is an alternative available to payment of higher motor vehicle registration fees.

Present Rate:

- 1) 0.8 mill (.08 of one cent) upon each gross ton-mile of empty vehicle weight; and
- 2) 2 mills (.2 of one cent) upon each gross ton-mile of cargo weight.

Exemptions:

- Motor vehicles operated by a manufacturer, dealer, or transporter of motor vehicles,
- Farm trucks or truck tractors,
- Vehicles specially constructed for towing, wrecking and repairing,
- Vehicles owned by the state or any political or governmental subdivision thereof,
- Operator-owned vehicles transporting racehorses,
- Veterinary mobile truck units,
- Any metro vehicle having an empty weight less than 16,000 pounds,
- Any noncommercial or recreational vehicle.

Administration: Department of Revenue

Collection Period: Owners or operators are required to pay annually a nonrefundable minimum fee of \$150 with the first month's return. Returns are due on or before the twenty-fifth of each month for miles traveled the preceding month. First time permit applicants are required to pay a nonrefundable \$150 fee at the time of application or a prorated amount if there is less than a full calendar year. Taxes in excess of the first \$150 may be filed on a quarterly basis.

History of Tax Rates:

- | <u>Year</u> | <u>Rate</u> |
|-------------|---|
| 1927 -- | 5 mills (.5 of one cent) per ton-mile (ton-mile was the cargo weight multiplied by the miles carried, divided by 2,000) |
| 1935 -- | 3 mills (.3 of one cent) per ton-mile |
| 1937 -- | 2 mills (.2 of one cent) per ton-mile |
| 1954 -- | 1.5 mills (.15 of one cent) for each gross ton-mile traveled by every truck, truck tractor, trailer or semi-trailer having an empty weight in excess of 4,500 pounds. |
| 1955 -- | The present rate was adopted. |

Disposition of Revenue: GTM taxes are credited to the Highway Users Tax Fund

Collections:

Gross Ton-Mile Tax Receipts

| 1980 | 22,965,225 | 5.4 | 1985 | 30,213,934 | 5.8 |
| | | | 1986 | 30,806,427 | 2.0 |

(Source: Department of Revenue. Totals include the collections of the passenger-mile tax which average approximately \$300,000 per year.)

Other States: Most states, in addition to registration fees on contract carriers through the purchase of a certificate of convenience and necessity, impose a gross receipts tax upon income received from within a state, a ton-mile or passenger-mile tax, or flat rate privilege tax based on the weight or carrying capacity of the vehicle. Seven states were found that impose a tax on the gross receipts of income and eight states levy a mileage tax. Most states require either the purchase of a certificate of convenience and necessity or payment of a flat rate privilege tax. Kansas, Nebraska, Oklahoma, and Utah impose flat fees on contract carriers. New Mexico has adopted a ton-mile tax similar to Colorado's. The New Mexico rate is reduced one-third if 45 percent or more of the reported mileage traveled is empty. Wyoming levies a ton-mile tax with different rates for gasoline and non-gasoline powered vehicles.

Income Taxes

I. Corporate

Enacted: 1937

Constitutional and Statutory Citations: Article X, Section 17, Colorado Constitution, adopted by vote of the people, November 3, 1936; Article X, Section 19, Colorado Constitution, adopted by vote of the people November 6, 1962; Title 39, Article 22, Part 3, C.R.S.

Tax Base: Income generated by property in the state and from activities carried on in the state, whether carried on in intrastate, interstate, or foreign commerce, is subject to the corporate income tax.

Present Rate:

Tax Years Beginning After July 1, 1986

| <u>Taxable Income</u> | <u>Rate</u> |
|----------------------------|--|
| First \$50,000 | 5.25% |

Tax Years Beginning After January 1, 1983
Through June 30, 1985

Rate -- Flat 5% on taxable income

Determination of Corporate Income: Prior to 1985, Colorado employed the unitary method of computing corporate income. In this method, corporate income from all sources was considered in the determination of taxable income. As amended in 1985, Colorado excludes income from foreign sources of corporations doing business in Colorado if 80 percent or more of the corporation's property and payroll is located outside the United States.

Interstate and international companies may choose a two- or three-factor formula when apportioning income subject to Colorado taxation. Colorado's two factors represent: a company's Colorado income-producing property (owned or rented) as a percentage of the company's total income-producing property; and the company's Colorado revenue as a percentage of the company's total revenues. The Multistate Tax Compact, of which Colorado is a member, adds a third factor -- payroll attributable to Colorado as a percentage of the company's total payroll. The Department of Revenue may also make other rules for apportioning a company's income when unusual circumstances dictate.

The actual determination of taxable income in Colorado closely follows federal corporate taxable income. There are, however, several additions, credits, deductions, and modifications that may change the final income figure and the taxes paid. The major corporate tax credits, and their corresponding reductions in tax liability, are listed below. However, these credits, except the investment tax credit (ITC), applied to specific years and have expired. Unless reestablished by legislation, Colorado's ITC will no longer be applicable due to federal tax reform. These credits are still being claimed because of carry forward provisions in the law. The figures listed below will decline in the future.

| <u>Credits</u> | <u>Credit Taken 1984-85 (millions)</u> |
|---------------------------------------|--|
| Investment tax credit | \$13.3 |
| New business facilities tax credit | 2.1 |
| Pollution control property tax credit | 0.1 |
| Commercial energy tax credit | 1.2 |
| Inventory property tax credit | <u>8.8</u> |
| Total | \$25.5 |

Administration: Department of Revenue

Collection Period: The due date of the tax return is the fifteenth day of the fourth month following the close of the corporation's fiscal year. A provision for estimated payments of four equal installments is required if tax liability can reasonably be expected to exceed \$5,000.

Disposition of Revenue: A small portion (1.5 percent in 1985) of income taxes are apportioned to cities and towns and to unincorporated areas as a method to distribute a share of cigarette taxes (section 39-22-623, C.R.S.). The remainder is credited to the state general fund.

Collections:

Corporate Income Tax Receipts
(\$ in Millions)

| <u>Fiscal Year</u> | <u>Collections</u> | <u>Percent Change</u> | <u>Fiscal Year</u> | <u>Collections</u> | <u>Percent Change</u> |
|--------------------|--------------------|-----------------------|--------------------|--------------------|-----------------------|
| 1976 | \$ 69.9 | -- | 1981 | \$ 84.8 | -27.8% |
| 1977 | 80.0 | 14.5% | 1982 | 88.8 | 4.7 |
| 1978 | 89.3 | 11.6 | 1983 | 66.5 | -25.1 |
| 1979 | 115.8 | 29.7 | 1984 | 94.1 | 41.5 |
| 1980 | 117.4 | 1.4 | 1985 | 78.8 | -16.3 |
| | | | 1986 | 124.4 | 57.8 |

Other States: Five states -- Nevada, South Dakota, Texas, Washington, and Wyoming -- do not impose an income tax on corporations. Most states tax at a flat rate while some states use the same graduated rate for corporations and individuals. Colorado's neighboring states impose a corporate income tax at the following rates as summarized below.

| <u>State</u> | <u>Flat or Graduated Rate</u> | <u>Number of Taxable Classes</u> | <u>Tax Is Based On</u> |
|--------------|-------------------------------|----------------------------------|----------------------------------|
| Kansas | Flat | 1 | Federal tax liability |
| Nebraska | Graduated | 2 | State individual income tax rate |
| New Mexico | Graduated | 3 | Federal tax liability |
| Oklahoma | Flat | 1 | Federal tax liability |
| Utah | Flat | 1 | Gross income less deductions |
| Wyoming | No income tax | -- | -- |

Federal Tax: Prior to the passage of the Federal Tax Reform Act of 1986, the federal corporate tax rate followed the graduated rate listed below.

| <u>Taxable Income Over</u> | <u>But Not Over</u> | <u>Tax Rate (percent)</u> |
|----------------------------|---------------------|--|
| \$ 0 | \$ 25,000 | 15% |
| 25,000 | 50,000 | 18 |
| 50,000 | 75,000 | 30 |
| 75,000 | 100,000 | 40 |
| 100,000 | 1,000,000 | 46 |
| 1,000,000 | 1,405,000 | 46% (graduated) plus a 5% sur-tax on net taxable income over \$1,000,000 |
| \$1,405,000 and above | | Flat 46% (not graduated) on net taxable income |

New federal corporate tax rates will be fully effective on July 1, 1987, under the Federal Tax Reform Act of 1986. Corporations whose tax year includes this date must prorate their tax allowing the use of lower rates after July 1, 1987. The present rates (15 through 46 percent) will be reduced to three rates using the following schedule:

| <u>Taxable Income</u> | <u>Rate</u> (graduated) |
|-----------------------|-------------------------|
| Up to \$50,000 | 15% |
| \$50,000 to \$75,000 | 25% |
| Over \$75,000 | 34% |

Income Tax

II. Personal

Enacted: 1937

Constitutional and Statutory Citations: Article X, Section 17, Colorado Constitution, added by vote of the people November 3, 1936; Title 39, Article 22, C.R.S.

Tax Base: The Colorado personal income tax is determined by reference to the federal tax law. The state follows federal law to arrive at an individual's adjusted gross income (AGI). The Colorado AGI consists of modifications that add to or subtract from the federal AGI.

| <u>Additions</u> | <u>Subtractions</u> |
|---|---|
| Deduction for a married couple when both work | Federal bond interest |
| P.E.R.A./school district pension contribution | Pension and annuity income exclusion |
| Lump-sum distribution from pension or profit sharing plan using federal ten-year averaging method | Military retirement income exclusion |
| Some state or municipal bond interest | State income tax refund reported on federal return |
| Federal net operating loss carryover | Modified federal child and dependent care expenses |
| Partnership or fiduciary adjustments which would increase federal income | Colorado dividend exclusion |
| | Colorado interest exclusion |
| | Colorado operating loss carryover deduction |
| | Distribution of previously deferred P.E.R.A./school district retirement contributions that increase the federal AGI |
| | Partnership or fiduciary adjustments which would decrease federal income |

Once a Colorado AGI is determined, adjustments are made for deductions and exemptions to determine Colorado taxable income. The

Colorado taxable income is the basis for calculating Colorado tax liability. The taxable income is multiplied by the tax rate and then increased by the surtax on interest and dividends to determine Colorado gross tax liability. The gross tax liability is then reduced by the amount of tax credits allowable to determine the net tax liability.

Present Rate: The current individual income tax rates adjusted for the annual inflation factor are presented below:

| <u>Taxable Income</u> | | <u>Rates</u> | | | |
|-----------------------|---------------------|--------------|--------|-------------------|----------|
| <u>Over</u> | <u>But Not Over</u> | | | | |
| \$ 0 | - \$1,420 | | 3.0% | of taxable income | |
| 1,420 | - 2,830 | \$ 42.60 | + 3.5% | of excess over | \$ 1,420 |
| 2,830 | - 4,250 | 91.95 | + 4.0% | of excess over | 2,830 |
| 4,250 | - 5,660 | 148.75 | + 4.5% | of excess over | 4,250 |
| 5,660 | - 7,080 | 212.20 | + 5.0% | of excess over | 5,660 |
| 7,080 | - 8,490 | 283.20 | + 5.5% | of excess over | 7,080 |
| 8,490 | - 9,910 | 360.75 | + 6.0% | of excess over | 8,490 |
| 9,910 | - 11,320 | 445.95 | + 6.5% | of excess over | 9,910 |
| 11,320 | - 12,740 | 537.60 | + 7.0% | of excess over | 11,320 |
| 12,740 | - 14,150 | 637.00 | + 7.5% | of excess over | 12,740 |
| 14,150 | - and over | 742.75 | + 8.0% | of excess over | 14,150 |

Administration and Collection: Department of Revenue

Collection Period: Due April 15 unless an extension is granted by the Department of Revenue.

| Over \$11,000 | | 10.0% | | | | |

- 1/ 1959 -- All net income over \$10,000 was taxed at 9% and the income bracket of over \$11,000 was eliminated.
- 2/ Same tax brackets as 1963 adjusted yearly by the annual inflation factor (AIF).
- 3/ This is the effective tax rate for years when the one-half percent credit applies.

