A Standard Premium List for Fairs

By Robert R. Lancaster

The urgent need of greater uniformity in the classification of agricultural exhibits becomes more apparent as competition extends from small local fairs to the state and national shows. The exhibits are judged upon their comparative conformity to conventional standards of excellence. Such standards are evolved from the market demands. The exhibits should be grouped and classified in such a way that intelligent comparison may be made.

It is not particularly important whether a sheaf of grain be three inches in diameter or six; whether there be ten ears of corn or twenty in an exhibit, or whether a prize be offered for a two-year-old animal or a three-year-old, but it is quite important that some one standard be applied thruout the State, whereby winning exhibits may be transferred from one fair to another for further competition.

The suggestions offered in this bulletin have been compiled from the best authorities after careful study of the many systems now in use in both Colorado and other western states.

In making the premium list, the most attractive prizes should be placed on the products and industries that mean most to the development of the community.

Fads and monstrosities might well be ignored. All such exhibits should be placed in a separate division if they are allowed to be entered.

Too much stress should not be placed on money premiums, especially at community fairs. Excessively high premiums may develop the tendency toward dishonesty to win, or jealous competition. Disappointment from failure to win a high material prize destroys the educational benefit of the competition. Successful small fairs have been held where ribbons alone were awarded.

Entry fees may be distributed in the manner suggested by Prof. Pren Moore, University of Idaho, regarding poultry shows, as follows: "We have been very successful with our association by charging 35 cents entry fee and \$1.00 for pen entries. We then pay the prizes on a percentage basis. For instance: We would pay 40 per cent of the entry fee for Barred Plymouth Rock cockerels winning first place; 20 per cent for second place; 10 per cent for third place, and a ribbon for fourth place. We then have left 30 per cent of the entry fee for other expenses. That order would follow in every class including pens, except that the special prizes would have to come from some other source, ordinarily."

Some of the leading state fairs and large stock shows are using a schedule of prizes, distributed in the following manner:

No. of Entries to Qualify	1st	2nd	3rd	4th	5th	Total Value
1	\$10					\$10
2	15	\$10				25
3	20	15	\$10			45
4	25	20	10	\$ 5		60
5 or more	30	25	20	10	\$ 5	90

The money premium offered by the county fairs would generally lead one to believe that the apportionment is based upon the value of the particular exhibit, rather than upon the importance and value of the industry that the exhibit may represent. A \$5,000 bull may represent the total capital invested in the breeding industry of one exhibitor, while a \$5.00 box of fruit may represent a \$10,000 orchard industry.

Also, more often than not, the executive committee of a fair is composed of men, the majority of whom, it would seem, are quite generally underestimating the importance of women's exhibits. Attention is called to these points with the suggestion and hope that those who attend to such matters will give each division of the fair due consideration.

A classification scheme must be both simple and comprehensive. It should employ as few terms as will fully identify the exhibit, and should be uniform for the several departments.

Consecutive numbering of all lots and classes thruout the premium list will make a double check on each exhibit and thus avoid confusion. The following suggestive premium list for agricultural products exemplifies a uniform scheme of classification. There can be no two classes having the same number. Neither the numbers nor the names of breeds or varieties, need be taken as permanently fixed. Such details must be arranged by the fair board to suit local conditions. The "classes," giving the quantities, ages, numbers, etc., are, however, recommended by the best authorities and should be adopted by every fair in order that they be uniform thruout the State.

It should also be observed that this scheme reduces the space usually required in premium lists of Colorado. This classification has been used to a great extent in other states and has proved to be most desirable.

A word of explanation may be necessary for those to whom it is new. Suppose a two-year-old Belgian mare is to be entered. The classification of horses is first located. Belgian horses will be found under "Lot 2" and all mares two years old will be in "Class 7." Therefore that horse will be entered under "Lot 2," "Class 7." All classes of a group apply to each lot listed above. By the same rule, each lot may be divided into the number of classes listed below, down to the next lot number.

The same scheme applies to all divisions of the premium list.

SPECIAL RULES FOR ALL CATTLE

1. Bulls 36 months old or over on September 1st of the year in which shown, by the services of which a living calf has not been dropped within 12 months preceding that date will be barred from competition.

2. Cows 42 months old or over on September 1st of the year in which shown must have produced a calf carried to maturity within 18 months preceding that date. Date of birth of last calf will be required.

3. Calves under 3 months, actual age, at time of show will be barred from competition.

4. Junior yearlings that have freshened shall be barred from competition.

5. Bulls over 1 year old must be ringed and be under proper control of an attendant.

Herds and Groups

Graded Herd.—One bull 2 yrs. or over; 1 cow 3 yrs. or over; 1 heifer 2 yrs. and under 3 yrs.; 1 heifer 1 yr. and under 2 yrs.; 1 heifer under 1 yr.; all owned by the exhibitor. (Leave out the 3 yr. old cow in Shorthorn herds.)

