ACKNOWLEDGEMENTS

The Commission and staff wish to acknowledge the contributions of the many individuals and groups that participated in the hearings and deliberations of the Commission. They provided invaluable assistance in familiarizing commissioners and staff with the diverse characteristics and interests of the regions, counties, communities, and populations of Colorado. Special thanks should go to the county clerks, their association, and the office of the Secretary of State for their efforts to implement the new plan under extreme time constraints.

In addition, acknowledgement is made of the expert assistance provided by the vendors -- Public Systems Associates, Inc., and Precision Image Corp. -- who helped to assure that the computerized reapportionment system was "up" and working. The Commission and staff also recognize the contributions of Election Data Services, Inc., in building the data base and performing the racial bloc voting analysis.

Special commendation goes to the lawyers at the firm of Holme Roberts & Owen who so ably represented the Commission before the Colorado Supreme Court: Dan Hoffman, Dan Dunn, Steve Ward, and Rich Wilkins.

The assistance of the following legislative staff is gratefully acknowledged: Doug Brown and Charlie Brown, who managed the reapportionment project from its inception and permitted their staffs to participate; Ron Piccone and the Legislative Information System staff; Delores Lanier and the congressional redistricting staff; Stan Elofson; Lon Engelking; Ingrid Zimmer; Phyllis Nuss; Nancy McCallin; and Rebecca Hausmann.

Finally, a very special vote of thanks to the Commission staff: Jim Hill, Carl Jarrett, Haeley Paul, Don Walker, Chris Ward, and Yvette Williams.

Becky Lennahan
Staff Director

PROCEEDINGS OF THE COMMISSION

Introduction.

The Colorado Reapportionment Commission convenes once every 10 years after the decennial federal census. Its job is to redraw the boundaries of legislative districts for the state Senate and House of Representatives in compliance with the "one person, one vote" principle. The Commission's composition, its schedule, and many of the legal criteria it must apply are found in article V, sections 46 through 48 of the state constitution, which the voters approved in 1974. See Attachment A.

The purpose of this report is to disseminate information about the new plan for Senate and House districts as widely as possible and to provide a record of the Commission's proceedings during Colorado's second experience with a commission system of reapportionment.

The Commission's task.

The Commission was charged with dividing the state into 35 Senate districts having an ideal population of 94,126 each and 65 House districts having an ideal population of 50,683 each. Between 1980 and 1990, Colorado's population increased from 2,889,735 to 3,294,394, or slightly over 14%. Individual districts grew at different rates, however, and the populations of some districts actually declined. See Attachment B. Some of the most dramatic growth occurred in Arapahoe and El Paso Counties, while Denver and certain counties on the eastern plains lost population. See Attachment C. Thus substantial shifts in district lines were bound to occur in order to achieve compliance with equal population requirements.

The Commission was also required to apply the 1982 amendments to the Federal Voting Rights Act, 42 U.S.C. sec.1973 (b). These amendments, enacted after the 1980 round of reapportionment, apply to all states, not just those states which had a history of discrimination against minorities and were therefore subject to preclearance by the U.S. Department of Justice. The Voting Rights Act prohibits the denial, to members of a racial, color, or language minority group, of an equal opportunity to participate in the political process and to elect representatives of their choice. As applied, this requirement meant that minority populations should be maximized in districts wherever possible, and that minorities should neither be unnecessarily "packed" into a single district nor unnecessarily "fractured" among two or more districts.

Composition of the Commission.

Eleven members were appointed to the commission by designated appointing authorities in accordance with Article V, Section 48 (1)(a)-(c) of the Colorado Constitution. The legislative branch appointed four members; the executive branch appointed three members; and the judicial branch named four members. The Commission was comprised of five registered Democrats, five registered Republicans, and one unaffiliated voter. The members of the Commission and their respective appointing authorities were as follow:

<u>Member</u>	<u>Appointing Authority</u>
Chancellor Daniel Ritchie (R)	Chief Justice of the Colorado Supreme Court
Dean Gene Nichol (U)	Chief Justice of the Colorado Supreme Court
Speaker Chuck Berry (R)	Speaker of the House
Mr. Edward Garner (D)	Governor
Mr. James Johnson (R)	Chief Justice of the Colorado Supreme Court
Rep. Matt Jones (D)	House Minority Leader
Ms. Deedee Gale Mayer (R)	Chief Justice of the Colorado Supreme Court
Mr. James Monaghan (D)	Governor
Sen. Robert Pastore (D) (Appointed September 4, 1991, to fill the vacancy created by Sen. Larry Trujillo's resignation.)	Senate Minority Leader
Ms. Peggy Ventura (D)	Governor
Sen. Jeff Wells (R)	Senate Majority Leader

The Commission elected Dan Ritchie to serve as chairman of the Commission and Gene Nichol to serve as vice-chairman.

Commission meetings - criteria - public hearings.

The first meeting of the Commission took place on July 30, 1991. The Commission held 19 meetings within the 90-day time frame allowed by the Colorado Constitution between the first Commission meeting and the date of publication of the Preliminary Plan. The first three meetings were conducted to familiarize the members with the demographics and economic communities of the state, with federal Voting Rights Act provisions, and with other issues related to the reapportionment process.

The Commission discussed the legal criteria dictated by federal statutes and the U.S. and Colorado Constitutions for drawing and assessing plans. The primary criteria are as follows:

* Districts must be as nearly equal in population as possible, with no more than a 5% deviation between the largest and the smallest. State Constitution, Article V, Section 46.

* The plans must not deny to members of a racial, color, or language minority an equal opportunity to participate in the political process and to elect representatives of their choice. Federal Voting Rights Act, 42 U.S.C. sec. 1973 (b).

Of secondary importance are the preservation of county boundaries, the preservation of municipal lines, and the formation of compact districts. State Constitution, Article V, Section 47 (1) and (2).

The third level of importance is the preservation of communities of interest. State Constitution, Article V, Section 47 (3).

The last and unofficial level which the Commission considered was the preservation of politically competitive districts.

In formulating both the Senate and the House districts, major consideration was given to ethnic data of the state. The Census Bureau's method of reporting racial and ethnic data can cause confusion. Total population is broken down into Hispanics and non-Hispanics. "Hispanics" include White Hispanics, Black Hispanics, and people of any other race or group who identify themselves as Hispanic. "Non-Hispanics" are further broken down into non-Hispanic Whites, non-Hispanic Blacks, and so forth.

The Census Bureau also furnishes a separate breakdown of total

population into categories for Whites, Blacks, Asians, American Indians, and others. Hispanics could be included in any of these categories.

Thus, in determining total minority population in a district, the Commission attempted to avoid the pitfall of double-counting Hispanic Blacks, which would have occurred if Hispanic population were simply added to Black population. Instead the figures in the Final Plan were derived by adding Hispanics, non-Hispanic Blacks, and other non-Hispanic minority groups to determine total minority population. The Commission recognized that this method understates the total number of Blacks, since Hispanic Blacks are counted as Hispanics and not as Blacks. Therefore, for districts with substantial Black populations, the narrative description of the district supplies the total number of Blacks as well as non-Hispanic Blacks.

The Commission also discussed the problems presented by the apparent undercounting of population in certain areas of the state, particularly areas where sizeable minority groups reside. In view of the fact that the U.S. Census Bureau had chosen not to do a statistical adjustment of census population figures, the Commission decided to proceed using the official, unadjusted data for its plans. However, it filed a request for the adjusted data with the U.S. Department of Commerce in accordance with the federal Freedom of Information Act (FOIA), 5 U.S.C. sec. 552, in hopes of analyzing the differences between adjusted and unadjusted data. The request was denied on September 20, 1991. The Commission filed an administrative appeal which was denied on December 3, 1991. The Commission determined not to proceed with litigation since other cases involving the same issues of access to adjusted data were farther along in the federal court system.

The Commission began the task of reapportioning the House and Senate seats by dividing the state into seven geographic regions: Western slope; Denver; Jefferson County; Arapahoe, Douglas, and Elbert Counties; Boulder and Adams Counties; El Paso County; and the remainder of the state which consisted of Larimer and Weld Counties, the San Luis Valley, and the eastern plains. Plans for each region were submitted by political parties, interested groups, and the staff. As described in further detail below, the Commission fixed the areas of Voting Rights Act concern first and worked around the state to create the Preliminary Plan.

The Preliminary Plan was published October 28, 1991, by mailing

copies to over 500 persons, including members of the press, county clerk and recorders, legislators, county chairs of both political parties, and members of the public.