Inflation factor. In 1978 an annual inflation factor (AIF) or indexing was adopted. This factor is set each year by the General Assembly and applies to the tax brackets, the standard deduction and the personal exemption. The purpose of the AIF is to prevent an increase in tax liability due primarily to inflation. The use of the AIF has been suspended during certain years due to state revenue shortfalls and low inflation periods. The inflation adjustment is shown below by year.

| 1978 | 1979 | 1980 | 1981 | 1982 | 1983 | 1984 | 1985 | 1986 | 1987 |
|------|------|------|------|------|------|------|------|------|------|
| 6% | 7% | 9% | 8% | 6% | 0% | 0% | 0% | 0% | 1% |

The AIF for 1988 and each year thereafter is 3 percent. Also to be noted is that the AIF is cumulative. The tax brackets for a year following indexing become the new brackets to which the rates are applied.

Surtax. Since the beginning of the Colorado personal income tax, a surtax has been imposed on dividends from corporate stock, royalties, interest from money, notes, credits, bonds, and other securities. This additional tax has been imposed at a flat rate (2 percent) on income from these sources above specified amounts. The two percent rate has been applied to income as follows:

| <u>1937</u> | <u>1943</u> | <u>1951</u> | <u>1959</u> | <u>1979</u> |
|---------------|--------------------------|--------------------------|----------------------------|-----------------------------|
| All Income | Income above \$200 | Income above \$600 | Income above \$5,000 | Income above \$15,000 |

Income tax credits. Percentage credits have been allowed against the Colorado personal income tax in several years, beginning in 1951. The percentages shown are for reductions of the individual tax liability for that year.

| | | |
|-------------------|----|--|
| 1951 through 1956 | -- | 20 percent for each year |
| 1957 | -- | 15 percent for 1957 only |
| 1963 | -- | A permanent tax credit of 1/2 percent of taxable income of \$9,000 and less was established. |
| 1979 | -- | 10 percent |
| 1980 | -- | 20 percent |
| 1981 | -- | 16 percent |
| 1984 through 1990 | -- | 1/2 percent credit suspended |

Disposition of Revenue: A small portion (1.5 percent in 1985) of income taxes are apportioned to cities and towns and to unincorporated areas as a method to distribute a share of cigarette taxes (section 39-22-623, C.R.S.). The remainder is credited to the general fund.

Collections:

Personal Income Tax Receipts
(\$ in Millions)

| <u>Fiscal Year</u> | <u>Revenues</u> | <u>Percent Change</u> | <u>Fiscal Year</u> | <u>Revenues</u> | <u>Percent Change</u> |
|------------------------|-----------------|---------------------------|------------------------|-----------------|---------------------------|
| 1976 | \$322.2 | -- | 1981 | \$479.4 | 3.0% |
| 1977 | 368.9 | 14.5% | 1982 | 621.0 | 29.5 |
| 1978 | 442.7 | 20.1 | 1983 | 703.3 | 13.3 |
| 1979 | 480.6 | 8.6 | 1984 | 796.4 | 13.2 |
| 1980 | 465.6 | - 3.1 | 1985 | 921.7 | 15.7 |
| | | | 1986 | 973.2 | 5.6 |

Other States: Ten states levy a flat income tax rate, and seven states do not levy a personal income tax. Thirty-three states use a graduated rate system. Bordering states impose personal income taxes as summarized below.

| <u>State</u> | <u>Flat or Graduated</u> | <u>Based On Federal Tax Liability</u> | <u>Number of Joint Filing Taxable Classes</u> |
|--------------|--------------------------|---------------------------------------|---|
| Kansas | Graduated | Yes | 8 |
| Nebraska | Flat | Yes | 1 |
| New Mexico | Graduated | Yes | 19 |
| Oklahoma | Graduated | Yes | 7 |
| Utah | Graduated | Yes | 6 |
| Wyoming | No income tax | -- | -- |

Federal Income Tax: The federal income tax is assessed on a graduated tax schedule. Present law contains 14 or 15 percentage rates which range from 11 to 50 percent, depending on taxable income.

For the 1987 tax year, the 14 or 15 different tax rates will be reduced to the rates shown below:

| | <u>Income</u> | <u>Rate</u> |
|---------------|------------------|-------------|
| Joint return | \$ 0 - \$ 3,000 | 11% |
| | 3,001 - 28,000 | 15 |
| | 28,001 - 45,000 | 28 |
| | 45,001 - 90,000 | 35 |
| | 90,001 and above | 38.5 |
| Single return | 0 - \$ 1,800 | 11% |
| | 1,801 - 16,800 | 15 |
| | 16,801 - 27,000 | 28 |
| | 27,000 - 54,000 | 35 |
| | 54,001 and above | 38.5 |

Starting in 1988, a surcharge of 5 percent will be added to high-income taxpayers. This surcharge has the effect of eliminating the graduated rate and charging a flat 28 percent rate against higher income taxpayers. The tax rates for 1988 and after are shown below.

Single return - 15% on income up to \$17,850
 - 28% above that amount

Joint return - 15% on income up to \$29,750
 - 28% above that amount

Insurance Premiums Tax

Enacted: 1913

Statutory Citations: Sections 10-3-209, 10-5-111, 10-6-128,
31-30-1014 (3), (5), (6), C.R.S.

Tax Base: This tax is imposed on the gross amount of all premiums from insurance policies covering property or risks in this state. The law applies to all companies and types of business which engage in writing insurance policies or contracts (regardless of the type of insurance policy).

Present Rates: 2.25 percent for a non-Colorado company; 1 percent for a company maintaining a home office or regional home office in Colorado; 1 percent for captive insurance companies; and 2 percent for surplus line insurance.

Exemptions:

- fraternal and benevolent associations;
- mutual protective associations writing crop hail insurance on that portion of the premium designated to the loss fund;
- policies issued before 1959 by domestic insurance companies maintaining their principal place of business in this state and having 30 percent of its assets invested in county, city, town, district, or this state's bonds or warrants;
- premiums contracted for after December 31, 1968 on policies in connection with a pension, profit sharing, or annuity plan.

Administration and Collection: Department of Regulatory Agencies,
Division of Insurance

Collection Period: Due on the first day of March in each year for the preceding calendar year. Quarterly payments are required for companies that were liable for a tax of \$5,000 or more during the preceding calendar year.

History of Rates:

| | | |
|------|-------|--|
| 1913 | 2.0% | All companies |
| | -- | Exempt were companies with 50% or more of their assets in Colorado bonds or warrants. |
| 1949 | 2.0% | Surplus line insurance (insurance not otherwise available in Colorado purchased through licensed brokers from "unauthorized" insurance companies (e.g., Lloyds)) |
| 1959 | 2.25% | All companies |
| | 1.0% | Companies with 50% or more of their assets in Colorado bonds or warrants. |
| 1960 | 2.25% | All companies |
| | 1.0% | Companies with 30% or more of their assets in Colorado bonds or warrants. |
| 1969 | 2.25% | All companies |
| | 1.0% | Companies maintaining a home or regional office in the state. |
| 1972 | 1.0% | Captive insurance companies (wholly owned subsidiary companies that insure only the risks of the parent company.) |

Disposition of Revenue: Moneys are credited to the general fund, except that each year over \$20 million of collections have been transferred to the fire and police members' benefit fund for firemen's and policemen's pension unfunded liability, for death and disability insurance, and for volunteer firemen. (See page 10 for Fire and Police Members' Benefit Fund.)

Collections:

Insurance Premium Tax Receipts
(\$ in Millions)

| <u>Fiscal Year</u> | <u>Collections</u> | <u>Percent Change</u> | <u>Fiscal Year</u> | <u>Collections</u> | <u>Percent Change</u> |
|--------------------|--------------------|-----------------------|--------------------|--------------------|-----------------------|
| 1976 | \$22.9 | -- | 1981 | \$41.6 | 4.0% |
| 1977 | 27.8 | 21.4% | 1982 | 47.9 | 15.1 |
| 1978 | 31.0 | 11.5 | 1983 | 51.6 | 7.7 |
| 1979 | 35.7 | 15.2 | 1984 | 56.6 | 9.7 |
| 1980 | 40.0 | 12.0 | 1985 | 64.7 | 14.3 |
| | | | 1986 | 75.0 | 15.9 |

Other States: All 50 states impose a tax on insurance companies. The rate is usually a fixed percentage of the taxable gross premiums. Some states also have a higher tax on foreign corporations and reduce the rate if a certain amount of a company's assets are invested in the state. Many states impose a tax on fire insurance companies for the support of the fire marshall or authorize cities to levy such a tax for support of the local fire department.

Liquor Taxes

Enacted: 1935

Statutory Citations: Section 12-46-111, C.R.S. -- Fermented Malt Beverages
Section 12-47-127, C.R.S. -- Alcoholic Beverages

Tax Base: The tax applies to the following alcoholic beverages:

Fermented malt beverages -- any beverage obtained by the fermentation of barley, malt, hops, or similar product containing between 0.5 percent and 3.2 percent alcohol by weight that can be sold to persons 18 years old or older.

Malt liquors -- beer and any beverage obtained by the fermentation of barley, malt, hops or similar product containing more than 3.2 percent of alcohol by weight that can be sold only to individuals 21 years of age or older.

Medicinal spirituous liquors -- any alcoholic beverage, except beer and wine, which is at least 100 proof.

Special malt liquors -- malt liquors which contain between 0.5 percent and 2 percent alcohol by weight.

Spirituous liquors -- any alcoholic beverage obtained by distillation and mixed with water and other substances in solution, including brandy, rum, whiskey, gin, and every liquid or solid containing alcohol that is fit for use for beverage purposes.

Vinous liquors -- wine and fortified wines not exceeding 21 percent of alcohol by volume.

Special provisions are included for "limited wineries" which are establishments manufacturing not more than 100,000 gallons, or the metric equivalent thereof, of vinous liquors annually which use not less than 75 percent Colorado-grown products in the manufacture of such vinous liquors.

Present Rates:

Fermented malt beverage -- 8 cents per gallon
Malt liquors -- 8 cents per gallon
Vinous liquors -- 7.33 cents per liter
Vinous liquors from a limited winery marketed in metric measure containers with less than 21 percent alcohol -- .70 cents per liter
Spirituous liquors -- 60.26 cents per liter

Administration and Collection: Department of Revenue

Collection Period: Twentieth day of each month for the preceding month's sales

Exemptions: The following alcoholic beverages are exempt from the tax:

- sacramental wines sold and used for religious purposes;
- vinous liquor made for family use and not for sale;
- wines sold at public auction where the purpose is to dispose of liquor obtained by reason of salvage of damaged shipments, foreclosure of a lawful lien, or by failure of an owner to claim or furnish instructions as to the disposition thereof.

(Source: Department of Revenue.)

