On The Map is a unique resource for identifying workforce characteristics within specific geographic areas and mapping the commuting patterns of workers. LED can answer questions as diverse as:

- How many people work and live in my geographic area?
- How many people work in my geographic area and live outside?
- How many people live in my geographic area and work outside?
- What distance and direction do commuters take to get to/from my area?
- How might I characterize workers in my area: age, earnings, race, educational attainment, gender, industry distribution?

Colorado LED is a partnership between the Office of Labor Market Information and the U.S. Census Bureau. LED is sometimes referred to as Longitudinal Employer-Household Dynamics (LEHD).

From www.colmigateway.com go to Products at the top of the page and click On the MAP under Local Employment Dynamics. Many valuable filters can be found to further define your search by age, income, and industry.

Work Area Profile Report

The Local Employment Dynamics (LED) program combines workplace employment data with household demographic data. This report provides a comprehensive view of the workforce characteristics in a given geographic region by where workers live or where they work. The following data shows workforce characteristics by work location.

Grand Junction MSA Employment	2011 Count
Total All Jobs	59,707

Grand Junction MSA Employment

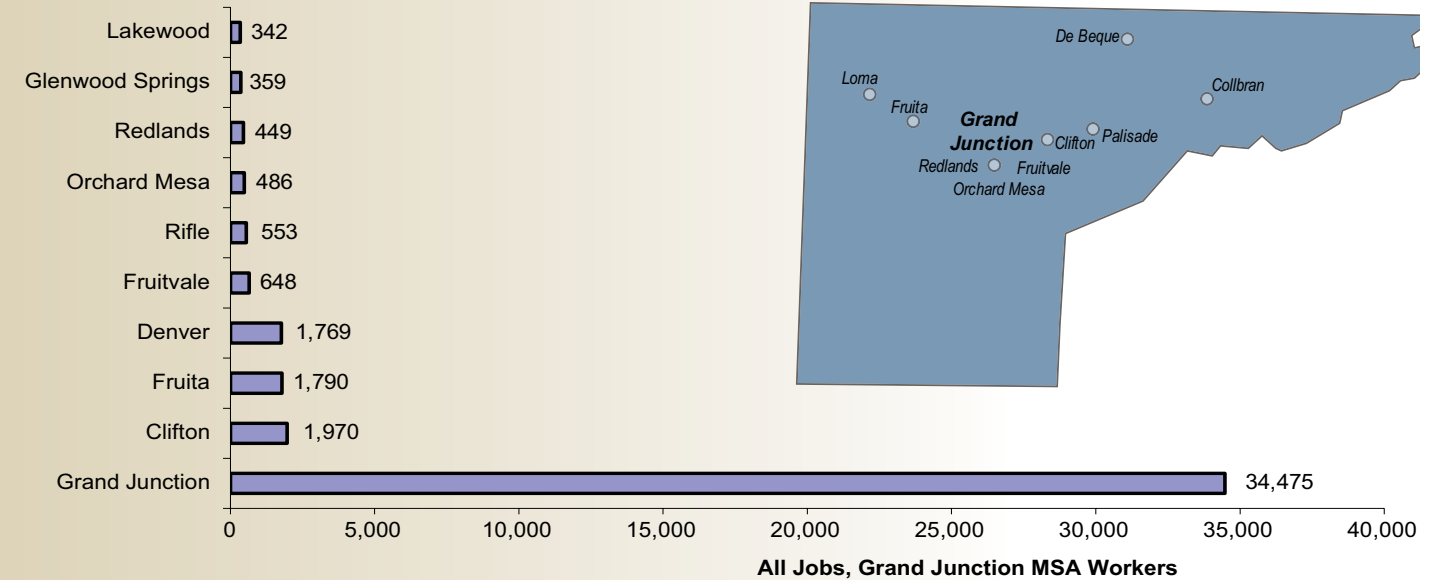

Note the "Total All Jobs" number above includes jobs held by people working in Grand Junction MSA regardless of where they live. The numbers in the "Total Jobs by Industry" table add to the "Total All Jobs" for Grand Junction MSA.

Area Comparison Report

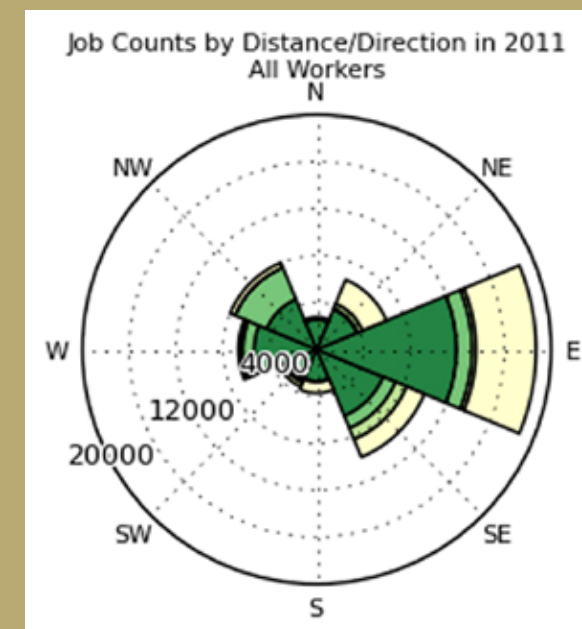

Expanding upon a basic demographic profile, this report details the geographic distribution of workers in Grand Junction MSA by place of residence. The Area Comparison Report can help you analyze Grand Junction MSA data at a much greater level of detail.

Distance - Direction Report

Looking at only those workers employed in Grand Junction MSA, this report aggregates jobs by the distance and direction of the worker's commute, as the crow flies, from home to work.

The default display on this Report is the "radar chart" shown below. If you prefer, it can easily be changed to display in a more conventional bar chart.

Jobs by Distance - Work to Home

Total Jobs	2011	
	Count	Share
Less than 10 miles	39,726	66.5%
10 to 24 miles	6,806	11.4%
25 to 50 miles	2,165	3.6%
Greater than 50 miles	11,010	18.4%

The LED business location data include both workers at the business physical location and workers who primarily work from home and only occasionally commute to the workplace. These differences are not distinguishable in the data.

Jobs by Worker Earnings

Jobs by Worker Race

Jobs by Worker Educational Attainment