The Reapportionment Commission convened its first public hearing within two weeks after publication of the Preliminary Plan. Regional hearings were held in 20 locations around the state with each hearing attended by at least three Commission members and two staff members. Hearings located the farthest from Denver were scheduled before metro area hearings in an attempt to avoid winter snowstorms. The hearing sites and the dates on which hearings took place are listed below:

<u>Location</u>	<u>Date</u>
Durango	November 12
Grand Junction	November 13
Lamar	November 13
Gunnison	November 14
Alamosa	November 18
Sterling	November 18
Breckenridge	November 19
Steamboat Springs	November 19
Pueblo	November 20
Brighton	November 20
Trinidad	November 21
Ft. Collins	November 21
Greeley	November 25
Limon	November 26
Colorado Springs	December 2
Golden	December 2
Denver	December 3
Castle Rock	December 4
Boulder	December 4
Littleton	December 5

The Commission met on four occasions following the completion of the public hearings to discuss comments which it received and to formulate the Final Plan. The Final Plan was adopted on January 13, 1992, by a vote of 10-1 for the Senate districts and by a vote of 7-4 for the House districts. The Final Plan renumbered some Senate and House districts in an effort to keep consecutive numbers in the same county or

region, insofar as possible. A table showing old and new numbers is included in this report as Attachment D.

Court proceedings.

The Final Plan was submitted to the Colorado Supreme Court on January 21, 1992. The Commission filed its Legal Memorandum and Explanatory Materials in Support of Final Plan on January 31, 1992. The Hispanic League, the Colorado Hispanic Bar Association, and the City of Aurora filed statements in support of various aspects of the Final Plan. Objections to the Final Plan were required to be filed by February 20. Objections were received from the following entities and individuals:

Larimer County Commissioners and County Clerk and Recorder of Larimer County	City of Englewood, and certain registered electors and elected officials
Rep. Charles Duke Rep. Jeanne Adkins (Perry Park)	Boulder County Clerk and Recorder
Arapahoe County Commissioners	Adams County Clerk and Recorder
Joan M. Johnson <u>et al.</u> , Dist 24	Sheridan School District
Arapahoe County School District No. 1	City of Westminster
Bipartisan Committee to Keep Montezuma County Whole	City of Sheridan, and certain registered electors and elected officials
Pitkin County Commissioners	Baca County Commissioners
Colorado Black Roundtable, Inc.	Colorado Black Women for Political Action
Blacks for Fair Reapportionment	Denver Branch NAACP
The Colo-Wyo State Conference of Branches of the NAACP	Columbine Knolls South Homeowner's Association
Michael Henry <u>et al.</u> , Dist. 32 & 35	Jennie Sanchez <u>et al.</u> , Dist. 60

The Commission filed its Response to Objections on March 2, and a 2 1/2-hour oral argument took place on March 5.

The Supreme Court handed down its initial decision on March 13. It approved the Final Plan except for the boundary between House Districts 20 and 64 in Douglas County, which split the community of Perry Park, and the boundary between House Districts 57 and 61 in Pitkin County, which split the City of Aspen and divided communities of interest in Pitkin County. See Attachment E.

The Commission met on March 17 to consider alternatives. It amended the Final Plan and resubmitted it to the Court on March 19.

The Court solicited public comments on two of the alternatives for Districts 57 and 61 (and related districts) which had been presented to the Commission and allowed the Commission to reply to the public comments submitted. On March 30 the Court approved the Final Plan as resubmitted. See Attachment F. It ordered that the Final Plan be filed with the Secretary of State that day, which was in fact accomplished. See Attachment G.

NARRATIVE DESCRIPTION OF FINAL PLAN.

Senate Plan. The Senate portion of the Final Plan is comprised of 35 districts with an ideal population of 94,126 each. As required by Colorado Constitution, Article V, Section 46, district populations cannot vary by more than 5%. Senate District 24 is the smallest, having a population of 92,142, or 2.11% below the ideal. Senate District 6 is the most populous with 96,750, or 2.79% more than the ideal. According to the 1990 U.S. Census, there are 54 counties with population at or below the ideal population of a Senate district. See attachment C. Of those 54 counties, only Delta County is split. There are 261 municipalities in the state with population less than the ideal population of a Senate district. See attachment H. Of the 261 municipalities, there are four which are wholly contained within a single county and are split.

The Senate plan includes a designation of which districts are to elect senators in which years.

a. Denver

A significant factor in drawing the Denver Senate plan was the Voting Rights Act. An effort was made to create two districts (31 and

34) in which Hispanics would have an opportunity to elect a representative of their choice. For similar reasons, Black population was maximized in District 33.

Preservation of neighborhoods was also a major factor in the Senate plan for Denver. A preliminary plan had split the Capitol Hill neighborhood four ways. The Final Plan reduces that to a three-way split or a two-way split, depending on how "Capitol Hill" is defined.

The Commission was concerned about compactness as well in Denver, although it recognized that its Voting Rights Act obligations were superior to considerations of compactness. The Commission drew the three minority districts (Districts 31, 33 and 34) and then divided the rest of Denver among Districts 32 and 35 in the most compact way possible.

b. Metropolitan Denver Suburbs

District 25 in Adams County was drawn with Voting Rights Act considerations in mind. Under the 1981 plan the percentage of Hispanics in this district was 21.47%. Under the Final Plan, the Hispanic percentage is 22.65%. The lack of compactness is caused by the land annexed for the airport.

A major objective in redistricting the metropolitan suburban areas was to avoid unnecessary county and municipal splits. Only Jefferson County includes two fractional districts (excluding the Bow Mar split in Senate District 26, which is mandated by the constitutional requirement of contiguity). Preservation of municipalities was often inconsistent with compactness, however, especially in Adams County, southeast Boulder County, and northern Jefferson County, because of the uneven patterns of annexation.

Due to population growth and shifts in the state, a "new" senate district was created. It is designated as District 29 and located in Arapahoe County, which is the county that had the greatest increase in population in absolute terms.

c. El Paso County

El Paso County has enough people for 4.2 Senate districts. While the Commission sought to draw four districts wholly within El Paso County, the configuration of the surrounding districts left Teller County unassigned. Two fractional districts thus had to be created in El Paso County. The western El Paso district (District 12) includes Teller County, and the rural eastern portion of the County joins with the

Eastern Plains to form District 2. In general, the districts in this area follow the pattern of the 1981 plan within El Paso County.

d. South Central Colorado

The Commission sought to improve the ability of the Hispanic community to elect representatives of its choice by drawing two strong Hispanic districts in this area: District 3 (39.68% Hispanic) and District 5 (37.42% Hispanic). The composition of district 5 also represented an effort to keep counties whole.

e. Larimer and Weld Counties; Eastern Colorado; and Western Colorado

After defining the districts in South Central Colorado, the Commission worked its way east and north, keeping counties whole wherever possible. District 2 was completed using the unassigned part of El Paso County. The seven northeast counties divide relatively evenly into two Senate districts, one a metropolitan Greeley district and the other primarily rural. Larimer County has almost precisely the population for two Senate districts, one a Ft. Collins district and the other the area around Ft. Collins.

Working west and north from South Central Colorado, the Commission created Districts 6, 7, 4 and 8, again keeping counties whole wherever possible. Only one county, Delta, was required to be split, and that split is accomplished using exactly the same line as was used in the House plan. (This is the reason District 6 is 2.79% over the ideal population. The original line in the preliminary plan equalized populations better, but would have required the creation of four separate ballots in general elections in Delta County, which would have caused substantial increased costs. The total population variance is still within the 5% limit.) Hinsdale County was included in District 4 despite the apparent lack of compactness because testimony at a public hearing indicated that Hinsdale County had a greater community of interest with Gunnison County due to transportation patterns.

Because of population growth, District 13 is a contracted version of the 1981 district, which included Eagle and Pitkin Counties under the 1981 plan, as well as western Boulder, Jefferson, Gilpin, and Clear Creek Counties.

House plan. The House of Representatives portion of the Final Plan is comprised of 65 districts. According to the 1990 census, the ideal population of a House district is 50,683. House District 60 is the least populous district with a population of 49,409, or 2.51% below the

ideal population. The most populous district is House District 16, which is 2.45% greater than the ideal with a population of 51,924. There are only six counties which have population less than the ideal district and which have been split. There are 255 municipalities with population below the ideal population of a House district, see Attachment H, and of those 255 only 12 municipalities that are wholly contained within a single county have been split.

a. **Denver**

A major consideration in redistricting Denver was compliance with the Voting Rights Act, including particularly the need to avoid retrogression, i.e., a decrease in the number of representatives that minority groups have a fair opportunity to elect. The districts most affected by this consideration include Districts 2, 4 and 5 (currently represented by Hispanics) and Districts 7 and 8 (currently represented by Blacks).