Other States: The range of tax rates on alcoholic beverages varies greatly among the 50 states. The lowest tax on beer is about 50 cents a thirty-two gallon barrel (1.6 cents per gallon). The lowest rate

for distilled spirits is about 50 cents a gallon. These rates do not include local taxes, licenses, surtaxes, additional taxes imposed or markup prices added by state control boards. Sixteen states have alcohol control boards. The alcohol beverage tax rates for Colorado's bordering states are listed below.

| <u>Liquor</u> | <u>Kansas</u> | <u>Nebraska</u> | <u>New Mexico</u> | <u>Oklahoma</u> | <u>Utah</u> | <u>Wyoming</u> |

| Beer, regardless of alcoholic content..... | \$ 9.00 per barrel (31 gallons) or \$.29 per gallon |

Lottery

Enacted: 1982

Constitutional and Statutory Citations: Article XVIII, Section 2, Colorado Constitution approved by Colorado voters November 4, 1980; Title 24, Article 35, Part 2, C.R.S.

Collection Base: Sale of Colorado lottery tickets

Administration and Collection: State Lottery Division, Department of Revenue

Collection Period: Daily

Disposition of Revenue: Revenues from the lottery are credited to the lottery fund. At least 50 percent of the total revenue accruing from the sale of lottery tickets must be disbursed as prize money. All expenses of the division are paid from the lottery fund. After payment of prizes and the expenses of the division, revenues are disbursed as follows: 40 percent of the proceeds is transferred to the Conservation Trust Fund; 10 percent is appropriated by the General Assembly to the Division of Parks and Outdoor Recreation; and 50 percent is appropriated for state capital construction.

Distribution of total collections in 1985 was as follows:

| | |
|---|-------|
| Prize money..... | 50% |
| Conservation Trust Fund*..... | 14% |
| Division of Parks and Outdoor Recreation..... | 3.5% |
| State Capital Construction..... | 17.5% |
| Administration and Operation..... | 15% |

* The money in this fund is distributed to Colorado counties, cities, and special districts using a formula based on the population in each county, city, and eligible special districts (section 29-21-101, C.R.S.).

Collections:

Net Lottery Receipts*
(\$ in Millions)

| <u>Fiscal Year</u> | <u>Collections*</u> | <u>Percent Change</u> |
|------------------------|---------------------|---------------------------|
| 1983 | \$41.7 | -- |
| 1984 | 40.7 | - 2.4% |
| 1985 | 32.0 | -21.4 |
| 1986 | 29.2 | - 8.75 |

* Receipts after distribution of prize moneys. These totals are moneys paid to the Conservation Trust Fund, Division of Parks and Outdoor Recreation, and State Capital Construction Fund.

Other States: Currently, 22 states -- Washington, Oregon, California, Arizona, Colorado, Iowa, Illinois, Missouri, Michigan, Ohio, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, and Maine -- operate a state lottery. Voters in five states -- Florida, Idaho, Kansas, Montana, and South Dakota -- approved ballot proposals to establish lotteries in the 1986 general election.

Motor-Fuel Tax

Enacted: 1919

Statutory Citations: Article X, Section 18, Colorado Constitution; Title 39, Article 27, Part 1, C.R.S. -- Gasoline; Title 39, Article 27, Part 2, C.R.S. -- Special Fuels.

Tax Base: Motor-fuel taxes are imposed on all gasoline and special fuels, except fuel used for aviation purposes. Special fuels include diesel, kerosene, liquified petroleum gases, and natural gas.

Present Rate: Effective July 1, 1986: 18 cents per gallon on gasoline; 20.5 cents per gallon on special fuel; and 18 cents per gallon on gasohol. The tax increase is to expire on July 1, 1989 at which time the tax will be 12 cents for gasoline and 13 cents for special fuel. It should be noted that it is the intent of the General Assembly to modify or extend the tax increase after reviewing the results of a study concerning allocation of highway repair costs.

Trucks purchasing diesel fuel outside the state do not pay a fuel tax. However, such trucks do pay a gross ton-mile tax (see Gross Ton-Mile Tax).

Administration and Collection: Department of Revenue

Collection Period: On or before the twenty-fifth day of the calendar month following the month in which the fuel was used or imported.

History of Tax Rates:

| <u>Year</u> | <u>Gasoline</u> | <u>Special Fuel (Diesel)</u> | <u>Gasohol</u> |
|--------------------|-----------------|----------------------------------|----------------|
| 1919 | 1 cent | 1 cent | |
| 1923 | 2 | 2 | |
| 1927 | 3 | 3 | |
| 1929 | 4 | 4 | |
| 1947 | 6 | 6 | |
| 1966 ^{1/} | 7 | 7 | |
| 1967 | 6 | 6 | |
| 1969 | 7 | 7 | |
| 1978 | 7 | 7 | 2 cents |
| 1981 | 9 | 9 | 4 |
| 1983 | 12 | 13 | 7 |
| 1986 | 18 | 20.5 | 18 |

^{1/} One cent increase was allocated to the "highway flood disaster relief fund", in effect from August 1, 1965 through August 31, 1966.

Disposition of Revenue: The tax is credited to the Highway Users Tax Fund. The General Assembly appropriates funds to state agencies whose functions are related to the HUTF, e.g., Department of Revenue for collecting taxes and to the Department of Public Safety for Colorado State Patrol activities. These appropriations are often referred to as "off-the-top" deductions, and decrease the fund from which distributions are allocated. The "off-the-top" deductions are funded from revenues from the first seven cents of the tax on motor fuels, from registration fees, and from ton-mile and passenger-mile taxes.

As illustrated below, two separate formulas are used to distribute funds generated from the motor-fuel tax to the state, cities, and counties. The first formula relates to money credited to the fund from the first seven cents of the fuel tax. The revenues generated by the 1981, 1983, and 1986 fuel tax increases are subject to a different formula. The funds raised by the additional fuel tax are subject to a 16 percent "off-the-top" deduction for bridge repair. After allocation to the special bridge account, the remaining 84 percent is distributed to the state, cities, and counties.

Motor Fuel Tax Distribution

| <u>First 7 Cents</u> (1969 law) | <u>Additional Revenues</u> (amendments in 1981, 1983, 1986) |
|--|---|
| A. "Off-the-top" deductions | A. "Off-the-top" bridge repair (16%) |
| B. Remaining funds 65% to state highway fund 26% to counties 9% to cities | B. Remaining funds 60% to state highway fund 22% to counties 18% to cities |

| | | | 1986 | 197.9 | 6.1 |

* Department of Highways Annual Report.

Other States: All 50 states impose a similar motor-fuel tax. The tax rate for bordering states' taxes on gasoline and diesel are listed below (local taxes are not included).

| <u>State</u> | <u>Gasoline</u> | <u>Diesel</u> |
|--------------|-----------------|---------------|
| Kansas | \$.11 | \$.13 |
| Nebraska | .19 | .19 |
| New Mexico | .11 | .11 |
| Oklahoma | .10 | .10 |
| Utah | .14 | .14 |
| Wyoming | .08 | .08 |

Georgia and Florida impose sales taxes on motor fuels. Twelve other states periodically adjust the tax rate in accordance with the wholesale or retail price. The average gasoline tax rate for the fifty states, excluding local taxes, sales taxes, inspection fees or license fees is approximately 13.15 cents per gallon. Five states -- Oregon, Iowa (diesel only), Connecticut, Virginia and Texas -- will increase their rates on January 1, 1987.

Thirty-six states impose the same state tax for diesel as for gasoline. Two states have lower rates for diesel than for gasoline -- Arkansas, 12.5 cents per gallon for diesel, 13.5 cents per gallon for gasoline and Kentucky, 12 cents per gallon for diesel, 15 cents for gasoline.

Federal Tax: The federal taxes on motor fuels are listed below.

| | |
|--|----------------------|
| Gasoline | 9 cents per gallon |
| Diesel fuel | 15 cents per gallon |
| Special motor fuels (including alcohol fuels from petroleum) | 9 cents per gallon |
| Gasohol | 3 cents per gallon |
| Alcohol fuels from natural gas | 4.5 cents per gallon |

Pari-Mutuel Racing

Enacted: 1947. Referred act of the General Assembly was approved by the voters on November 2, 1948.

Statutory Citation: Section 12-60-109, C.R.S.

Tax Base: Applied to the gross receipts from wagering on horse and greyhound racing events, prior to the distribution of the winnings (handle).

Present Rate and Distribution:

| <u>Type of Racing Operation</u> | <u>Rate</u> | <u>Distribution</u> |
|---------------------------------|-----------------------|---------------------|
| Greyhound* | 4.0% On all wagers | General Fund |
| Horse Racing | 4.0% On all wagers | General Fund |
| commercial year-round | | |
| (no commercial | 0.5% On win, place, | Horse Breeders and |
| year-round tracks | or show | Owners Awards and |
| currently operate) | 3.5% All other wagers | Supplemental Purse |
| | | Fund |
| Fair Circuit | 4.0% On all wagers | General Fund |
| (operate at state and | | |
| county fairs -- three | 5.5% On win, place, | Horse Breeders and |
| meets took place | or show and, | Owners Awards and |
| during 1986) | 6.0% On other wagers | Supplemental Purse |
| | | Fund |
| Nonprofit year-round | 1.0% On all wagers | Racing Commission |
| (None currently | or cash fee, | Cash Fund |
| exist) | whichever is | |
| | greater | |
| | 0.5% On win, place, | Horse Breeders and |
| | or show and, | Owners Awards and |
| | 3.5% All other wagers | Supplemental Purse |
| | | Fund |

* If the aggregate amount paid by all tracks exceeds \$6,201,685.85 in a year, a licensing fee cannot be assessed in the following year. If the aggregate amount paid is below the guarantee, each track is assessed a proportionate amount to make up the shortfall.

Administration and Collection: Colorado Racing Commission, Department of Regulatory Agencies

Collection Period: Daily

| Horse Racing (non-profit year round) | none |
| Fair Circuit | \$ 104,888 |

* Figures include cash funds and general fund moneys.

Other States: As of December, 1984, 30 states impose a tax on pari-mutuel betting. California received the largest amount of revenues, collecting over \$135 million during 1984. For regional states, the tax is imposed as listed below. Utah and Wyoming do not allow pari-mutuel wagering. Voters in two states, Texas and Kansas, approved pari-mutuel wagering in the 1986 general election.

Arizona..... 2% if handle does not exceed
\$100,000
4% on first \$100,000
7% of excess over \$100,000

Nebraska..... State Fair meets: 4% on excess
over \$7,000,000
All other meets:

3.5% over \$350,000 to \$400,000
4.0% over \$400,000

Oklahoma..... 6%

Passenger-Mile Tax

Enacted: 1927

Statutory Citation: Section 42-3-123 (18), C.R.S.

Tax Base: Passenger miles traveled by passenger buses

Present Rate: The tax rate is one mill per passenger-mile. Passenger miles are determined by multiplying the actual number of revenue passengers carried by each motor vehicle by the number of miles carried. In lieu of paying the passenger-mile tax, passenger buses may obtain a temporary certificate of public convenience and necessity for a fee of \$10. Passenger buses registered in another state making occasional trips to Colorado may obtain a trip permit for a \$5 fee or the amount of the passenger-mile tax due, whichever is greater.

Exemptions: The tax does not apply to passenger service rendered within a municipality by a company that engages in the mass transit of persons by bus or trolley coach. Also exempted are taxicabs, hotel buses, sightseeing buses or limousines operated within the boundaries of a city, city and county, or incorporated town.

