

What is the Colorado Medicaid Immunization Benefit?

The Colorado Medicaid Immunization benefit promotes and facilitates the prevention of vaccine-preventable diseases. The Department has an inter-agency agreement with the [Colorado Department of Public Health and Environment \(CDPHE\)](#) to maximize immunization recommendations by the [Advisory Committee on Immunization Practices \(ACIP\)](#) of the U.S. Department of Health and Human Services.

Who is eligible?

- Children (age 20 and under) enrolled in Colorado Medicaid can receive immunizations recommended by the ACIP, or when required to enter the work force or attend school.
- Adults (age 21 and over) enrolled in Colorado Medicaid can receive immunizations recommended by the ACIP or when required to enter the work force or attend school. Adults may have an office visit co-pay at the time of service.

Is there a cost?

Adults may have an office visit co-pay at the time of service.

Are travel-related vaccinations covered?

Colorado Medicaid does not pay for travel-related vaccines for adults or children.

Who are Colorado Medicaid's partners for immunizations?

- Colorado Department of Public Health and Environment manages the Vaccines for Children (VFC) Program.
- Vaccines for Children Program (VFC) is a federal program administered by the Colorado Department of Public Health and Environment (CDPHE). VFC supplies all vaccines recommended by the ACIP for Colorado Medicaid children ages 0 to 18.

Where can I find the immunization schedule?