The line between Districts 5 and 8 was determined by examining census data on ethnic composition for each block and precinct to see whether the area was predominantly Hispanic or Black. If predominantly Hispanic, the area generally was included in District 5; if predominantly Black, the area generally was included in District 8.

Prior to redistricting, Districts 7 and 8 had substantially less population than the ideal 50,683. As a result, they were expanded southward. Expansion to the north or east would have crossed county lines. Expansion to the west would have reduced the opportunity for Hispanics to elect representatives of their choice in District 5.

Districts 2, 4 and 5, which contain large Hispanic populations, also had to expand geographically because their populations were less than the ideal. The Commission attempted to spread the Hispanic population equally among these three districts and avoid "packing" Hispanic population into fewer districts, thereby reducing the opportunity of Hispanics to elect representatives of their own choice.

The rest of Denver is divided into five districts: 1, 3, 6, 9 and 10. The Commission tried to make these districts as compact as possible and, at the same time, to keep neighborhoods intact. Some neighborhood splits occurred, however, because the south and east boundaries of the area comprising Districts 2, 4, 5, 7 and 8 were fixed first in an effort to comply with the Voting Rights Act.

The uneven shape of District 1 in southwest Denver is caused by

the uneven boundary of Denver, which reflects annexations made prior to the Poundstone amendment.

There are three enclaves of Arapahoe County having a total population of over 5,000 that are totally surrounded by Denver. The two Holly Hills enclaves are placed in District 9, and the Glendale enclave is located in District 6. These enclaves could not be included with other Arapahoe County land because Section 47(1) of Article V of the Colorado Constitution requires that districts contain only contiguous whole general election precincts.¹

District 3 crosses the boundary of Denver and includes part of Arapahoe County. At least one county split was inevitable for Denver because of the uneven allocation of House seats based on population (9.2). The Commission decided to cross into Arapahoe County because crossing the north or west borders of Denver would have reduced the opportunity for minorities in those areas to elect representatives of their choice.

b. Metropolitan Denver Suburbs

Other than Districts 32 and 36 in Adams County, which were formulated to address Voting Rights Act concerns, the Commission's primary concerns in the Denver suburbs were to minimize county and city splits.

Arapahoe County. The preliminary plan proposed by the Commission had split Englewood among three districts: 3, 37 and 38. In order to minimize the number of splits and in response to community concerns raised at the Littleton public hearing, this was reduced to a two-way split between Districts 3 and 37.

District 38 includes all of the city of Littleton. The irregular shape in the northwest quarter of the district mirrors Denver's irregular boundary. This district includes the town of Bow Mar, which, while part of Jefferson County, has two areas that are not contiguous to Jefferson County. Due to the constitutional requirement that districts contain contiguous whole general election precincts, Bow Mar could not be placed in a district with the remainder of Jefferson County. The

¹ Other enclaves exist within Denver, although they do not have substantial population. District 1 includes Jefferson County enclaves; District 7 includes an Adams County enclave; and district 10 includes other Arapahoe County enclaves.

Commission decided to place Bow Mar in District 38, based on the request of Bow Mar residents at a public hearing and because of the relatively greater community of interest Bow Mar apparently shares with Arapahoe County, as compared with Denver, the only other choice.

The Commission's determinations in Districts 37 and 39 illustrate the application of the criteria concerning integrity of county and municipal boundaries. District 37 preserves the municipal boundaries of Cherry Hills Village and Greenwood Village, and District 39 is long and narrow to avoid crossing the boundary between Arapahoe and Douglas Counties.

The western boundaries of Districts 41 and 42 match the Denver boundary, which causes the irregular lines.

District 43 is located in one of the fastest growing areas of the State and is a "new" district under the Final Plan. Arapahoe County was entitled to 6.6 districts under the preexisting reapportionment plan; its population now entitles it to 7.8.

Adams County. Adams County grew more slowly in the 1980's (7.7%) than the state as a whole (14.0%), resulting in the need for Adams County districts to add territory to meet the population requirement under Section 46 of the Constitution. The Commission was concerned not to decrease the percent of Hispanic population any more than necessary in Districts 32 and 36. District 32 was 27.59% Hispanic under the 1981 plan, and decreases slightly to 26.71% under the Final Plan. District 36 was at 17.29% Hispanic under the 1981 plan, and changes to 15.95% under the Final Plan.

The annexation for the new Denver airport causes very irregular shapes in Districts 7 and 36; however, the Commission determined that, in this instance, the requirement of keeping counties whole where possible should prevail over compactness.

One of the primary considerations in drawing Districts 33, 34 and 35 was to preserve municipal lines. Federal Heights is whole in District 34. Northglenn is whole in District 33. The Adams County portion of Westminster known as "Old Westminster" is in District 35. Thornton, however, is split among multiple districts (31 to 34) for a number of reasons, including, but not limited to, the fact that Thornton's population (55,031) was too large to fit into one district (unlike the case with Northglenn (27,195) and Federal Heights (9,342)), and Thornton's shape was too irregular to fit into a compact district. Voting Rights Act

concerns in Districts 32 and 36 also contributed to the split of Thornton. The Commission, though, was able to keep Thornton within a single district in the Senate. The Final Plan for Adams County districts attempts to harmonize the competing objectives of compactness and preservation of municipal boundaries.

Adams County is entitled to 5.2 House seats. The fractional seat is District 31, which also includes territory in Boulder and Weld Counties. This district was a three-county district in the 1981 plan as well.

Boulder County. Boulder County includes four whole House districts (11, 12, 13 and 14) plus a portion of District 31. A principal criterion applied for these districts was the preservation of municipal boundaries. Although Longmont is too large to be a single district (and enclaves within it exacerbate the problem), most of Longmont is within District 12. Lafayette is whole in District 31. Louisville and Broomfield are whole in District 13. Most plans that were proposed split the city of Boulder three ways; however, the Commission late in its deliberations adopted the present version which splits the city only in two.

Jefferson County. Although Jefferson County grew 17.9% during the 1980's, the districts in this county were able to retain the general configuration they had under the 1981 plan. Golden, Genesee, and Evergreen are grouped together in a far west suburban district (District 25). After completing the districts along the heavily populated eastern edge of the County, the Commission combined the northernmost part of the County with Gilpin, Clear Creek and Summit Counties to the west to create District 62.

Douglas County. Douglas County grew at a faster rate than any other county in the State -- by 140.1%. The Final Plan puts the Highlands Ranch areas and State Highway 83 areas (e.g., Parker and the Pinery) together with north Castle Rock into District 64. South Castle Rock and the southern part of Douglas County are in District 20, which stretches into El Paso County. In response to the initial decision of the Supreme Court, the entire community of Perry Park is placed in District 20. Because of Castle Rock's central location and the size of its population, it was virtually impossible to avoid splitting the city.

c. El Paso County

The portion of District 20 in El Paso County includes the "Tri-Lakes" area (Palmer Lake, Monument Lake and Lake Woodmoor), the Black Forest, and the Air Force Academy.

The El Paso County area increased from seven to eight House seats because of population growth. District 15 is the "new" seat. Special consideration was given to District 17 because it has the highest minority population -- 16.81% non-Hispanic Blacks and 16.41% Hispanic. The methodology of the Commission was to create a high concentration minority district in central Colorado Springs, and then to work around that district for all other districts in the area. Another concern was to keep the Fountain Valley community of interest whole in District 19, insofar as possible.

d. Larimer and Weld Counties

Together, Larimer and Weld Counties are entitled to six House seats, but the populations of the two counties did not allow each to have three whole districts. The major issue thus was which district or districts should cross the county line. The Commission considered over twenty plans -- some involving District 49 crossing the county line, some involving District 48 crossing the county line, some involving both Districts 48 and 49 crossing the county line, and some involving adjustments in other districts. The Final Plan has only one county split and uses a configuration that emphasizes compactness.

The Voting Rights Act was a substantial consideration in drawing District 50 in Greeley. Hispanic population in District 50 was maximized at 27.00%, at the expense of some compactness resulting from extending the district east of Greeley and southward into the town of LaSalle.