Administration and Collection: Department of Revenue

Collection Period: On or before the twenty-fifth day of each month for miles traveled the preceding month.

History of Tax Rates: The tax rate has not changed since first imposed in 1927.

Disposition of Revenue: Revenues are credited to the Highway Users Tax Fund.

Collections: The tax is collected with the gross ton-mile tax and is not accounted for separately. The Department of Revenue estimates that revenues from this tax are approximately \$300,000 per year.

Other States: Two states bordering Colorado, New Mexico and Wyoming, impose a passenger tax based on vehicle weight, not passenger-miles traveled. (For additional information, see the Gross Ton-Mile Tax.)

Sales and Use Taxes

I. Sales Tax

Enacted: 1935

Constitutional and Statutory Citations: Article XXIV, Colorado Constitution; Title 39, Article 26, Part 1, C.R.S. -- State tax. Title 29, Article 2, Part 1, C.R.S. -- Local tax.

Tax Base: Gross receipts from retail sales of tangible personal property are subject to the sales tax, unless specifically exempted by statute.

Present Rate: The state rate is 3 percent on taxable sales. Local governments may impose, with voter approval, additional taxes as long as the combined city, county, and state rate does not exceed 7 percent. However, the 7 percent limitation cannot prohibit a county from levying a 1 percent tax. (See pages 63 to 67 for further discussion of local sales taxes.)

Administration and Collection: The Department of Revenue administers all state sales taxes collected by merchants. The department also administers sales taxes for 180 municipalities and 29 counties. There are 35 municipalities and 34 counties that collect and administer their own sales tax.

Collection Period: Taxes are collected monthly and are due by the twentieth day of the month following collection. Retailers are entitled to retain 3.33 percent of the taxes to cover collection expenses.

History of Tax Rates:

| <u>1935</u> | <u>1965</u> | <u>May 1, 1983 Through July 31, 1984</u> | <u>Since August 1, 1984</u> |
|-------------|-------------|--|---------------------------------|
| 2% | 3% | 3.5% | 3% |

Disposition of Revenue: After the requirements of the Old Age Pension Fund have been satisfied, the remainder is credited to the general fund (see page 7).

Sales and use tax diversion ("Noble money"). Seven percent of the sales and use taxes that are attributable to the sales or use of motor vehicles and related items is transferred to the Highway Users Tax Fund. The total funds transferred cannot exceed \$40 million in FY 1986-87 and \$50 million in FY 1987-88 and thereafter.

Exemptions

The following sales transactions have been excluded from the state sales tax:

- cigarettes;
- all commodities subject to use taxes;
- special fuel defined as diesel, kerosene, liquified petroleum gases, and natural gas;
- lubricating oil used other than in motor vehicles;
- gasoline;
- drugs dispensed by prescription;
- insulin dispensed by a physician;
- glucose used for treatment in insulin reactions;
- urine and blood testing kits;
- hypodermic syringes and needles;
- prosthetic devices;
- wheelchairs and hospital beds;
- corrective eye glasses, contact lenses or hearing aids;
- therapeutic devices or appliances which are used to treat or correct a disability or when recommended by a doctor;
- sales to the federal government, the state of Colorado, and its political subdivisions;
- sales to charitable organizations;
- sales to nonprofit schools;
- construction and building materials for use in building, altering or repairing structures used by the federal government, the state of Colorado or political subdivisions thereof, charitable organizations, and public schools;
- division of partnership assets according to their interest in the partnership;
- transfer of assets to a corporation in exchange for the corporation's outstanding stock;
- assets of shareholders or dissolution of professional corporations;
- distribution of a corporation's assets to its stockholders;
- transfer of assets from a parent corporation to a subsidiary;
- transfer of assets from a subsidiary to a parent corporation when the parent corporations owns at least 80 percent of the subsidiary;
- transfer of partnership interest;
- transfer of reorganization;
- transfer of assets to a partnership for interest in the partnership;
- repossession of property by a chattel mortgage holder or foreclosure;
- transfer of assets between parent and subsidiary which are owned by the same shareholders;
- purchases of machinery or machine tools in excess of \$1,000 by a person engaged in manufacturing, not to exceed \$500,000 per calendar year;
- sales of bags or containers to a retail vendor of food which are to be furnished to a consumer;

- newspapers and preprinted newspaper supplements;
- property purchased by a business for manufacture or compounding for sale;
- sales of electricity, coal, gas, fuel oil, coke, or nuclear fuel for use in processing or manufacturing;
- newsprint and printer's ink;
- refractory materials and carbon electrodes used to manufacture iron and steel;
- inorganic chemicals used in processing vanadium-uranium ores;
- property for use in food manufacturing when such property becomes part of a product or is unfit for further use;
- transfer of property to out-of-state vendee;
- property for testing, modification, and inspection if the ultimate use occurs outside the state;
- sales of motor vehicles to nonresidents purchased for use by nonresidents outside of Colorado;
- any exchange of one vehicle for another if both are subject to licensing in Colorado;
- neat cattle, sheep, lambs, poultry, swine, goats, and mares and stallions for breeding;
- live fish for stocking;
- farm sale when a farmer is abandoning the operation;
- livestock feed, seed and orchard trees;
- straw and other bedding for livestock use;
- straw and other bedding used in the care of poultry;
- leases of personal property for three years or less if tax is paid upon original acquisition;
- commodities and services to any occupant who is a permanent resident of a hotel under written agreement for occupancy of at least 30 consecutive days;
- forty-eight percent of the purchase price of a factory built home;
- retail sales within a distance of 20 miles within the boundaries of this state to residents of adjoining states if the adjoining state has no sales tax (note: all adjacent states currently impose a sales tax);
- food marketed for consumption as is commonly sold by grocers;
- electricity, coal, wood, gas, fuel oil, or coke sold, but not for resale, to occupants of residences for light, heat, and power of a residence;
- sales in vending machines under 15 cents;
- aviation fuel;
- new or used trailers, semitrailers, trucks, truck tractors or truck bodies manufactured within this state when used in interstate commerce or outside Colorado, dealer delivery authorized;
- construction materials to railroads for construction and maintenance;
- electric-powered motor vehicles (until July 1, 1987);
- aircraft used in interstate commerce; and
- meals to employees which are considered part of their salary.

| 1980 | 482.7 | 5.2 | 1985 | 673.8* | -7.9 |
| | | | 1986 | 662.9 | -1.6 |

* These figures include the additional 0.5 percent tax from May 1, 1983, through July 31, 1984.

Other States: Currently, 45 states impose sales taxes; 28 states have exempted food from the tax. The lowest sales tax rate for the 50 states is 3 percent. Colorado and four other states, Wyoming, Georgia, North Carolina, and Virginia, have a sales tax of 3 percent. The highest state-imposed tax rate is 7.5 percent in Connecticut. Twenty-nine states, including Colorado, allow for additional local sales taxes. The five states without a state sales tax are Alaska, Delaware, Montana, New Hampshire and Oregon.

Sales Tax Rates and Major
Exemptions in Neighboring States

| <u>State</u> | <u>Sales Tax Rate</u> | <u>Use Tax Rate</u> | <u>Local Taxes</u> | <u>Food Exemption</u> | <u>Drugs Exemption</u> |

| Oklahoma | 3.25 | sales | Yes | No | Yes |
| Utah | 4 38/64 | tax | Yes | No | Yes |
| Wyoming | 3 | | Yes | No | Yes |

** Rate will increase to 4.0 percent on January 1, 1987.

II. Use Tax

Enacted: 1937

Statutory Citation: Title 39, Article 26, Part 2, C.R.S. -- State Use Tax. Title 29, Article 2, Part 1, C.R.S. -- County or Municipal Sales or Use Tax.

Tax Base: Use taxes are collected on receipts from charges or costs of storing, using, or consuming articles of tangible personal property purchased at retail.

Present Rate: The state rate is three percent. Local governments may impose, with voter approval, additional taxes as long as the combined state, county, and city rate does not exceed 7 percent. However, the 7 percent limitation cannot prohibit a county from levying a 1 percent tax.

Administration and Collection: Department of Revenue

Collection Period: Taxes are collected monthly when the cumulative tax due at the end of a month is in excess of \$300. The tax is due before the twentieth day of the following month.

History of Tax Rates:

| <u>1937</u> | <u>1965</u> | <u>May 1, 1983 through July 31, 1984</u> | <u>Since August 1, 1984</u> |
|-------------|-------------|--|---------------------------------|
| 2% | 3% | 3.5% | 3% |

Disposition of Revenue: After the requirements of the Old Age Pension Fund have been satisfied, the remainder is credited to the general fund (see page 7).

Exemptions: Items exempt from state sales tax are also exempt from the state use tax (see sales tax exemptions on page 48).

| | | | 1986 | 76.1 | 4.2 |

Other States: See the sales tax discussion on page 47.

Severance Tax

Enacted: 1977

Statutory Citation: Title 39, Article 29, C.R.S.

Tax Base: The severance tax is imposed on the production or extraction of metallic minerals, molybdenum, oil and gas, oil shale, and coal.

Present Rate: The tax rates, their methods of application and any exemptions or credits vary with the different types of materials extracted.

Metallic minerals. The tax is based on the gross income, defined as the value of the mineral upon extraction. It does not include any value added by processing. The rate is as follows:

| <u>Gross Income</u> | <u>Tax</u> |
|---------------------|------------|
| 1st \$11 million | exempt |
| over \$11 million | 2.25 % |

A credit of up to fifty percent of the tax liability is allowed for payment of property tax.

Molybdenum. During the 1986 legislative session, the tax on molybdenum ore was changed from fifteen cents per ton extracted in each quarter to the following schedule:

| <u>Date</u> | <u>Tax</u> |
|---|------------------|
| January 1, 1986 through December 31, 1987 | 5 cents per ton |
| January 1, 1988 through December 31, 1989 | 10 cents per ton |
| After January 1, 1990 | 15 cents per ton |

Oil and gas. Crude oil, natural gas, carbon dioxide, and oil and gas are also taxed on the basis of gross income, defined in this case as the market value at the wellhead.

| <u>Gross Income</u> | <u>Rate</u> |
|-------------------------------|-------------|
| Under \$25,000 | 2% |
| \$25,000 but under \$100,000 | 3 |
| \$100,000 but under \$300,000 | 4 |
| \$300,000 and over | 5 |

Wells producing ten barrels or less per day are exempt from the severance tax. A credit against the severance tax is allowed equal to 87.5 percent of all property taxes paid, except those imposed on equipment and facilities used for production, transportation, and storage. This credit is not allowed for wells producing ten barrels or less per day.

Coal. The severance tax on coal is 60 cents per ton. Until July 1, 1990, the first 25,000 tons extracted in each yearly quarter are exempt from taxation. Thereafter, the first 8,000 tons extracted per quarter will be exempt. A credit of 50 percent of the tax imposed is allowed for coal produced by underground mines and for lignite coal. Modifications of this tax rate are also specified in statute. For every three-point decrease or increase in the U.S. Department of Labor's Producer Price Index, the rate is correspondingly increased or decreased by one percent. Such determinations are made by the executive director of the Department of Revenue.

