These data are also available at more detailed geographic levels.

On The Map is a unique resource for identifying workforce characteristics within specific geographic areas and mapping the commuting patterns of workers. LED can answer questions as diverse as:

- How many people work and live in my geographic area?
- How many people work in my geographic area and live outside?
- How many people live in my geographic area and work outside?
- What distance and direction do commuters take to get to/from my area?
- How might I characterize workers in my area: age, earnings, race, educational attainment, gender, industry distribution?

Colorado LED is a partnership between the Office of Labor Market Information and the U.S. Census Bureau. LED is sometimes referred to as Longitudinal Employer-Household Dynamics (LEHD).