Compactness and preservation of municipal boundaries were primary criteria in drawing Districts 52 and 53, which cover the City of Ft. Collins and northwest Larimer County. The extension of District 51 into Loveland reflects a desire to keep the city whole.

e. South Central Colorado

District 60 includes all of the six counties that constitute the San Luis Valley: Saguache, Mineral, Rio Grande, Alamosa, Conejos, and Costilla. To satisfy the population requirement and complete the district, the Commission chose to go east in order to avoid the dilution of Hispanic population that would occur by going other directions. All of Huerfano County and part of Las Animas County were included as a result. The district stops on the western boundary of Trinidad, thus avoiding a city split. The Final Plan involves only one county split (Las Animas), rather than the three county splits that were in the preliminary plan.

Districts 45 and 46 cover most of the city of Pueblo. District 46 was drawn in a manner designed to improve the opportunity of the Hispanic community to elect a representative of its choice. The district includes 46.84% Hispanics, up from 43.96% under the 1981 plan.

District 44 began with the remainder of Pueblo County and includes all of Custer and Fremont Counties and the southern half of Teller County.

f. Western Colorado

Once the Commission had fixed the boundaries of the districts in the San Luis Valley and Pueblo area, which had special Voting Rights Act concerns, it employed a relatively straightforward process thereafter in defining districts in western Colorado. In general terms, the Commission worked its way west and north, including as many whole counties and splitting as few counties as possible to reach the required population level, all with due consideration of preserving communities of interest wherever possible. Splits of Teller County, Montezuma County, Delta County, Garfield County and Pitkin County occurred as a result of the need to complete the required population level of the districts involved. Hinsdale County was included in District 61 for the same community of interest reasons that it was included in Senate District 4 (see above).

Before adopting the Final Plan, the Commission had experimented with a number of configurations of the districts covering the Roaring Fork Valley, but all involved either additional county splits or less compactness. As a result of the initial Supreme Court decision, the split of Pitkin County was revised so that the City of Aspen is whole in District 61, and three precinct splits were eliminated.

g. Eastern Colorado

The Commission followed the same basic process in defining districts in eastern Colorado as it did for western Colorado, proceeding east and north from the San Luis Valley and Pueblo area, and completing districts with as many whole counties and as few county splits as possible.

DISTRICT-BY-DISTRICT DESCRIPTION OF FINAL PLAN.

SENATE DISTRICTS

EASTERN COLORADO:

District 1 This district consists of the agricultural counties in the northeastern portion of the State. In order to obtain needed population, the district extends into the rural areas of Weld County.

District 2 Rural eastern and southeastern Colorado forms the basis of this district. It consists of whole counties except for the eastern region of El Paso County.

SOUTH CENTRAL COLORADO:

District 3 District 3 consists primarily of the City of Pueblo. Its Hispanic population is at 39.68%.

District 5 Designed to maximize Hispanic population, this district contains 37.42% Hispanics. It covers all of the San Luis Valley, Huerfano and Las Animas Counties, and the remainder of Pueblo County.

WESTERN SLOPE:

District 4 This district runs from Delta County in the west to Park and Fremont Counties in the east through the central mountainous areas of the State. Delta County is split along the same line as was used to separate House Districts 54 and 58.

District 6 District 6 extends from Delta County in the north to Montezuma, La Plata, and Archuleta Counties in the south. It essentially preserves the state's Native American community in a single district.

District 7 Since Mesa County's population is very close to the size of an ideal Senate district, Mesa County was kept whole in the plan.

District 8 This district is located in the northwestern section of the state. It consists entirely of whole counties.

EL PASO:

District 9

The north central area of El Paso County comprises this district. Black Forest, Monument, the Air Force Academy, Cascade-Chipita Park, and the northern part of Colorado Springs are located here. Since the population of this area has grown, Elbert County has been moved to District 30.

District 10

District 10 is in the central part of the County and contains Cimarron Hills, part of Colorado Springs, and Security-Widefield. Because of population growth, it no longer includes Lincoln County or the rural eastern part of El Paso County.

District 11

This district includes the greatest concentrations of minority populations of any district in El Paso County. There are 16.12% non-Hispanic Blacks and 14.42% Hispanics in this district. The district contains central portions of Colorado Springs as well as Fort Carson Army Base.

District 12

District 12 is found in central and western Colorado Springs and includes all of Teller County.

WELD - LARIMER:

District 14

District 14 is largely within the City of Ft. Collins. Irregular boundaries are due to the shape of the municipal boundaries.

District 15

This is the second senate district located wholly within Larimer County. It is shaped like a doughnut around the City of Ft. Collins. It includes the rural and mountainous portions of the County that were formerly included in District 8.

District 16

The City of Greeley and the rural Weld County towns of Milliken, Windsor, LaSalle, Ault, Pierce, Johnstown, Evans, and Gilcrest are in District 16.

BOULDER:

District 17

Running lengthwise along the eastern edge of the County, District 17 includes Longmont, Lafayette, Louisville, Niwot, and the Gunbarrel area.

District 18 District 18 includes all of the City of Boulder as well as some unincorporated territory north of the City.

JEFFERSON:

District 13 The Counties of Summit, Clear Creek, and Gilpin, the northwestern portion of Jefferson County, and the western portion of Boulder County make up this district. Approximately 51,000 people from Jefferson County and 21,000 people from Boulder County form the district's core.

District 19 District 19 is located in the northeastern corner of Jefferson County and includes portions of the Cities of Westminster and Arvada.

District 20 This district is immediately south of District 19. It is composed of the communities of Wheat Ridge, Golden, Applewood, and a part of Arvada.

District 21 District 21 is found in the central area of eastern Jefferson County. It includes Edgewater and a portion of Lakewood.

District 22 Southern Lakewood, Ken Caryl, and Columbine are located in District 22, which is located in the fast-growing southern portion of metropolitan Jefferson County.

ADAMS:

District 23 This district includes the southeastern corner of Boulder County and the northwestern portion of Adams County. It includes the Cities of Broomfield, Northglenn, and most of the Adams County portion of Westminster.

District 24 Located in the central part of Adams County, district 24 includes the Cities of Thornton and Federal Heights and the Sherrelwood and Welby areas.

District 25 The irregular shape of this district is required by the configuration of the area annexed to Denver for the new international airport. The district continues eastward from Districts 23 and 24 to the eastern boundary of Adams County. It includes Commerce City and Brighton. Its Hispanic population is

22.65%.

ARAPAHOE - ELBERT - DOUGLAS:

District 26 District 26 is found in the western end of Arapahoe County. Its boundaries encompass the Cities of Englewood, Sheridan, Littleton, Cherry Hills Village, and a part of Greenwood Village. It also includes the Jefferson County town of Bow Mar.

District 27 District 27 continues eastward from District 26 through the south central part of Arapahoe County.

District 28 This district is composed of a part of the City of Aurora and unincorporated territory located to the east of the southeast corner of Denver.

District 29 This district, located east of central Denver and running from Colfax Avenue in the north to Jewell Avenue in the south, has a non-Hispanic Black population of 13.40%, a Hispanic population of 7.41%, and a population of other non-Hispanic minorities of 4.82%, resulting in a total minority population of 25.63%.

District 30 District 30 includes Douglas and Elbert Counties, the rural eastern portion of Arapahoe County, and approximately 12,000 people from southern Jefferson County.

DENVER:

District 31 The district is located in central west Denver. Its northern boundary consists of West 26th Avenue, West Colfax Avenue, West 13th Avenue, and Speer Boulevard; its eastern boundary is Downing Street; and its southern boundary is West Jewell Avenue. Its Hispanic population is 43.35%.

District 32 District 32 extends from the southwest corner of Denver east and north, around district 31, and to the intersection of Colorado Boulevard and 13th Avenue.

District 33 This district is located in northeast Denver and contains much of Denver's Black population.

Non-Hispanic Blacks comprise 45.71% of the district; Hispanics are 10.90%; other non-Hispanic minority groups are 2.94%; and non-Hispanic Whites are 40.45%. The total Black percentage is 46.90%.

District 34 District 34 extends from the northwestern corner of Denver into the Capitol Hill area. Its population is 43.93% Hispanic and 4.87% non-Hispanic Black.

District 35 This district occupies the southeast corner of Denver. It includes the Arapahoe County enclaves of Glendale and Holly Hills.

HOUSE DISTRICTS

DENVER:

District 1 This district is found in the southwest corner of the City and County of Denver. Its irregular shape is caused by following the boundary of Denver.

District 2 This west central Denver district was drawn to maximize Hispanic population. Hispanics make up 48.84% of the total population of the district, which is the largest Hispanic population of any district in the State.

District 3 Fifty-four percent of this district's population comes from Arapahoe County, and 46% from Denver. The Arapahoe County portion of the district contains Sheridan and a part of Englewood. Other than the districts which include Arapahoe, Adams and Jefferson County enclaves in order to comply with the constitutional requirement of contiguity, this district is the only House district which crosses the Denver boundary.