Oil shale. Oil shale is taxed at four percent of gross proceeds -- the value at the point of extraction. Direct and indirect expenditures for equipment, machinery, transportation, refining, and royalties are deducted from the value prior to taxation. The tax is also reduced based upon the length of time an oil shale facility has been operating.

| <u>Years Operating</u> | <u>Reduction</u> | <u>Actual Rate</u> |
|-----------------------------|------------------|--------------------|
| First Year | 75% | 1% |
| Second Year | 50 | 2 |
| Third Year | 25 | 3 |
| Fourth and Succeeding Years | None | 4 |

Also, the first 15,000 tons per day of oil shale or the first 10,000 barrels of shale oil per day, whichever is greater, is exempt.

Exemption for impact assistance. A credit is allowed against a company's severance tax liability for the amount of approved contributions by that company to local governments toward mitigating the social and economic impact of beginning or expanding mineral development activities. The credit may not exceed any year's severance tax liability but any excess may be carried forward. Additional credits are allowed for each month such payments to local governments precede their due date.

Administration and Collection: Department of Revenue

Collection Period: Annually, on or before the fifteenth day of the fourth month following the end of the taxable year.

History of Tax Rates: In 1953 an additional income tax was levied on income derived from the extraction of crude oil and natural gas. The rate was the same as the current rate under the severance tax. In 1977, the tax was made part of the severance tax article.

Disposition of Revenue: Revenues are dedicated 50 percent to the Severance Tax Fund and 50 percent to the Local Government Severance Tax Fund.

Collections:

| 1986 | 11,631,493 | 9,067,819 | 962,691 | 21,662,003 | -9.1 |

* Tax effective January 1, 1978. These are figures from the Department of Revenue.

Other States: Thirty-two states impose some form of a severance tax. These taxes have been applied to a variety of natural resources including coal, timber, and mineral resources. The tax may also apply to resources that are unusual or limited to certain states, e.g., fish in Alaska, salt in Kansas, or molybdenum in Colorado and New Mexico.

Colorado ranks 19th in per capita severance tax revenue at \$9 per person. Alaska ranks first (\$2,786 per person) and Texas second (\$760). These two states also collected half of all severance tax revenue in the United States in 1984 -- \$1.4 and \$2.2 billion, respectively. Colorado collected \$28.7 million during the same period. The most recent available collection figures for other states in the western region are listed below.

| | |
|------------|---------------|
| Kansas | \$116,990,000 |
| Nebraska | 4,539,000 |
| New Mexico | 349,639,000 |
| Oklahoma | 703,738,000 |
| Utah | 38,416,000 |
| Wyoming | 388,300,000 |

Tobacco Products Tax

Enacted: 1986

Statutory Citation: Title 39, Article 28.5, C.R.S.

Tax Base: The tax on tobacco products applies to smoking and chewing tobaccos, such as cigars, pipe tobacco, cheroots, stogies, snuff, and plug or twist tobacco. Cigarettes are not included as they are subject to the cigarette tax. Distributors are permitted to keep 3.33 percent of the collections to cover the expenses of collection and reporting.

Present Rate: The tax is 20 percent of manufacturer's list price, the invoice price paid by the distributor to a manufacturer or supplier. These products are also subject to state and local sales and use taxes.

Administration and Collection: Department of Revenue

Collection Period: Distributors file a return every quarter containing the amount of tobacco products purchased during the preceding quarter and the amount of tax due. Taxes are paid by the twentieth day of the month following the quarterly report.

History of Tax Rates: This is a new tax, effective July 1, 1986.

Disposition of Revenue: Fifteen percent of the revenues is credited to the general fund and 85 percent to the Old Age Pension Fund. After the requirements of the Old Age Pension Fund have been satisfied, the remainder is credited to the general fund (see page 7).

Other States: Twenty-four other states levy a tax on tobacco products in addition to the cigarette tax. Two of Colorado's neighboring states -- Nebraska and Wyoming -- do not impose a tobacco products tax. The rates for neighboring states are listed on the following page.

Tobacco Products Taxes in Neighboring States

| <u>State</u> | <u>Rate</u> |
|--|---------------------------------|
| Kansas | 10% of wholesale prices |
| New Mexico | 25% of product value |
| Oklahoma | |
| -- little cigars under 3 lbs. per 1,000 | 9 mills per cigar |
| -- cigars over 3 lbs. per 1,000 | 1 cent per cigar |
| -- all other cigars | \$20 per 1,000 |
| -- smoking tobacco | 40% of factory list price |
| -- chewing tobacco | 30% of factory list price |
| Utah | 35% of manufacturers sale price |
| <u>Federal Tax:</u> | |
| Snuff..... | 24 cents per pound |
| Chewing Tobacco..... | 8 cents per pound |
| Small Cigars (weighing less than 3 pounds per 1,000)..... | 75 cents per thousand |
| Large Cigars (weighing more than 3 pounds per 1,000)..... | 8.5% of wholesale price |

Tourism Promotion Fund Tax

Enacted: 1983

Statutory Citation: Title 39, Article 26.1, C.R.S.

Tax Base: This tax is imposed on the purchase price charged to any person for rooms or accommodations, restaurant food and drinks, ski lift or admission tickets, private tourist attraction admission tickets, rental automobiles, and tour bus or sightseeing carrier tickets.

Present Rate: One-tenth of one percent.

Administration and Collection: Each business is responsible for collection of the tax and its transmission to the Department of Revenue.

Collection Period: Quarterly

History of Tax Rates: The tax became effective May 1, 1983, and is scheduled to be repealed July 1, 1988.

Exemptions: Attractions owned or operated by governmental entities and attractions operated on an occasional basis by nonprofit charitable organizations.

Disposition of Revenue: Credited to the Colorado Tourism Promotion Fund for use by the Colorado Tourism Board (Title 24, Article 32, Part 13, C.R.S.).

Collections:

Tourism Promotion Tax Receipts

| <u>Year</u> | <u>Collections</u> |
|-------------|--------------------|
| 1983 | \$ 2,520 |
| 1984 | 2,867,950 |
| 1985 | 3,304,284 |
| 1986 | 3,581,786 |

Unemployment Insurance Tax

Enacted: 1936

Statutory Citation: Title 8, Article 76, C.R.S.

Tax Base: The tax is applied to a portion of the wages paid by public and private employers subject to the act. Exemptions, outlined in statute, exclude a limited number of types of employers from coverage.

Examples of exemptions are: 1) agricultural labor employers who do not pay either cash wages of \$20,000 or more in any one quarter of a calendar year or do not employ ten workers for 20 weeks during the year; 2) employers of domestic services who do not pay cash wages of \$1,000 or more in any quarter of a calendar year; or 3) employers exempt from income tax under the I.R.S. code, section 501 (c) (3) who have less than four employees for 20 weeks during the calendar year.

Currently, the tax is applicable to the first \$8,000 of annual earnings paid each employee. For 1987, this taxable wage base will increase to \$9,000 and for 1988 and after, it will be \$10,000. 1/

Present Rate: For most employers the standard rate of taxation is 2.7 percent of the employee's taxable wages. Employers newly subject to unemployment tax may pay taxes at the standard rate, at the actual experience rate, or at a rate equal to the average industry tax rate for all employers in the same general type of business in the state, whichever is greater. After a designated length of time, individual employers become eligible for a computed rate which is based on the employer's experience rating and the balance in the Unemployment Insurance Trust Fund.

A tax surcharge may be added based on the amount of benefits paid which are not effectively charged to any active employer. Benefits are not effectively charged when they are charged to the account of an employer who is already paying the maximum rate or who has gone out of business.

In addition an interest surcharge may be assessed each employer to pay interest on borrowed funds from the Federal Unemployment Trust Fund. The interest surcharge was enacted in 1982 and the surcharge for benefits not effectively charged was enacted in 1983.

Administration and Collection: Department of Labor and Employment, Division of Employment and Training

1/ The taxable base will remain at \$10,000 unless the trust fund exceeds \$350 million by June 30, 1987, in which case the base will be reduced to \$9,000 on January 1, 1988.

Collection Period: Taxes are payable quarterly by each employer for each calendar year in which he is subject to the tax. The funds are credited to the Unemployment Insurance Trust Fund.

History of Tax Rates: The standard employer contribution rate in 1936 was 10.8 percent of one month's wages, provided the rate was less than 0.9 percent of the annual payroll for the calendar year. In 1937 a uniform contribution rate of 1.8 percent per calendar year on a taxable wage base (\$3,500 in 1937) was established; the rate was raised to 2.7 percent in 1938. In 1972 the rate was lowered to 1 percent, but was changed back to 2.7 percent in 1976.

An experience rating system was adopted in 1941 which permits qualifying employers to pay less than the maximum rate. Effective 1984, employers newly subject to the tax could be taxed at the standard rate, at the actual experience rate, or at an assigned average industry rate, whichever is greater.

Changes in the taxable wage base are listed below.

Taxable Wage Base for
Colorado Unemployment Insurance Tax
(Changes from 1936 - 1988)

| <u>1936</u> | <u>1974</u> | <u>1978</u> | <u>1983</u> | <u>1984</u> | <u>1987</u> | <u>1988</u> |
|-------------|-------------|-------------|-------------|-------------|-------------|-------------|
| \$3,500 | \$4,200 | \$6,000 | \$7,000 | \$8,000 | \$9,000 | \$10,000 |

Disposition of Revenue: Revenue credited to the Unemployment Insurance Trust Fund is only withdrawn to pay unemployment benefits.

Other States: All 50 states administer this tax as required by the Federal government. Eight states -- Alabama, Alaska, California, New Jersey, New York, North Carolina, Pennsylvania, and Rhode Island -- also levy taxes on employees for unemployment insurance.

IV. LOCAL TAXES

Article X, Section 7, of the Colorado Constitution empowers the General Assembly to vest the power of taxation in the state's political subdivisions. Article XX, Section 6, establishes home rule cities and towns and provides broader taxation powers than for statutory cities and towns. County home rule authority was created in Article XIV, Section 16 of the Colorado Constitution. The constitution also limits the authority of municipalities to impose taxes. Section 17 of Article X vests exclusive power in the General Assembly to levy income taxes.

Specific constitutional and statutory citations have been presented for each tax. Brief descriptions of the tax and their rates are also provided. Information pertaining to the types of taxes levied in cities and the rates imposed is from the Colorado Municipal League's Municipal Taxes, 1984 edition. The Department of Revenue data was used for rates of sales and use taxes of the cities and counties.

Accommodations or Lodger's Tax

Constitutional and Statutory Authority: Article XX, Colorado Constitution

Description of Tax: This tax is usually applied to the price for renting or leasing of accommodations for less than 30 consecutive days. In some cities, this tax is simply a higher sales tax for lodging than for other transactions. Other cities may apply the lodger's tax in addition to or in lieu of their sales tax.

Rates: The following rates are in addition to municipal sales tax rates.

| <u>Municipality</u> | <u>Rate</u> | <u>Municipality</u> | <u>Rate</u> |
|---------------------|-------------|---------------------|-------------|
| Aurora | 2.0% | Evans | 3.0% |
| Avon | 1.0 | Manitou Springs | 2.0 |
| Boulder | 2.85 | Montrose | 0.9 |
| Colorado Springs | 2.0 | Northglenn | 2.0 |
| Cortez | 2.0 | Pueblo | 2.0 |
| Denver | 2.0 | Thornton | 2.0 |
| Durango | 2.0 | Vail | 4.6 |

Admissions Tax

Constitutional and Statutory Authority: Article XX, Colorado Constitution

Description of Tax: An admissions tax is imposed on the charge for admission to places or events open to the public. It is usually expressed as a percentage of such charge. The tax is collected when the ticket is sold to the athletic event, theater, or ski lift. Some cities apply their sales tax to admission fees in lieu of a separate admissions tax. The Supreme Court of Colorado has ruled that statutory cities do not have the authority to levy an admissions tax (City of Sheridan v. City of Englewood, 609 P.2d 108 (1980)).