Young Herd.—One bull under 2 yrs.; 2 heifers, 1 yr. and under 2 yrs., and two heifers under 1 yr.; all owned by the exhibitor.

Beef Breeder's Calf Herd.—One bull and 2 heifers, under 1 yr., all owned by the exhibitor.

Dairy Breeder's Calf Herd.—One bull and 4 heifers, under 1 yr., all owned by the exhibitor.

Get of Sire.—Four animals, either sex, any age, get of one sire.

Produce of Dam.—Two animals, either sex, any age, produce of one dam.

DIVISION B—BEEF CATTLE

Superintendent (Name and address)

Special Rules

1. Ages are computed from September 1st and January 1st.

DIVISION C—DAIRY CATTLE

Superintendent (Name and address)

Special Rules

1. Ages are computed from August 1st and February 1st.
2. All cows in milk must be milked out in the presence of the superintendent or his assistant at 6 o'clock the evening preceding the day of exhibition.

3. All dairy cattle must be accompanied by a certificate including a tuberculin test chart. Such certificate shall be issued or indorsed by the authorities of the state from which the animals originate, showing that such animals are from accredited tuberculosis-free herds or that the animals have been tuberculin tested within one year of date of exhibition.

46 Calf Herd			
47 Get of Sire.....			
48 Produce of Dam.....			

Boys' and Girls' Clubs

49 (Repeat any of the classes from 27 to 43 inclusive.)

DIVISION D—SHEEP

Superintendent (Name and address)

Special Rules

1. Ages of animals will be determined by their teeth.

Groups

Flock.—One ram, any age; 2 ewes, 1 yr. and under 2 yrs.; and 2 ewes under 1 yr.

Pen.—Four lambs, either sex, bred by the exhibitor.

Get of Sire.—Four lambs, either sex, get of one sire.

Produce of Dam.—Four lambs, either sex, produce of one dam, bred by exhibitor.

Goats

1. A pure-bred goat must have 50 per cent or more pure blood in its veins.

2. A grade may have less than 50 per cent pure blood of any breed, or more than 50 per cent of two or more breeds.

3. Every goat over 1 year must be provided with a suitable collar and chain so that it may be tied in a stall.

Sheep Clubs

70 (Repeat any of the classes from 60 to 66 inclusive.)

DIVISION E—SWINE

Superintendent (Name and address)

Special Rules

1. Ages of swine are computed from September 1st and March 1st.
2. All sows two years old or over, to be eligible to show, must have produced living offspring within twelve months preceding the first of September of the year shown, and all boars of like age must have sired pigs within the same time.
3. Boars over 1 year old must have tusks removed prior to exhibition.
4. All exhibitors should vaccinate their hogs with hog cholera serum either before coming to the fair or immediately afterward.

Herds and Groups

Aged Herd.—One boar and 3 sows, over 1 year old.

Young Herd.—One boar and 3 sows, under 1 year old.

Get of Sire.—Four animals, either sex, any age, get of one sire.

Produce of Dam.—Four animals, either sex, any age, produce of one dam.

96 Sow and at least one of her pigs.....

POULTRY DEPARTMENT

Superintendent (Name and address)

Special Rules

1. All exhibits will be cooped free, in individual coops furnished by the management.
2. Exhibits showing any symptoms of disease will be excluded from exhibition.
3. The "American Standard of Perfection" shall govern the awarding of premiums in the bird division.
4. All stock will be fed and cared for at the expense of the management.
5. Every fowl must have a numbered leg band.
6. All fowls must compete singly before competing in pen classes.
7. Definitions: "Cock" or "hen" refers to birds hatched prior to present year. "Cockerel" or "pullet" have been hatched during the present year. A "pen" consists of one male and four females.

FIELD CROPS DEPARTMENT

Superintendent (Name and address)

Special Rules

1. All exhibits competing for individual premiums will be displayed with all entries of each class grouped together and to remain so during the fair.

2. No exhibit competing in an individual class may compete in a general display. A general display must be complete in itself.

3. All products competing for premiums must be exhibited by the producer, and must have been grown in the present year except those which mature too late to be exhibited in the year in which they were grown.

4. Non-irrigated crops may be exhibited in the irrigated classes and also in the non-irrigated classes, but only one premium may be awarded and the irrigated products will be judged first.

5. The reasons for any placing will be made by the judge after all classes have been judged, but not before.

6. Prize winning exhibits may be appropriated by the fair association to be exhibited at other fairs, but all such individual exhibits will be entered in the name of the producer, community exhibits and displays in the names of the community from which they were produced, and the prizes will be given to the proper owners.

7. Small grain and hay grass sheaves must be 3 inches in diameter at the middle band. Large forage bundles must be between 6 and 8 inches in diameter at the butt. Native grass sheaves must be from 1 to 2 inches in diameter at the middle band when shown in a display.

