

Colorado
Division of Behavioral Health
(formerly Alcohol and Drug Abuse Division)

2008-2009

Directory of DBH-funded
Prevention Providers

2008-2009 DBH-Funded Prevention Providers

Federal Block Grant Funds:

The Division of Behavioral Health Prevention (DBH Prevention) – formerly the Alcohol and Drug Abuse Division Prevention Services) receives a portion of the Substance Abuse Federal Block Grant from the Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Prevention (CSAP). ADAD Prevention Services employs an integrated approach to target its funding, with the goal of reaching individuals, families, schools, communities and larger systems. By supporting effective, researched-based strategies within a comprehensive framework, ADAD aims to promote programs, resources and services that together contribute to a healthy Colorado.

The first section of this directory lists the Block Grant funded programs in these categories:

- Youth
- Family
- Community
- Statewide

Law Enforcement Assistance Fund (LEAF)

In addition to the Block Grant prevention funds, DBH Prevention also administers the Law Enforcement Assistance Fund. These are state funds financed from DUI offenses for community substance abuse prevention programs and projects. Monies allocated to the Division of Behavioral Health Prevention are used to establish a statewide program for the prevention of driving after drinking, including educating the public in the problems of driving after drinking, training of teachers, health professionals, and law enforcement in the dangers of driving after drinking, preparing and disseminating educational materials dealing with the effects of alcohol and other drugs on driving behavior, and preparing and disseminating education curriculum materials for use at all levels of school.

The second section of the directory lists the LEAF funded programs.

Persistent Drunk Driver (PDD)

In 1998, the Colorado legislature enacted the Persistent Drunk Driving law and in 2001, revised sections of the law including the Persistent Drunk Driver cash fund (CRS 42-3-130.5).

The fund results from a penalty surcharge and is coordinated by the Departments of Transportation, Revenue, and Human Services. Prevention dollars are intended to support programs that deter persistent drunk driving and to educate the public, with particular emphasis on the education of young drivers, regarding the dangers of persistent drunk driving.

DBH selects several counties for prevention services based on county rates of juvenile alcohol-related arrests and juvenile DUI's. These counties have combined rates that are in excess of the statewide average. The counties also were selected based on the lack of other ADAD prevention funding in the county. The counties receive funding to implement evidence-based programming, dependent on their state of readiness to address the issue.

2008-2009 DBH-Funded Prevention Providers

The third section of the directory lists the PDD funded programs

Strategic Prevention Framework-State Incentive Grant (SPF-SIG); Colorado Prevention Partners (CPP)

In October 2004, the Substance Abuse and Mental Health Services Administration (SAMHSA) awarded Colorado, through the Governor's office, a five-year Strategic Prevention Framework State Incentive Grant (SPF SIG). In Colorado, the grant is known as *Colorado Prevention Partners (CPP)*. DBH Prevention administers this grant.

13 Targeted communities from across the state and the Ute Mountain Ute Tribe have received sub-grants to implement the five-step Strategic Prevention Framework process. Additionally, two communities are jointly funded with SPF-SIG funds and Title V funds from the Division of Criminal Justice.

The purpose of the SPF SIG grant is to:

- Reduce substance abuse-related problems in Colorado communities;
- Prevent the onset and reduce the progression of substance abuse, including childhood and underage drinking of alcohol, within Colorado communities;
- Build prevention capacity and infrastructure at the State and community levels;
and
- Develop a replicable, sustainable SPF SIG model through the use of learning groups within and between state and community efforts.

The fourth section of the directory lists the CPP communities

Geographical Region Served:	Seven Denver Metropolitan Counties: Adams, Arapahoe, Broomfield, Boulder, Jefferson, Denver, and Douglas
Target Population:	Preschool, ages 6-18, 19-24, 25-65
Program Description:	The Denver Indian Family Resource Center (DIFRC) provides child welfare service to American Indian/Alaska Native families and their children who are in the child welfare system or who are at risk of entering the system. A parenting program is often a mandate in the family's treatment plans. DIFRC has chosen to provide a nurturing and safe environment for their children. We are utilizing the Nurturing Parenting Program, which is an evidenced based model. DIFRC supplements and integrates the curriculum with cultural materials and activities specific to our American Indian/Alaska Native culture to allow the class to be culturally responsive. This class is also available to community members who may wish to self refer to the program.