Municipalities Levying Tax and the Tax Rate:

| <u>Municipality</u> | <u>Rate</u> | <u>Municipality</u> | <u>Rate</u> |
|---------------------|--|---------------------|--------------------|
| Boulder | 2.85% plus sales tax | Englewood | 3% admissions |
| Central City | 4% admissions | Glendale | 3% price of ticket |
| Collbran | 1% park-rodeo | Larkspur | 2% of gate |
| Colorado Springs | 2% movie ticket | Manitou Springs | 5% ticket sales |
| Denver | 10% paid entrance to "city-owned" facility | Pueblo | 3% movie tickets |
| Edgewater | 15% movie tickets | Thornton | 3% price of ticket |

Occupational Taxes

I. General

Constitutional and Statutory Authority: Article XX, Colorado Constitution, Section 31-15-501, C.R.S.

Description of Tax: Occupational or business taxes are imposed for the privilege of carrying on certain occupations within the taxing jurisdiction. The tax may be applied to all or selected types of businesses or professions in a community. The rate may be a single or flat rate or may be on a graduated scale based, for example, on the number of employees. Specific occupational taxes may be imposed on businesses selling liquor or on public utilities. However, the state Supreme Court has held that an occupation tax cannot be based on gross sales as this tax base would represent an unconstitutional form of an income tax.

Municipalities Levying General Occupations Tax and Tax Rates:

| <u>Municipality</u> | <u>Rate (Annual Rate Unless Noted)</u> |
|---------------------|--|
| Aspen | Firms with: 10 employees or less -- \$100 10-49 employees -- \$200 50 or more employees -- \$400 |
| Bayfield | \$25 per business; \$5 per employee over 2 |
| Black Hawk | \$50 per business |
| Central City | \$200 per business |
| Denver | Business Occupational Privilege Tax: \$2.00 monthly per owner, partner, manager, or employee earning over \$250 per month. Employee Occupational Privilege Tax: \$2.00 monthly per employee earning over \$250 per month. |
| Dillon | \$30 per business |
| Dove Creek | \$15 per business |

| <u>Municipality</u> | <u>Rate (Annual Rate Unless Noted)</u> |
|---------------------|---|
| Durango | Firms with: 5 employees or less -- \$35 6-10 employees -- \$60 11-20 employees -- \$85 Over 20 employees -- \$100 |
| Eagle | \$25 per business |
| Edgewater | \$10 per business, \$1 per employee |
| Estes Park | \$35 per business |
| Fruita | \$20 per business |
| Golden | \$25; applies to businesses which do not require a sales tax license. |
| Greenwood Village | \$2.00 per employee per month, matched by employer, after minimum earnings of \$250 per month. |
| Ignacio | Firms with: 2 employees -- \$25 additional, full-time employees -- \$5 each |
| Keenesburg | \$5 per business |
| Louisville | \$10 per business |
| Lyons | \$5 per business license |
| Manitou Springs | \$35 per business |
| Marble | \$10 per business |
| Monument | \$25 per business |
| Ridgway | \$5 per business |
| Silverthorne | \$10 per business |
| Silverton | Firms with: 1-4 employees -- \$35 5-9 employees -- \$50 10 or more employees -- \$85 |
| Snowmass Village | \$25 per business |

| <u>Municipality</u> | <u>Rate (Annual Rate Unless Noted)</u> |
|---------------------|--|
| Telluride | \$15 per business |
| Wellington | \$10 per business |
| Woodland Park | Class 2 business -- \$30 Multiple business -- \$50 Vending machines -- \$20 Newspaper vending racks -- \$2 each |

II. Liquor and Beer Occupation Tax

Constitutional and Statutory Authority: Article XX, Colorado Constitution, Section 31-15-501, C.R.S.

Description of tax: Numerous cities impose a privilege tax to permit the sale of liquor and beer by various establishments and at special events. The number of cities and broad categories of the amount of the taxes follow.

Number of Municipalities Levying Tax and Range of Taxes:

| <u>Type of Business</u> | <u>No. of Cities</u> | <u>Under \$100</u> | <u>\$100-\$499</u> | <u>\$500-\$999</u> | <u>Over \$1,000</u> | <u>Range of Taxes</u> | |
|---|----------------------|--------------------|--------------------|--------------------|---------------------|-----------------------|-------------|
| | | | | | | <u>Low</u> | <u>High</u> |
| Retail liquor store | 69 | 16 | 47 | 6 | 0 | \$25 | \$ 989 |
| Drug store | 45 | 11 | 30 | 4 | 0 | 25 | 989 |
| Hotel & restaurant | 63 | 14 | 29 | 14 | 6 | 25 | 2,958 |
| Club | 51 | 15 | 29 | 6 | 1 | 15 | 1,000 |
| Tavern | 65 | 13 | 30 | 15 | 7 | 8 | 2,958 |
| Beer & wine | 48 | 9 | 30 | 8 | 1 | 25 | 1,000 |
| 3.2% beer | | | | | | | |
| On premises | 51 | 15 | 30 | 6 | 0 | 25 | 950 |
| Off premises | 53 | 19 | 33 | 1 | 0 | 25 | 500 |
| On and off | 49 | 19 | 22 | 7 | 1 | 10 | 1,800 |
| Other | | | | | | | |
| Arts | 11 | 3 | 7 | 1 | | 25 | 989 |
| Special events | 16 | 16 | 0 | 0 | 0 | 1/day | 50 |
| Racktrack | 6 | 0 | 5 | 0 | 1 | 200 | 2,958 |
| Extended hours | 4 | 0 | 4 | 0 | 0 | 150 | 296 |
| Dancing | 1 | 0 | 1 | 0 | 0 | 100 | -- |
| Non-profit organization "city-owned" facilities | 1 | 1 | -- | -- | -- | 100 | -- |

III. Utility Occupational Tax or
Franchise Fee

Constitutional and Statutory Authority: Article XX, Section 4, Colorado Constitution; Section 31-32-101, C.R.S.

Description of Tax: A franchise may be required before a public utility may be permitted to operate in a municipality. The franchise fee for a utility is usually a percentage of the utility's gross receipts from business conducted in the municipality. A municipal occupation tax is sometimes assessed utilities not required to obtain municipal franchises.

Rates:

Municipal Taxes or Fees on Utilities
(1983 Rates)

| <u>Type of Utility</u> | <u>Number of Municipalities</u> | <u>Range of Tax (% of Gross Receipts)</u> |
|------------------------|-------------------------------------|---|
| Electric <u>1/</u> | 127 | 2% through 5% |
| Gas <u>2/</u> | 128 | 1 through 5 |
| Cable TV <u>3/</u> | 120 | 1 through 5 |
| Telephone <u>4/</u> | 94 | |

1/ Five cities impose a flat tax or a fee based on the number of accounts per year.

2/ Four cities impose a flat fee.

3/ Seven cities levy flat fees or a per subscriber fee.

4/ The base for rates on telephone companies vary from flat fees per month or per year, or fees that are based on the number of accounts, per month, quarter, or year.

Property Tax

Enacted: 1876

Constitutional and Statutory Citations: Article X, Sections 3, 4, 5, 6, 11, and 15, Colorado Constitution; Title 39, Articles 1 through 13, C.R.S.

1982 constitutional amendment. A 1982 constitutional amendment provides three approaches an assessor must use to determine the actual value of a property: 1) cost, 2) market, 3) income. The amendment provides that the actual value for residential property is to be determined by the cost and market approaches only. Agricultural land's actual value is determined by the land's earning or productive capacity capitalized at a prescribed rate. Provisions also establish the rate for the valuation for assessment of residential real property and all other real property. The valuation for assessment for producing mines and lands or leaseholds producing oil and gas is to be determined by a portion of annual production. The amendment requires the General Assembly to maintain the same ratio of statewide valuation of residential property in relation to other taxable property. Certain exemptions were made constitutional by the amendment. The State Board of Equalization was given the power to order revaluations for counties and enforce conformance to the constitution and the statutory provisions concerning property taxes.

Administration:

Property assessment. The county assessor is responsible for the assessment of most property within the county. The board of county commissioners acting as the county board of equalization reviews the valuations to raise, lower, or adjust the valuations so that the valuations are just and equalized within the county. The county board also hears appeals that have been denied or refused by the county assessor. The assessor must submit an "Abstract of Assessment" to the state Property Tax Administrator by August 10 of each year. The abstract lists the property valuations by class and subclass for the county. The State Board of Equalization reviews and certifies the abstracts of each county by October 15 of each year. The certified abstract becomes the basis for the tax roll and is sent to each county treasurer before January 1. The county treasurer collects and disperses the property taxes to all taxing entities.

Property tax administrator. The property tax administrator, through the Division of Property Taxation, assists and cooperates in administration of property tax laws, and promotes equalization of property valuation in all 63 counties. The division's responsibilities include, but are not limited to:

- investigating taxpayer complaints;
- conducting legislative impact studies;
- providing technical assistance to assessors on valuation and appraisals;
- furnishing expertise to assessors in administration of property tax law;
- providing reappraisal assistance to counties ordered to reappraise;
- conducting an annual assessors school and regional assessment education programs;
- approving applications for exemptions for schools, and charitable and religious properties;
- preparing research, manuals, and developing forms and procedures for assessors; and
- appraising and apportioning the value of public utility and rail transportation properties doing business in Colorado.

Uniform valuation assessment enforcement. The 1982 constitutional amendment establishes procedures to determine whether county assessors have complied with the amendment and other laws. The General Assembly is required to provide an assessment study every year. Based on this study, if the State Board of Equalization finds a class of property is not in compliance with the law, the board can require the county to reappraise the class. The board may order an independent appraisal at the county's expense if an assessor fails to comply with a board directive ordering a reappraisal. The county is also liable for repaying excess moneys the state paid to local school districts during foresaid reappraisals.

Collections:

The county treasurer mails tax bills to all property owners as soon as practicable after January 1 following the year the property taxes were levied. If the taxpayer elects to make a single payment for the full amount of taxes, the payment is due by April 30. If the property tax bill is in excess of \$25, two equal installments may be made in lieu of the single payment. The first installment is due no later than the last day of February and the second is due by July 31. A penalty of one percent per month is imposed on overdue installment payments.

Prepayment of taxes. Energy development operations and mineral extraction or conversion operations are authorized to prepay property taxes for credit against property taxes to be levied in the future. These prepaid taxes are to be expended on capital improvements which are related to the additional public service demands created by the operations. The taxing entity and the property owner jointly determine the:

- 1) amount of prepayment, not to exceed statutory limits; and
- 2) amounts and intervals of prepayments and credits for prepayments within statutory limits.

Property Valuation:

Property types. There are two types of property that assessors value for taxing purposes -- real and personal. Real property is property that is permanently fixed, such as land and buildings. Certain items of personal property including household furnishings, freestanding appliances, carpet and drapes, and other personal effects are subject to taxation only if they are used to produce income. All other types of tangible personal property are taxable.

Actual value. The actual value of property, which reflects the property's level of value according to a base year, may be determined by three methods of appraisal: the market approach, the income approach, and the cost approach. The market approach compares market sales of similar properties. The cost approach estimates the material and labor costs to replace a similar property. The income approach converts the base year income from rent to an estimate of value. Residential property may be valued by cost and market approaches only. The actual value of farm property is determined by the earning or productive capacity of the land during a reasonable time.