District 4 This district is found in northwest Denver. Its population is 43.63% Hispanic.

District 5 The Hispanic population of this north central Denver district is 48.45%. Its eastern boundary is a line

which divides predominantly Hispanic areas on the west from predominantly Black areas on the east.

District 6: This east central Denver district includes the neighborhoods of Cheesman Park and Congress Park south of 13th Avenue, Country Club, Cherry Creek, Belcaro, Hale, portions of Hilltop and South Park Hill, and Windsor Gardens. The City of Glendale, an Arapahoe County area which is wholly surrounded by Denver, is in District 6. Lowry Air Force Base is also in this district.

District 7 Blacks comprise 45.65% of the total population of this district. The ethnic breakdown of its population is as follows: 44.58% non-Hispanic Blacks; 42.86% non-Hispanic Whites; 9.35% Hispanics; and 3.21% non-Hispanic others. It contains the Montbello neighborhood and a portion of Park Hill. Its shape corresponds to the area annexed to Denver for the new international airport.

District 8 This district is located in central northeast Denver and contains the neighborhoods of Five Points, Cole, Whittier, and the remainder of Park Hill. Total Black population is 44.42%. The ethnic breakdown of the district is as follows: 43.10% non-Hispanic Blacks; 39.21% non-Hispanic Whites; 15.19% Hispanics; and 2.50% non-Hispanic others.

District 9 This district is found in south central Denver. University Park, University Hills, Wellshire, Cory-Merrill, and a part of Virginia Village are in District 9. It also contains the two noncontiguous portions of Holly Hills, an Arapahoe enclave entirely surrounded by Denver.

District 10 District 10 comprises the southeast portion of the City and County of Denver. It includes Virginia Vale, a portion of Virginia Village, Goldsmith, Hampden, and Southmoor neighborhoods.

BOULDER:
District 11 This district extends from Arapahoe Road in the City of Boulder north and west to the Boulder County line.

- District 12** This district consists primarily of the City of Longmont and its enclaves. It extends west along the Diagonal Highway to meet District 11 at North 73rd and North 75th Streets.
- District 13** The Cities of Louisville and Superior, the Boulder County portion of Broomfield, and the Gunbarrel area are found in this district, which runs along the southern boundary of Boulder County.
- District 14** This district consists of the southern part of the City of Boulder, south of Arapahoe Road, as well as the area east of Boulder to Cherryvale Road (North 60th Street).
- EL PASO:**
District 15 District 15 is found in eastern Colorado Springs and includes the Cimarron Hills area. It runs from Woodmen Road and Judge Orr Road south to Drennan Road, and its eastern boundaries are Curtis Road and Franciville Coal Mine Road.
- District 16** This is an east central Colorado Springs district extending from Austin Bluffs Parkway, Union Boulevard, and Academy Boulevard in the north to East Boulder Street, East Willamette Avenue, and some irregular precinct boundaries in the south.
- District 17** District 17 is in south central Colorado Springs and has an Hispanic population of 16.41%, a non-Hispanic Black population of 16.81%, and a population of other non-Hispanic minority groups of 5.17%.
- District 18** Located in north central Colorado Springs to the north of District 16, this district comprises one of the fastest growing areas of the state during the 1980's.
- District 19** This district runs eastward from Interstate 25, around Districts 15 and 20, and extends to the eastern boundary of El Paso County. The communities in District 19 include Security-Widefield, Fountain, Peyton, Calhan, Ramah, and a portion of the City of Colorado

Springs.

- District 20** Approximately 4/5 of the population in this district is from El Paso County, and 1/5 is from Douglas County. The El Paso portion includes Monument, Woodmoor, Palmer Lake, Black Forest, and the Air Force Academy. The Douglas County portion includes the southern part of Castle Rock, all of Larkspur, and Perry Park.
- District 21** District 21 includes the Broadmoor area and a portion of the Stratmoor area of Colorado Springs. It continues southward to the southern boundary of El Paso County.
- District 22** This district consists of the western part of the City of Colorado Springs as well as the City of Manitou Springs and the Cascade-Chipita Park area.
- JEFFERSON:**
- District 23** This district is located in the northern portion of Lakewood and is wholly contained within the Lakewood city limits.
- District 24** The municipalities of Wheat Ridge and Edgewater make up the major part of this district, which is in central Jefferson County.
- District 25** District 25 consists of the rural areas of southwestern Jefferson County as well as the communities of Golden, Genesee, Evergreen, Bergen Park, Conifer, and Aspen Park.
- District 26** This district runs from Denver to W-470 through central Lakewood. Like District 23, it is wholly contained within the City.
- District 27** Since Arvada has too many people for a single district, it is divided between Districts 24, 27, and 29, with District 27 comprising the western portion of the City.
- District 28** This district consists of the fast-growing communities of unincorporated south Jefferson County, such as Ken Caryl and Columbine.

- District 29** The eastern portion of Arvada and the southeastern portion of Westminster are found in District 29.
- District 30** District 30 wraps around the far southwest portion of Denver, west of Sheridan Boulevard. It contains the town of Morrison and the portion of Lakewood south of Jewell Avenue.
- District 62** This district runs from the Jefferson County portion of Westminster west along Interstate 70 through Gilpin, Clear Creek, and Summit Counties.
- ADAMS:**
- District 31** District 31 is split between Adams, Boulder, and Weld Counties, as in the current configuration. It includes a portion of Thornton in Adams County; Lafayette in Boulder County; and Dacono, Fort Lupton, Erie, and a portion of Brighton in Weld County.
- District 32** This district is found immediately north of Denver and includes Commerce City and a portion of Thornton. Hispanics comprise 26.71% of its total population.
- District 33** District 33 extends east from the Adams-Boulder boundary; it includes the entire City of Northglenn.
- District 34** Located south of District 33, this district contains the City of Federal Heights and surrounding areas.
- District 35** This district is found in the southwest corner of Adams County and encompasses most of the Adams County portion of Westminster, including the area known as "Old Westminster".
- District 36** Hispanic voting strength in this district is at 15.95% of total population. The district also includes 11.72% non-Hispanic Blacks and 3.42% other non-Hispanic minority groups, for a total minority population of 31.09%. The district wraps around the Denver airport and extends to the eastern boundary of Adams County.

ARAPAHOE - DOUGLAS:

District 37 District 37 lies immediately south of Denver. It includes part of Englewood and all of Cherry Hills Village and Greenwood Village.

District 38 The City of Littleton constitutes the major part of this district, which is located in the southwest part of Arapahoe County. The district also includes the Jefferson County town of Bow Mar, which is not contiguous to the rest of Jefferson County.

District 39 District 39 stretches along the Arapahoe-Douglas County line from Southglenn to the southern part of Aurora. Its shape was dictated by the long, thin shape of Arapahoe County.

District 40 District 40 encompasses the southern part of the City of Aurora. It covers a very fast-growing area of the State.

District 41 This district is found south of Mississippi Avenue and east and north of southeast Denver. It consists of west central Aurora.

District 42 This district is wholly located within the Arapahoe County portion of Aurora. It includes non-Hispanic Black population of 14.55%, an Hispanic population of 7.80%, and a non-Hispanic population of other minority groups of 4.63%.

District 43 District 43 consists of the portion of Aurora and unincorporated portions of Arapahoe County that are east of Districts 39, 40, 41, and 42. The district extends to Watkins Road on the east.

District 64 This northern and western Douglas County district contains the communities of Highlands Ranch, Parker, and the Pinery, the Douglas County portion of Aurora, and the northern portion of Castle Rock.

SOUTH CENTRAL COLORADO:

District 44 Beginning in the farthest north portions of the City of Pueblo, this district covers part of Pueblo West, all of

Custer and Fremont Counties, and the southern part of Teller County up to U.S. Route 24.

District 45 This north Pueblo district has an Hispanic population of 28.53%. It is primarily located in the City of Pueblo, but it also includes a portion of Pueblo West.

District 46 Hispanic population was maximized in this south Pueblo district at 46.84%. Non-Hispanic Whites comprise 49.87% of the district's population.

District 47 District 47 includes all of the City of Trinidad and the eastern portion of Las Animas County, as well as the whole Counties of Baca, Bent, Crowley, and Otero and the remaining portion of Pueblo County. Its Hispanic population is 31.54%.

