DR 0100). A receipt for the tax paid can be obtained by bringing the remittance to any Colorado Taxpayer Service Center (Denver, Colorado Springs, Fort Collins, Grand Junction or Pueblo). Any buyer of a business should withhold an amount of the sale price until the seller of the business has verified that all sales tax collections shown on the bookkeeping records of the business have been remitted. Proper verification is the receipt from the department. If desired, the buyer may make the remittance and provide verification to the seller. The seller remains liable for the tax, and the lien for the tax attaches to any assets the buyer acquires from the previous owner. Such lien is superior to all other liens and the acquired assets may be sold to pay the tax liability of the previous owner. (Please note that sellers who take a mortgage on the assets they sell to a new operator of the business are at risk of losing those assets if the new operator defaults on his subsequent sales tax remittances. The department's tax lien is superior to the former owner's mortgage lien.)

A buyer of business assets is also liable for **sales tax** on any tangible personal property acquired in the business purchase transaction. The buyer must file and pay the sales tax within 20 days after the close of his first business accounting period (or month if accounting period is a calendar month) if the purchaser has a sales tax license. Sales tax is due by the 20th day of the month following the purchase date if the purchaser does **not** have a sales tax license. Use "Retail Sales Tax Return for Occasional Sales" (DR 0100A). Any tax liability greater than \$300 must be remitted on this monthly basis. Any assets purchased sales tax free from other sources may also be subject to consumer use tax (see above).