Base year. The actual value for a tax year reflects the level of value for the base year. For tax years 1983 through 1986, the base year was 1977. The level of value for the base year (1977) is the actual value of taxable property as determined for the preceding calendar year (1976). Property types not currently valued on the base year method are producing mines, oil and gas lands or leaseholds, agricultural lands, and coal and non-metallic producing mines. Rail transportation properties are assessed as mandated by the Federal Railroad Revitalization and Regulatory Reform Act of 1976, explained on page 74. Public utilities are assessed at a 1981 level of value. Assessors are currently reappraising property based on the 1985 level of value for the 1987 assessment. Beginning January 1, 1987, a reassessment cycle will occur every two calendar years. The base year will advance two years with every reassessment cycle. Beginning January 1, 1987, all property will be assessed on the base year method.

Assessed value. Assessed value is computed by multiplying the actual value by the constitutionally set rate of 21 percent for residential property and 29 percent for all other taxable property. Classes of property with separate assessment provisions include oil

and gas lands and leaseholds, producing mines, and until December 31, 1986, airline and railroad transportation properties.

Mill levy. The local taxing authorities -- the governing boards of counties, municipalities, school districts, and special districts -- determine a mill levy for their entity each autumn. A taxing jurisdiction's mill levy is determined by dividing the jurisdiction's budget by its total assessed value. The levies are then certified by the county commissioners.

Each taxpayer is subject to at least two mill levies -- county and school district. However, there are many variations among mill levies due to the variety of taxing entities that impose the levies. For example, a city, recreation district, fire protection district, sanitation district, soil conservation district, pest control district, cemetery district, or other authorized special district or any combination thereof, may levy a tax. A taxpayer's property tax bill is determined by the combined mill levy of all the taxing districts in which his property is located. The amount of tax to be paid is determined by multiplying the mill levy by the property's assessed value.

Exemptions. Article X of the Colorado Constitution exempts the following items from property taxation:

- household furnishings and personal effects not used to produce income;
- ditches, canals, and flumes used for irrigation;
- property of the state and its political subdivisions and public libraries;
- property used for religious worship, school property, property used for charitable purposes as defined by statute, and nonprofit cemeteries;
- self-propelled construction equipment and motor vehicles;
- inventories of merchandise held for consumption or sale by a business;
- livestock and agricultural and livestock products; and
- agricultural equipment.

Section 39-30-101, et seq., C.R.S., clarifies and further defines the constitutional exemptions. Some items that are excluded from property taxation through further definition of the constitutional exemptions are:

- nonprofit domestic water companies;
- electric-powered motor vehicles until July 1, 1987;
- intangible property, such as stocks and bonds; and
- works of art, such as paintings, mosaics, and unique architectural embellishments.

Residential and Mobile Home Property:

Residential property is assessed at a rate of 21 percent of the actual value as determined for the base year. Beginning with the 1985 tax year and for years of reappraisal, the General Assembly is to determine the assessment rate for residential property to ensure that the ratio of statewide valuation of residential property remains the same as in 1985 in relation to other taxable property.

Mobile homes' valuation for assessment is the same as other residential property. Mobile homes that are part of a licensed dealer's inventory are exempt.

Public Utilities:

Public utilities are referred to as state-assessed companies and the Property Tax Administrator determines the actual value of the operating property and plant for each public utility. Public utilities include airline companies, electric and rural electric companies, telephone and telegraph companies, gas and gas pipeline carriers, domestic water companies selling at retail, pipeline companies, coal slurry pipelines, railroad companies, and private car line companies conducting business in Colorado. Such companies may be sole proprietorships, firms, partnerships, associations, companies, or corporations and the trustees or receivers thereof, elected or appointed.

Factors considered in valuation for assessment. The administrator is to consider the following factors and weight those factors to obtain a just and fair value of the property:

- tangible property of the plant whether within or both within and outside the state, excluding tangible property that is not directly connected to the utility's business within the state;
- intangible property such as franchises, contract rights and obligations, and rights of way;
- gross and net operating revenues during a time not to exceed the most recent five-year period, capitalized at indicative rates; and
- average market value of previous year's outstanding securities, if determinable.

If the books and records accurately reflect the utility's tangible and intangible property and earnings within Colorado during the most recent five-year period, the administrator may determine the actual value from the records, negating the need to ascertain the entire value within and outside the state.

Adjustment to base year. The actual value of each public utility is determined by applying an equalization factor to adjust the actual value for the current year of assessment to the level of value in 1981. Beginning January 1, 1987, public utilities will be assessed under the base year method. Thus, in 1987, a factor will be applied

to adjust the current year level of value to the utility's level of value in 1985 to establish actual value.

Valuation for assessment. Currently, most public utility properties are valued at 29 percent of actual value; the assessed value of railroad and airline companies is determined as described below. Beginning January 1, 1987, all public utilities, including railroad and airline properties, will be valued at 29 percent of actual value.

Administration. Each public utility is to file with the property tax administrator by April 15 of each year information concerning all property, wherever situated, as may reasonably be required to determine the actual value and the apportionment among the several counties.

Apportionment. The administrator, in the case of all public utilities, allocates to the state that proportion of assessed value which represents the public utility's assessed valuation within the state by using commonly recognized methods of allocation that are just and equitable. The assessed value of public utility property is normally apportioned to each county based on the proportion of gross investment cost in a county relative to gross investment cost statewide. Railroad company property is apportioned based on mainline track mileage. The administrator notifies each county assessor of the amount of public utility assessed valuation in the county, and the assessor enters the amount on the tax rolls.

Rail and air transportation property. The Railroad Revitalization and Regulatory Reform Act of 1976 mandates that rail transportation property cannot be assessed at a rate higher than the effective assessment rate for other commercial and industrial property. The Tax Equity and Fiscal Responsibility Act of 1982 contained a similar provision for air transportation property. Therefore, railroad and airline companies provide funding for an annual assessment ratio study to measure the effective assessment rate of commercial and industrial property. The ratio determined by the study is used to determine the assessed value. This provision is effective through the 1986 property tax year. Thereafter, property will be valued at 29 percent of actual value related to the base year.

Natural Resource Property:

Mines. Mines are divided into two classes -- producing and non-producing. Producing mines are those whose gross proceeds during the preceding calendar year exceeded \$5,000. Producing mines are valued for assessment at an amount equal to 25 percent of the mine's gross proceeds. If the net proceeds of a mine exceed 25 percent of the gross proceeds, the valuation for assessment will be the net proceeds. On January 1, 1987, producing mines become subject to the base year method of determining assessed valuation. Thus in 1987, the assessed value will be related to the base year using a price index for each mineral.

Non-producing mines, non-metallic and coal producing mines are assessed in the same manner as other real property (29 percent of actual value). Machinery and equipment, personal property, and improvements other than mining improvements within a mine are valued for assessment separately.

Oil and gas leaseholds. Oil and gas leaseholds and lands are valued for assessment at an amount equal to 87.5 percent of the selling price of oil and gas sold or transported from the wellhead during the preceding calendar year. Oil and gas leaseholds utilizing secondary recovery, tertiary recovery, or recycling projects to conserve oil and gas are valued at an amount equal to 75 percent of the selling price of production during the preceding calendar year. The selling price of oil and gas delivered to the United States or the state and its political subdivisions as a royalty is excluded. Certain surface and subsurface equipment is assessed separately. Beginning January 1, 1987, the assessed valuation of oil and gas leaseholds will be determined using the level of value from the base year. For example, in 1987, the selling price of oil and gas in 1984 (the year preceding the base year) will be used in determining assessed value.

Agriculture Property:

The actual value of agricultural lands, exclusive of building improvements, is determined by considering the productive capacity of the land over a ten-year period, capitalized at a rate of 13 percent. When agricultural lands become subject to the base year on January 1, 1987, the ten-year period will end in the base year. The assessed value of building improvements on agricultural land is determined in the same manner as other property.

Credits and Deferrals:

Tax credit for the elderly and disabled. Elderly residents are eligible for an income tax credit based on property taxes paid if they meet established criteria. Residents 65 years or older or a surviving spouse 58 years or older who meet the following criteria are eligible for the income tax credit.

- They own or occupy their own home, townhome, condominium, or mobile home and are full-year residents thereof.
 - They have paid all prior years' property taxes and have not been claimed as a dependent on any other person's Colorado income tax.
 - They do not receive rent or income from the property.
 - Their total income does not exceed \$11,200 if married or \$7,500 if single.
- Disabled residents are eligible for the credit if they meet the

above listed criteria, with the exception of the age limit, and are disabled for the entire taxable year. They must also receive full disability payments from Social Security, the Veterans Administration, or a private plan, and submit a statement of disability to the state.

Elderly and disabled persons who meet the aforementioned requirements and pay rent to occupy a residence may also receive an income tax credit based on 20 percent of the actual rent paid during the taxable year, not including charges for food and utilities. The credit does not apply to rents paid to nursing homes.

The credit that qualified persons may receive can never exceed the amount of property tax or rent actually paid. The maximum credit received is limited to \$500 and the \$500 credit is reduced by 20 percent of income in excess of \$5,000 for single persons and \$8,700 for married persons.

Tax deferral. Persons 65 years or older may also defer payment of taxes for an owner occupied non-income producing home, townhome, condominium, or similar structure. The deferral is for one calendar year, but may be continued on a annual basis. The deferred taxes and accrued interest of 8 percent per annum are required to be paid if:

- 1) the taxpayer claiming the deferral dies;
- 2) the property is sold or under contract for sale; or
- 3) the taxpayer moves for reasons other than ill health; and
- 4) the taxpayer begins to rent the property or otherwise receives income from it.

Severance tax credit. Oil and gas companies are allowed a credit against the severance tax equal to 87.5 percent of all property taxes paid except those imposed on equipment and facilities used for production, transportation, and storage. The credit is not allowed for wells producing ten barrels or less per day.

Revenue Limitations - Public Disclosure:

Colorado law limits taxing entities to revenue increases of 7 percent above the previous year's revenue for taxes collected in 1987, 5.5 percent for taxes collected in 1988, and 6 percent for taxes collected in 1989 and thereafter. The limitation may be exceeded for capital expenditures that have been approved by two-thirds of the governing board voting at a public hearing. The public hearing must be advertised in conformance with requirements contained in statute. All taxing entities may obtain approval for an excess levy increase from the electorate. Special districts have an additional option; they may submit an excess levy increase to the Division of Local Government for approval. A county, city and county, city or town in compliance with the public disclosure law may also exceed the limitation.

Property valuations that are excluded when computing the revenue limitations are:

- 1) annexation or inclusion of additional land and property;
- 2) new construction;
- 3) increased production by a mine if the increase in production causes an increase in the level of services provided; and
- 4) previously legally exempt federal property that becomes taxable, if an increase in services is required.

The 5.5 percent limitation effective for taxes collected in 1988 applies to home rule cities. Home rule counties are subject to the limits unless their charter has limitations that are equal to or more restrictive than the statutory provisions.

Public disclosure. The limitations discussed above do not apply to any county, city and county, city or town that adopts the public disclosure procedure. This procedure becomes effective when:

- 1) the governing board advertises its intention to adopt the public disclosure procedure;
- 2) the advertisement for the public meeting meets the requirements set forth in the public disclosure law (29-1-303, C.R.S.);
- 3) two-thirds of the governing board's members approve the adoption of the public disclosure procedure at a public hearing.