District 60 District 60 contains the six counties which comprise the San Luis Valley: Alamosa, Conejos, Costilla, Saguache, Rio Grande, and Mineral. It also contains Huerfano County and the western portion of Las Animas County. The Hispanic population in this district is 45.31%.

WELD - LARIMER:

District 48 This district includes the western portion of Greeley and the towns of Windsor, Milliken, Gilcrest, Platteville, Mead, Johnstown, and Eaton.

District 49 District 49 is composed of 17,176 people from Weld County and 33,749 people from Larimer County. It contains the rural farming and ranching areas of Weld County, a portion of southern Ft. Collins, the town of Berthoud, and unincorporated areas of Larimer County near Ft. Collins and Loveland.

District 50 The Hispanic population of this district is at 27.00%. The district consists primarily of the City of Greeley, but it also contains the City of Evans and the town of LaSalle.

District 51 Virtually all of the City of Loveland is in District 51. The district extends across the southern part of Larimer County and includes Estes Park.

District 52 District 52 is located in eastern Ft. Collins. The dividing line between Districts 52 and 53 in north and south Ft. Collins is Shields Street. In central Ft. Collins the dividing line is generally College Avenue.

District 53 This district contains the western part of Ft. Collins and the rural region in the northern and western part of Larimer County.

WESTERN COLORADO:

District 54 The southern part of Mesa County and the western part of Delta County comprise this district. The City of Grand Junction is split between Districts 54 and 55 along an east-west line. District 54 includes the Cities of Fruita and Delta.

District 55 District 55 is in northern and eastern Mesa County. It includes the northern portion of Grand Junction and the small farming communities east of the City.

District 56 This large district includes all of Jackson, Grand, Routt, and Eagle Counties, as well as the Carbondale portion of Garfield County.

District 57 The northwest Colorado Counties of Moffat and Rio Blanco and portions of Garfield and Pitkin Counties make up this district. Communities in the district include Glenwood Springs, Craig, Meeker, Rifle, and Snowmass.

District 58 District 58 includes the whole Counties of Dolores, Montrose, San Miguel, and Ouray and portions of Delta and Montezuma Counties. Telluride, Ouray, Montrose, and Orchard City are found within the district.

District 59 The whole Counties of Archuleta, La Plata, and San Juan, together with the southern portion of Montezuma County, form District 59.

District 61 This mountainous district includes the Counties of Gunnison, Hinsdale, Chaffee, Lake, and Park. It also contains the eastern portion of Pitkin County, including the City of Aspen, and the portion of Teller

County north of U.S. Route 24.

EASTERN COLORADO:

District 63

District 63 contains the central eastern plains Counties of Prowers, Kiowa, Cheyenne, Kit Carson, Yuma, Lincoln, and Elbert. It also contains the farming and ranching area of eastern Arapahoe County.

District 65

District 65 includes the counties of the northeast section of the State and generally follows the irrigated farmland areas along the South Platte River.

Article V Legislative Department

Section 46. Senatorial and representative districts. The state shall be divided into as many senatorial and representative districts as there are members of the senate and house of representatives respectively, each district in each house having a population as nearly equal as may be, as required by the constitution of the United States, but in no event shall there be more than five percent deviation between the most populous and the least populous district in each house.

As amended by the People, November 5, 1974 - Effective upon proclamation of the Governor, December 20, 1974.

Section 47. Composition of districts. (1) Each district shall be as compact in area as possible and the aggregate linear distance of all district boundaries shall be as short as possible. Each district shall consist of contiguous whole general election precincts. Districts of the same house shall not overlap.

(2) Except when necessary to meet the equal population requirements of section 46, no part of one county shall be added to all or part of another county in forming districts. Within counties whose territory is contained in more than one district of the same house, the number of cities and towns whose territory is contained in more than one district of the same house shall be as small as possible. When county, city, or town boundaries are changed, adjustments, if any, in legislative districts shall be as prescribed by law.

(3) Consistent with the provisions of this section and section 46 of this article, communities of interest, including ethnic, cultural, economic, trade area, geographic, and demographic factors, shall be preserved within a single district wherever possible.

As amended by the People, November 5, 1974 - Effective upon proclamation of the Governor, December 20, 1974.

Section 48. Revision and alteration of districts - reapportionment commission. (1) (a) After each federal census of the United States, the senatorial districts and representative districts shall be established, revised, or altered, and the members of the senate and the house of representatives apportioned among them, by a Colorado reapportionment

commission consisting of eleven members, to be appointed and having the qualifications as prescribed in this section. Of such members, four shall be appointed by the legislative department, three by the executive department, and four by the judicial department of the state.

(b) The four legislative members shall be the speaker of the house of representatives, the minority leader of the house of representatives, and the majority and minority leaders of the senate, or the designee of any such officer to serve in his stead, which acceptance of service or designation shall be made no later than July 1 of the year following that in which the federal census is taken. The three executive members shall be appointed by the governor between July 1 and July 10 of such year, and the four judicial members shall be appointed by the chief justice of the Colorado supreme court between July 10 and July 20 of such year.

(c) Commission members shall be qualified electors of the state of Colorado. No more than four commission members shall be members of the general assembly. No more than six commission members shall be affiliated with the same political party. No more than four commission members shall be residents of the same congressional district, and each congressional district shall have at least one resident as a commission member. At least one commission member shall reside west of the continental divide.

(d) Any vacancy created by the death or resignation of a member, or otherwise, shall be filled by the respective appointing authority. Members of the commission shall hold office until their reapportionment and redistricting plan is implemented. No later than August 1 of the year of their appointment, the governor shall convene the commission and appoint a temporary chairman who shall preside until the commission elects its own officers.

(e) Within ninety days after the commission has been convened or the necessary census data are available, whichever is later, the commission shall publish a preliminary plan for reapportionment of the members of the general assembly and shall hold public hearings thereon in several places throughout the state within forty-five days after the date of such publication. Within forty-five days after the completion of such hearings, the commission shall finalize its plan and submit the same to the Colorado supreme court for review and determination as to compliance with sections 46 and 47 of this article. Such review and determination shall take precedence over other matters before the court. The supreme court shall adopt rules for such proceedings and for the production and presentation of supportive evidence for such plan. The supreme court shall either approve the plan or return the plan and the court's reasons for disapproval to the commission. If the plan is

returned, the commission shall revise and modify it to conform to the court's requirements and resubmit the plan to the court within twenty days. If the plan is approved by the court, it shall be filed with the secretary of state for implementation no later than March 15 of the second year following the year in which the census was taken. The commission shall keep a public record of all the proceedings of the commission and shall be responsible for the publication and distribution of copies of each plan.

(f) The general assembly shall appropriate sufficient funds for the compensation and payment of the expenses of the commission members and any staff employed by it. The commission shall have access to statistical information compiled by the state or its political subdivisions and necessary for its reapportionment duties.

As amended by the People, November 5, 1974 - Effective upon proclamation of the Governor, December 20, 1974.

SUPREME COURT OF COLORADO
No. 92SA19

March 13, 1992

IN RE REAPPORTIONMENT OF THE COLORADO GENERAL ASSEMBLY

ORIGINAL PROCEEDING PURSUANT TO THE RULES
REGARDING REAPPORTIONMENT

EN BANC

PLAN DISAPPROVED AND
REMANDED WITH DIRECTIONS

JUSTICE ERICKSON delivered the Opinion of the Court. JUSTICE LOHR concurs in part and dissents in part. JUSTICE QUINN concurs in part and dissents in part, and JUSTICE MULLARKEY joins in Part I and IIA of the concurrence and dissent. JUSTICE VOLLACK concurs in part and dissents in part. JUSTICE MULLARKEY concurs in part and dissents in part, and JUSTICE QUINN joins in the concurrence and dissent.

This original proceeding under article V, section 48(1)(e), of the Colorado Constitution requires us to review the Final Plan submitted by the Colorado Reapportionment Commission (Final Plan) and determine whether the plan complies with sections 46 and 47 of article V.²⁰ A

²⁰Section 48 of Article V of the Colorado Constitution provides, in part:

Section 48. Revision and alteration of districts -- reapportionment commission. (1)(a) After each federal census of the United States, the senatorial districts and representative districts shall be established,

number of formal objections to the Final Plan have been filed with this court. Except for the division of Pitkin County into House Districts 57 and 61 and that part of the plan which unnecessarily divides Perry Park, we conclude that the Final Plan satisfies the constitutional criteria. We disapprove the Final Plan and return the plan to the Commission for revision, modification, and resubmission to include the technical corrections to the Larimer County and Boulder County plans and the recommended revision of the plan for Perry Park and for reconsideration of House Districts 57 and 61.

