Colorado State Minimum Wage versus Federal Minimum Wage

If an employee is covered by federal and Colorado state minimum wage laws, then the employer must pay the higher minimum wage. On January 1, 2014, federal minimum wage is anticipated to remain at \$7.25 per hour, which is lower than the 2014 Colorado state minimum wage of \$8.00. Therefore, based upon current information, covered employers in Colorado will have to pay their employees the higher value of \$8.00 per hour under Colorado law.

Tipped Minimum Wage

If a tipped employee is covered by federal and Colorado state minimum wage laws, then the employer must pay the higher minimum wage for tipped employees. On January 1, 2014, federal tipped minimum wage is anticipated to remain at \$2.13 per hour, which is lower than the 2014 Colorado tipped minimum wage of \$4.98 per hour. Therefore, based upon current information, covered employers in Colorado will have to pay their tipped employees the higher value of \$4.98 per hour under Colorado law. If an employee's tips combined with the employer's cash wage of at least \$4.98 per hour do not equal the minimum hourly wage, the employer must make up the difference in cash wages.

Inflation Adjustment Process

In accordance with the Colorado Constitution, the Colorado minimum wage is adjusted annually for inflation as measured by the Consumer Price Index used for Colorado. The inflation adjustment is based on the Consumer Price Index for All Urban Consumers (CPI-U), All Items, for the Denver-Boulder-Greeley combined metropolitan statistical area as published by the [United States Bureau of Labor Statistics](#) (BLS).

The CPI-U increased 2.8 percent from the first half of 2012 to the first half of 2013, which results in the new minimum wage of \$8.00 per hour effective January 1, 2014. The August 15, 2013, BLS [press release](#) provides additional details on the Consumer Price Index data used in the minimum wage adjustment.

Subsequent annual minimum wage calculations will be identical and will compare changes in the CPI-U from the first half of the preceding year with the first half of the current year to calculate a new minimum wage for the next year.

For example, changes observed in the CPI-U from the first half of 2013 to the first half of 2014 will be used to calculate the minimum wage effective January 1, 2015. It is anticipated that data for future minimum wage adjustments, as provided by the BLS, will be available to the public in mid-August preceding each January adjustment.

Who Must Receive Minimum Wage

The state minimum wage shall be paid to employees who receive the state or federal minimum wage. Article XVIII, Section 15, of the Colorado Constitution has not altered the coverage of employers, or the exemption of certain employees, from state or [federal](#) wage and hour laws.