Once the certified mill levy has been determined, any governing board that has adopted the public disclosure provisions that wishes to exceed the certified mill levy must hold a public hearing to increase the levy. (The certified mill levy is that levy certified by the county assessor by the October 1 prior to the budget year which will raise the same amount of property tax revenue as was raised during the preceding year.) Specific statutory advertising requirements relating to the public hearing must be met. At the hearing, the board must adopt by resolution a mill levy for the upcoming budget year, and announce the percent by which this mill levy exceeds the certified mill levy.

History of Property Tax Revenues:

The state has not imposed a statewide property tax since 1964 although the Colorado Constitution allows a maximum rate of four mills.

Real Estate Transfer Tax

Constitutional and Statutory Authority: Article XX, Colorado Constitution

Description of Tax: The real estate transfer tax is levied at the time real property is conveyed to a purchaser. The tax is analogous to a sales tax on the purchase of real property.

Rates:

| <u>Municipality</u> | <u>Rate</u> | <u>Municipality</u> | <u>Rate</u> |
|---------------------|------------------------------|---------------------|-------------|
| Aspen | 0.5% | Glendale | 1.0% |
| Avon | 1.0 | Gypsum | 1.0 |
| Breckenridge | 1.0 | Rifle | 0.5 to 1.5 |
| Crested Butte | 1.0% on 1st transfers | Telluride | 3.0 |
| | 1.5% on subsequent transfers | Vail | 1.0 |
| | | Winter Park | 1.0 |

Sales and Use Taxes

Constitutional and Statutory Authority: Article XX, Colorado Constitution; Title 29, Article 2, C.R.S.

Description of Tax: Many counties and municipalities in Colorado levy a sales tax on the retail sales of tangible personal property and on some services. Colorado law vests with statutory cities and counties the power to impose a sales tax by ordinance. The ordinance must state that the personal property and services taxable are to be the same as those taxed by the state. Counties and statutory cities must exempt the same items as the state with the exception of machinery or machine tools, residential power, and sales of food for off-premise consumption. The state Department of Revenue is responsible for the collection, administration, and enforcement of these countywide or municipal sales taxes.

Statutory municipalities and counties are also authorized to levy a use tax. This tax, however, may be imposed only on the storage, use, or consumption of construction and building materials and motor and other vehicles on which registration is required. The collection, administration, and enforcement of a city or county use tax is the responsibility of the local entity. Not all localities impose a use tax.

The imposition of a sales or use tax by a home rule city and the administration and collection thereof has generally been considered a matter of local concern. Home rule cities are required to conform sales tax ordinances or procedures to state law in the following areas:

- 1) statute of limitations relating to the enforcement of sales and use tax collections;
- 2) statute of limitations applicable to refunds of sales and use taxes;
- 3) the amount of penalties and interest payable on delinquent remittances of such taxes;
- 4) the posting of bonds;
- 5) the use of a standard reporting form; and
- 6) the dispute resolution process for deficient taxes.

Colorado law does permit the Department of Revenue, at the request of the home rule city, to administer, collect, and distribute the sales tax of the home rule city. For this to occur, the home rule city's sales tax ordinance must tax and exempt the same items as the state. Again, the options of machinery and machine tools, residential

power, and food are available to home rule cities for which the state collects the tax.

State statutes limit the total state, county, and municipal sales tax to 7 percent or to 8 percent if that rate is necessary to allow a county to impose a 1 percent sales tax. Thus, a 4 percent municipal levy in conjunction with a 3 percent state levy could not prohibit a county from levying a 1 percent tax. The state tourism tax is not included in the statutory limit on sales taxes.

Counties and Municipalities Levying Tax: The chart on the following pages illustrates the sales and use tax rates in the cities and counties of the state. The Regional Transportation District (RTD) tax is included for applicable jurisdiction.

* These entities DO NOT collect local use taxes.

\1 Includes the combined sales tax rate for the municipalities, the counties, the Regional Transportation District (RTD) where applicable, and the state. On May 1, 1983, a tax of one-tenth of one percent (1%) was levied on the sales of taxable food, drink, lodging services, skiing, auto rentals and admissions. The tourist tax IS NOT included in the total rate

\2 Includes RTD sales tax of .6 of 1 percent levied in the following counties: Boulder and Jefferson counties, the metropolitan areas of Adams and Arapahoe counties, the northeast portion of Douglas County, and the City and County of Denver. Food for home consumption and gas and electricity for home use are exempt from the tax.

Specific Ownership Tax

Enacted: 1937

Constitutional and Statutory Citations: Article X, Section 6, Colorado Constitution; Title 42, Article 3, C.R.S.

Tax Base: Factory list price provides the basis for this tax imposed on every motor vehicle, trailer, semitrailer, or vehicle which is operated or drawn upon any highway in the state. For taxation purposes, motor vehicles are divided into the following classes:

Class Motor Vehicle Type

- A Every motor vehicle, truck, truck tractor, semitrailer, and trailer used over any public highway for compensation whether or not under contract (state collected tax)
- B Every truck, truck tractor, trailer, and semitrailer not included in class A (county collected)
- C Every motor vehicle not included in class A or B (county collected)
- D Every utility trailer, camper trailer, and trailer coach (county collected)
- F All mobile machinery and self-propelled construction equipment (county collected).

(NOTE: There is no longer a class E category)

Tax Rate: The taxable value for class A and B vehicles is 75 percent of the manufacturer's suggested retail price. The taxable value for class C and D vehicles is 85 percent of the manufacturer's suggested retail price. Class F vehicles' taxable value is either:

- 1) the factory list price and, if equipment has been mounted on the vehicle, the factory list price and 75 percent of the original price of mounted equipment, or
- 2) when the factory list price is not available, 75 percent of original retail delivery price plus 75 percent of original retail delivery price of mounted equipment, or
- 3) when (1) and (2) are not ascertainable, then the value is determined by the property tax administrator.

The tax is computed using the following schedule:

| <u>Years of Service</u> | <u>Class</u> | <u>Fee or Percent of Taxable Value</u> |
|-------------------------|--------------|--|
| 1st | A,B,C,D,F | 2.10% |
| 2nd | A,B,C,D,F | 1.50% |
| 3rd | A,B,C,D | 1.20% |
| | F | 1.25% |
| 4th | A,B,C,D | 0.90% |
| | F | 1.00% |
| 5th | F | 0.75% |
| 5th - 9th | A,B | 0.45% or \$10.00 whichever is greater |
| | C,D | 0.45% |
| 6th and over | F | .50% but not less than \$5.00 |
| 10th and over | A | \$10.00 |
| | B,C | \$3.00 |
| | D | 0.45% or \$3.00 whichever is greater |

In lieu of taxes, equipment dealers that rent or lease class F vehicles may purchase a decal for \$5.00 for each item of equipment to be rented or leased. The owner collects from the user and transmits to the county a specific ownership tax of 2 percent of the rental or lease payment.

Exemptions:

- Motor homes;
- Vehicles displaying plates issued by the U.S. armed forces in a foreign country (45 day exemption);
- Electric-powered motor vehicles (exempt until July 1, 1987);
- U.S. and Colorado government vehicles;
- Vehicles leased by the state;
- Firefighting vehicles, police ambulances, farm tractors, and mobile machinery and self-propelled construction equipment not operated on highways;
- One class B and one class C vehicle weighing less than 6,500 pounds owned by a disabled veteran or P.O.W.

Administration and Collection: Class A taxes are collected by the Department of Revenue and are due no later than January 1 of each year. Counties collect taxes for class B, C, D, and F vehicles, and the taxes which are due at the time of registration each year.

History of Tax Rates: The 1937 law that created the tax had two classes of motor vehicles. The tax rates follow:

| <u>Year</u> | <u>Rate</u> |
|--------------------------|--|
| 1st | 3% of 70% of factory list price |
| 2nd | 3% of 50% of factory list price |
| 3rd | 3% of 40% of factory list price |
| 4th | 3% of 30% of factory list price |
| 5th | 3% of 15% of factory list price |
| 6th and succeeding years | Not more than \$3.50 per year for class A, and a \$1.50 flat rate for class B. |

The taxable value was set at 75 percent of the retail delivery price in 1953. The rate of tax was amended in 1953 and in 1969. In 1981 the taxable value for class C and D vehicles was set at 85 percent.

Disposition of Revenue: Revenue from class A is credited to the Highway Users Tax Fund and apportioned to the cities and counties according to the number of miles of state highways within their jurisdiction. Class B, C, D, and F moneys are deposited with the county treasurers. Fifty cents of each collection is kept by the county as reimbursement for the cost of collection and 50 cents is credited to a special fund for a statewide data processing system (42-1-210.1, C.R.S.).

Collections: 1/

Specific Ownership Tax Receipts
(\$ in Millions)

| <u>Estimated Fiscal Year</u> | <u>Collection</u> | <u>Percent Change</u> | <u>Estimated Fiscal Year</u> | <u>Collection</u> | <u>Percent Change</u> |
|------------------------------|-------------------|-----------------------|------------------------------|-------------------|-----------------------|
| 1976 | 1/ | | 1981 | \$ 99.3 | 6.6% |
| 1977 | 1/ | | 1982 | 105.1 | 5.8 |
| 1978 | \$81.5 | | 1983 | 118.6 | 12.8 |
| 1979 | 86. | 5.5% | 1984 | 129.4 | 9.1 |
| 1980 | 93.1 | 8.2 | 1985 | 131.9 | 1.9 |

1/ Department of Revenue figures. Totals for 1976 and 1977 were not separated from other tax collections. The collections are fiscal year estimates because the tax is collected on a calendar year basis.

Miscellaneous Municipal Taxes

The taxes listed below are also levied by the municipalities indicated.

| <u>Type of Tax</u> | <u>Municipality</u> | <u>Rate</u> |
|--------------------|----------------------|--|
| Service expansion | Cherry Hills Village | \$.40 per square foot on new construction |
| Car rental | Colorado Springs | 1% |
| Dog track wagering | Commerce City | 1% |

APPENDIX

Major Tax Sources of Other States

The following table contains the major taxes imposed in each state, the amount of tax revenue received by source, and the percentage of the total yield each tax represents, as reported by the Commerce Clearing House State Tax Guide. The amount of tax collected and the yield for each tax are 1984 figures.

The taxes presented are: income -- personal, corporate, or combined; sales and use; motor fuel; oil and gas/severance; and public utilities. Motor fuel taxes include taxes for gasoline, diesel fuel, and other special fuels. Inspection fees are included where noted. The oil and gas/severance tax may be an oil and gas severance tax or a severance tax on other natural resources. Natural resources taxed as a severance tax may include a variety of materials such as gravel, salt, fish, timber, or metallic minerals. Public utility taxes are usually levied on the gross receipts or earnings of a public utility which may be in addition to other taxes on a utility.

Some taxes have been omitted due to the low yield to the states. These taxes include cigarette, alcohol, estate, inheritance, gift, insurance, and property. Motor vehicle registration fees are not included.

Additional taxes were added if the tax provided more than two percent of a state's total tax revenue. These taxes include: property; franchise -- taxes placed on stock shares; stamp -- levied on mortgages, bonds and certificates of indebtedness; gambling taxes -- levied on casino entertainment and gross revenues; dividend and interest -- levied on bonds, notes, money, and debts; motor vehicle excise -- levied on the value of the transfer of ownership; meals and room -- levied on room rentals and meals; compensating -- levied on tangible personal property used; and business and occupations -- levied on gross receipts of sale or gross income.