I

revised, or altered, and the members of the senate and the house of representatives apportioned among them, by a Colorado reapportionment commission consisting of eleven members, to be appointed and having the qualifications as prescribed in this section. Of such members, four shall be appointed by the legislative department, three by the executive department, and four by the judicial department of the state.

.....

(e) Within ninety days after the commission has been convened or the necessary census data are available, whichever is later, the commission shall publish a preliminary plan for reapportionment of the members of the general assembly and shall hold public hearings thereon in several places throughout the state within forty-five days after the date of such publication. Within forty-five days after the completion of such hearings, the commission shall finalize its plan and submit the same to the Colorado supreme court for review and determination as to compliance with sections 46 and 47 of this article. Such review and determination shall take precedence over other matters before the court. The supreme court shall adopt rules for such proceedings and for the production and presentation of supportive evidence for such plan. The supreme court shall either approve the plan or return the plan and the court's reasons for disapproval to the commission. If the plan is returned, the commission shall revise and modify it to conform the court's requirements and resubmit the plan to the court within twenty days. If the plan is approved by the court, it shall be filed with the secretary of state for implementation no later than March 15 of the second year following the year in which the census was taken.

Colo. Const. art. V, § 48 (emphasis added).

<u>Park/Lake/etc.</u>	61	61 (Chlouber)
<u>Summit/ etc.</u>	62	53 (S. Williams)

<u>Douglas</u>	64	40 (Adkins)
<u>Morgan/Logan/etc.</u>	65	65 (Eisenach)

Senate:

Districts 1 through 28 remain as currently numbered.

<u>Arapahoe</u>	29	No comparable district
<u>Douglas/etc.</u>	30	29 (Mutzebaugh)
<u>Denver</u>	31	31 (Mares)
	34	30 (Gallagher)
	33	33 (Groff)
	32	32/34 (Peterson/Pascoe)
	35	35 (Wham)

The court's role in reapportionment proceedings is sui generis. Our review must be "swift and limited in scope so that elections from the new districts may proceed on schedule." In re Reapportionment of the Colorado General Assembly, 647 P.2d 191, 194 n.6 (Colo. 1982) ("In re Reapportionment I"). "Our role in this proceeding is a narrow one: to measure the present reapportionment plan against the constitutional standards. The choice among alternative plans, each consistent with constitutional requirements, is for the Commission and not the Court." Id. at 194 (footnote omitted).

The constitutional standards we must apply include the assurance of "equal protection for the right to participate in the Colorado political process and the right to vote." Id. In reviewing the Final Plan, therefore, we must necessarily take into account federal constitutional standards arising from the Fourteenth²¹ and Fifteenth Amendments.²² See Reynolds v. Sims, 377 U.S. 533 (1964); Lucas v. Forty-Fourth General Assembly of Colorado, 377 U.S. 713 (1964).

In formulating and choosing among alternative plans for reapportionment, the Commission was significantly influenced by considerations arising from section 2 of the Voting Rights Act of 1965, as amended in 1982, 42 U.S.C. § 1973 (1988). Moreover, two separate objections have been raised by individuals and organizations that the Final Plan itself violates section 2 of the Voting Rights Act.

Article V, section 48(1)(e), does not explicitly authorize or require this court to determine if the Final Plan conforms to section 2 of the Voting Rights Act. However, the Voting Rights Act applies to state reapportionment or redistricting plans, Thornburg v. Gingles, 478 U.S.

²¹Section 1 of the Fourteenth Amendment provides in part:

No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

U.S. Const. amend. XIV, § 1.

²²The Fifteenth Amendment provides in part that "[t]he right of citizens of the United States to vote shall not be abridged by the United States or by any State on account of race, color, or previous condition of servitude." U.S. Const. amend. XV.

30, 34 (1986), and the Commission concedes that the Final Plan must conform to section 2 as well as the equal protection provisions of the Fourteenth Amendment. We conclude, therefore, that our review of the Final Plan must necessarily consider Voting Rights Act concerns. Our evaluation of the Voting Rights Act issues is, however, strictly circumscribed by the narrow scope of the proceedings, the presumption of good faith and validity we must accord to the Commission,²³ the nature of the evidentiary record before us, and our restricted ability to act as a fact finder when material facts are genuinely disputed.

In accordance with the Supremacy Clause, U.S. Const. art. VI, § 2, and our earlier decisions in In re Reapportionment I and In re Reapportionment of the Colorado General Assembly, 647 P.2d 209 (Colo. 1982) ("In re Reapportionment II"), the Final Plan must be consistent with six parameters (in the following hierarchy from the most to the least important): (1) the Fourteenth Amendment Equal Protection Clause and the Fifteenth Amendment; (2) section 2 of the Voting Rights Act; (3) article V, section 46 (equality of population of districts in each house);²⁴ (4) article V, section 47(2) (districts not to cross county lines

²³We note that the makeup of the Commission was effectively nonpartisan in that neither Democrats nor Republicans commanded a majority of the Commission's eleven members. In addition, the Commission held twenty public hearings across the state and formulated numerous preliminary plans and alternate plans in response to suggestions made by members of the public.

[I]f neutral decisionmakers developed the plan [to reapportion congressional districts] on the basis of neutral criteria, if there was an adequate opportunity for the presentation and consideration of differing points of view, and if the guidelines used in selecting a plan were explained, a strong presumption of validity should attach to whatever plan such a process produced.

Karcher v. Daggett, 462 U.S. 725, 759 (1983) (Stevens, J., concurring).

²⁴Colo. Const. art. V, § 46 provides:

Senatorial and representative districts. The state shall be divided into as many senatorial and representative districts as there are members of the senate and house of representatives respectively, each district in each house having a population as nearly equal as may be, as required by the constitution of the United States, but in no event shall there be more than five percent deviation between the most populous and the

except to meet section 46 requirements and the number of cities and towns contained in more than one district minimized);²⁵ (5) article V, section 47(1) (each district to be as compact as possible and to consist of contiguous whole general election precincts);²⁶ and (6) article V,

least populous district in each house.

"The five percent deviation test means that the sum of the percent by which the largest district's population exceeds that of the ideal district and the percent by which the smallest district population falls short of the population of the ideal district must be less than five percent." In re Reapportionment I, 647 P.2d at 193 n.4. The population of the ideal district for each house is determined by dividing the population of the state by the number of districts in that house. Id. There are thirty-five senators and sixty-five members of the House of Representatives. According to the 1990 federal census, the population of Colorado is about 3,294,400. The ideal senate district therefore contains 94,126 persons and the ideal house district is 50,683.

In the Senate, the largest district is District 6 which contain 2.79% more persons than the ideal senate district. Senate District 24 is the smallest with 2.11% less population than the ideal district. The overall deviation is therefore 4.90%.

House District 16 is the most populous with 2.45% more people than the ideal house district. House District 60 is the smallest with 2.51% less persons than the ideal district. The overall deviation for house districts is 4.96%

²⁵Colo. Const. art V, § 47(2) provides:

(2) Except when necessary to meet equal population requirements of section 46, no part of one county shall be added to all or part of another county in forming districts. Within counties whose territory is contained in more than one district of the same house, the number of cities and towns whose territory is contained in more than one district of the same house shall be as small as possible. When county, city, or town boundaries are changed, adjustments, if any, in legislative districts shall be as prescribed by law.

²⁶Colo. Const. art. V, § 47(1) provides:

(1) Each district shall be as compact in area as possible and the aggregate linear distance of all district boundaries shall be as short as possible. Each district shall consist of contiguous whole general election precincts. Districts of the same house shall not overlap.

section 47(3) (preservation of communities of interest within a district).²⁷

No one has claimed that the Final Plan violates the Fourteenth Amendment Equal Protection Clause or the Fifteenth Amendment. Moreover, we conclude that the Final Plan is consistent with the equality of population requirements of article V, section 46. See footnote 4, above. The first objections to the Final Plan that we consider arise under the federal Voting Rights Act.

II

Section 2 of the Voting Rights Act of 1965

Two distinct groups of objectors have raised claims that the Final Plan violates section 2 of the Voting Rights Act of 1965, 42 U.S.C. § 1973 (1988), which provides:

(a) No voting qualification or prerequisite to voting or standard, practice, or procedure shall be imposed or applied by any State or political subdivision in a manner which results in a denial or abridgement of the right of any citizen of the United States to vote on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title, as provided in subsection (b) of this section.