8. Only the winners of first prizes may compete for sweepstakes.

9. Sufficient evidence of registration will be required for pure-bred seed. Otherwise the grain must be entered in the market classes.

(And so on for other local varieties from Lot 145 to Lot 166)

Class	1st	2nd	3rd
127 Ten ears.....			
128 One half bushel crate.....			

The seed corn should be put into crates, which are very easily made. These crates are for holding one-half bushel of corn, the ears of which are about the size of Minnesota No. 13 (average length 7 to 8 inches). Corn of this kind will require about 65 ears to shell out 25 lbs., or one-half bushel.

A crate 9 inches wide, 10½ inches high, 21 inches long, will hold 65 ears, provided the cobs are fairly dried out. The end pieces should be made of 5/8-inch or ¾-inch board sawed 9 inches by 10½ inches. For the slats that form the four sides use ordinary lath, 4 on each side and 3 on top and bottom. The lath should be cut 20 inches long. As lath are about 47 inches long, each will make two crate strips and leave a waste of about 7 inches. For the ends, the writer has found that the ends of apple boxes were very satisfactory, and could be taken from used boxes, when these were obtainable cheaply.

A label should be put on the end of the crate showing the results of the test, etc. These labels can be obtained from the state club leader or county agent.

DIVISION I—NON-IRRIGATED CROPS

Superintendent (Name and address)

Special Rules

Classification

(Repeat such of the "Irrigated Crops" classes as may be appropriate.)

HORTICULTURAL DEPARTMENT

Superintendent (Name and address)

Special Rules

1. All exhibits must bear the correct varietal name on the entry tag. An entry incorrectly named will be disqualified. Where there are two or more names applied to the variety exhibited, an entry shall not be disqualified for using any one of them unless the name used is correctly applied to another.

2. No fruit shall be polished in any way.

3. It is important that a list of varieties accompany each exhibitor's entries especially when the management is to set up the exhibit.

4. All packing should be done before shipping to the fair grounds.

5. Exhibits may only be entered in the name of the owner, manager, lessee or duly authorized agent.

6. All exhibits in the same lot shall be displayed together.

7. Containers for exhibits in same lot must be uniform and with no markings of any kind.

8. All fruits competing in the same class must be arranged in a single group, and remain so during the fair.

9. The different classes of fruits are as follows:

Plate.—Five (5) apples, pears, peaches, quinces; 10 plums, prunes, apricots, nectarines; 3 bunches of grapes.

Cup.—Square pint berry box.

Tray.—One layer of fruit in a standard apple box, 2x11½x18 inches, inside.

Box.—Apple box, 10½x11½x18 inches; pear box, 8½x11½x18 inches; peach box, 4-4½-5x10½x18 inches; all inside measurements.

Basket.—Splint bushel basket of fruit well packed.

Orchard Display.—Any fruit from a single orchard, displayed in any commercial containers.

Community Display.—Any fruit grown in any given district and displayed in commercial containers.

Packed Box Display.—Fruit packed in any standard fruit box.

Sweepstakes.—Given for the best display of the various fruits in their respective commercial containers.

DIVISION N—SEWING

Superintendent (Name and Address)

Special Rules for Sewing Exhibits

1. Articles, exhibited must have been made by persons exhibiting them.
2. Articles to which premiums have been awarded by this association will not be eligible for competition again. Articles exhibited must have been made within the last 3 years.
3. No premium will be allowed if articles entered are purchased, received as a gift, or borrowed, or have been previously exhibited.
4. All articles should be clean and well pressed.
5. Exhibits calling for hand-made articles must have no machine stitching.

Hints to the Committee on Sewing Exhibit

1. Use a dark background for mounting the work, dark green, very dark grey, or black is good.
2. Keep the classes of articles separate and distinct.
3. Emphasize the exhibit of domestic manufacture first and fancywork last. Encourage new, practical, and attractive exhibits.
4. An exhibit of remodeled garments would be helpful in giving suggestions for making over clothing, or garments for children made from flour or sugar sacks.

ACKNOWLEDGMENT

The author has been given very helpful assistance in preparing the material for this bulletin by a number of Agricultural College workers, and others of wide experience with fairs. He wishes to hereby express his appreciation to Professor Charles I. Bray, for assistance in preparing the section devoted to live stock; to Mr. A. E. McClymonds, who helped in the field crops department; to Professor Pren Moore, of the University of Idaho, for suggestions regarding entry fees and premiums for the poultry department, and for the poultry classification; to Mr. H. D. Locklin and Mr. R. A. McGinty for advice and assistance in preparing the section devoted to horticulture; to Miss Miriam M. Haynes and to Miss Erma Douglass for aid in preparing the material for the home economics department and to the Colorado County Fair Association for general suggestions and criticisms.