(b) A violation of subsection (a) of this section is established if, based on the totality of circumstances, it is shown that the political processes leading to nomination or election in the State or political subdivision are not equally open to participation by members of a class of citizens protected by subsection (a) of this section in that its members have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice. The extent to which

²⁷Colo. Const. art. V, § 47(3) provides:

(3) Consistent with the provisions of this section and section 46 of this article, communities of interest, including ethnic, cultural, economic, trade area, geographic, and demographic factors, shall be preserved within a single district wherever possible.

members of a protected class have been elected to office in the State or political subdivision is one circumstance which may be considered. Provided, that nothing in this section establishes a right to have members of a protected class elected in numbers equal to their proportion in the population.

42 U.S.C. § 1973 (emphasis added). The leading case interpreting section 2 after it was amended in 1982 is Thornburg v. Gingles, 478 U.S. 30 (1986). Gingles involved a vote dilution claim following redistricting and the creation of certain multimember districts in North Carolina. Analysis of a section 2 claim, based on the "totality of circumstances," 42 U.S.C. § 1973(b), is "fact-intensive," Gingles, 478 U.S. at 46. The Senate Judiciary Committee Majority Report which accompanied the bill amending section 2 contained a nonexclusive list of "typical factors," derived from White v. Regester, 412 U.S. 755 (1973), which were to be considered in the analysis of a section 2 claim:

1. the extent of any history of official discrimination in the state or political subdivision that touched the right of the members of the minority group to register, to vote, or otherwise to participate in the democratic process;
2. the extent to which voting in the elections of the state or political subdivision is racially polarized;
3. the extent to which the state or political subdivision has used unusually large election districts, majority vote requirements, anti-single shot provisions, or other voting practices or procedures that may enhance the opportunity for discrimination against the minority group;
4. if there is a candidate slating process, whether the members of the minority group have been denied access to that process;
5. the extent to which members of the minority group in the state or political subdivision bear the effects of discrimination in such areas as education, employment and health, which hinder their ability to participate effectively in the political process;
6. whether political campaigns have been characterized by overt or subtle racial appeals;

7. the extent to which members of the minority group have been elected to public office in the jurisdiction.

Additional factors that in some cases have had probative value as part of plaintiffs' evidence to establish a violation are:

whether there is a significant lack of responsiveness on the part of elected officials to the particularized needs of the members of the minority group.

whether the policy underlying the state or political subdivision's use of such voting qualification, prerequisite to voting, or standard, practice or procedure is tenuous.

S. Rep. No. 417, 97th Cong., 2d Sess. 28-29 (1982), reprinted in 1982 U.S.C.C.A.N. 177, 206-07 (footnotes omitted). Factor two, "the extent to which voting in the elections of the state or political subdivision is racially polarized," arose in Gingles as the single most important of these factors.

In Gingles, the Court held that a plaintiff must show the following preconditions in order to establish a violation of section 2 in the use of multimember districts:

First, the minority group must be able to demonstrate that it is sufficiently large and geographically compact to constitute a majority in a single-member district. . . . Second, the minority group must be able to show that it is politically cohesive. . . . Third, the minority must be able to demonstrate that the white majority votes sufficiently as a bloc to enable it -- in the absence of special circumstances, such as the minority candidate running unopposed, . . . -- usually to defeat the minority's preferred candidate.

Gingles, 478 U.S. at 50-51. There are several limitations on actions brought under section 2. First, election devices, such as at-large elections, are not per se violations of section 2. Second, the combination of an electoral mechanism and lack of proportional representation does not by itself establish a section 2 claim. Third, the existence of racial bloc voting may not be presumed; the plaintiffs must prove it. Gingles, 478 U.S. at 45-46; Sanchez v. Bond, 875 F.2d 1488, 1492 (10th Cir. 1989), cert. denied, 111 S. Ct. 340 (1990).

One of the key lessons of Gingles is that the "ultimate finding of

vote dilution" is a question of fact subject to appellate review only under the clearly erroneous standard. Gingles, 478 U.S. at 78-79. The evidentiary record before us in this original proceeding is sparse. The Commission's resolution of disputed factual issues in the determination of the claims under the Voting Rights Act was not made in an adversarial proceeding with the accompanying safeguards of cross-examination and a full record and should not be overturned because we would reach a different result. If facts material to the resolution of a section 2 claim are in genuine dispute, if it appears from the record that the Commission has made a good faith effort to resolve these disputed facts, and if the Commission has applied the correct legal standard to the facts it has found, we will not reject the Final Plan on Voting Rights Act grounds.

The first objectors, Blacks for Fair Reapportionment (BFFR), assert that their section 2 claims pertain to House Districts 7 and 8 in Denver. Their proposed plan would incorporate a portion of Adams County and Aurora, a home rule city, into House District 7. It would also shift the common boundary line between House Districts 7 and 8 further to the east. In order to compensate for the loss of population, a small enclave would be carved into Weld County at the northern border of House District 36. These changes would increase the black population in House District 7 from 44.58% (under the Final Plan) to 48.01% (under the objectors' plan), an increase of 3.43 percentage points. Under the objectors' plan, the black population in District 8 would increase from 43.10% to 43.42%, a gain of 0.32 percentage points. These changes are necessary, BFFR alleges, in order to maximize the voting power of blacks and minorities.

The objectors concede that blacks have had success in the past in electing minority candidates in House Districts 7 and 8 over the past approximately fifty years. Cf. Gingles, 478 U.S. at 77 (per Justice Brennan and one Justice concurring and four Justices concurring in part and concurring in the judgment) (persistent proportional representation in particular multimember district in last six elections demonstrated that the black voting strength in that district was not impermissibly diluted in violation of section 2). The Commission rejected the opponents' plan because it would require the crossing of county lines and city boundaries contrary to article V, section 47(2). In addition, a reply to the BFFR plan was filed which contends that the BFFR plan itself would violate section 2 because it disenfranchises northwest Aurorans and decreases the opportunity for minority Aurora citizens to participate in the political process.

In this court, the Commission first contends that BFFR has not

shown that the Final Plan violates section 2 because they have not satisfied the first Gingles precondition, that "the minority group must be able to demonstrate that it is sufficiently large and geographically compact to constitute a majority in a single-member district," Gingles, 478 U.S. at 50. Under BFFR's plan, as under the Final Plan, blacks would remain a minority in House Districts 7 and 8. However, even if this first Gingles condition is found not to invariably apply when an objection is made to a single member rather than a multimember district as in Gingles, the Commission asserts that the sustained history of black electoral success in Districts 7 and 8 refutes any claim of vote dilution under section 2.

We conclude that resolution of the section 2 claim in favor of the objectors would necessarily involve the finding of material facts that are in genuine dispute. Our examination of the record discloses that the Commission attempted to apply the proper legal standards to the Voting Rights Act claims raised in Districts 7 and 8 and made a good faith effort to comply with section 2 of Act.

The Commission had a report from its own expert that there was very little racial bloc voting in Denver, and that districts in which minorities comprised between forty and fifty percent of the population had a reasonable opportunity to elect the representatives of their choice. The alternate plan submitted by BFFR would require "two or three" additional county splits. These splits could not be justified under article V, section 47(2) unless section 2 required them. Given the only marginal gains in minority population in Districts 7 and 8 under the BFFR plan, we decline to overturn the Commission's finding that House Districts 7 and 8, as drawn in the Final Plan, comply with section 2 of the Voting Rights Act.

The second objection to the Final Plan based on section 2 was filed by Jennie Sanchez and others and relates to a proposal to redraw the boundaries of House District 60 to include "a large and relatively compact group of Hispanic voters in Southern Colorado, including the San Luis Valley and parts of Pueblo and Las Animas Counties." The objectors contend that it would be possible to redraw District 60 "such that it would have an Hispanic voting-age population of 50+ percent."

In a plan suggested by the objectors, District 60 would contain a majority in the Hispanic voting-age population of 50.03%. The suggested plan, however, ignores natural boundaries and splits seven counties. Under the Final Plan, House District 60 preserves the San Luis Valley intact, includes seven whole counties and splits only one county,

Las Animas. The Hispanic population in District 60 under the Final Plan is 45.31% of the total population. The Commission asserts that it drew the boundaries of District 60 with Voting Rights Act considerations always in mind and after paying close attention to the wishes of San Luis Valley residents to preserve the Valley intact.

Moreover, the Commission contends that in order to prevail on their claim under section 2, "the minority group must be able to show that it is politically cohesive." Gingles, 478 U.S. at 51. Cf. Sanchez v. Bond, 875 F.2d at 1492-97 (plaintiffs failed to demonstrate political cohesiveness among Hispanics in Saguache County and thus the electoral system used to elect Saguache County Commissioners did not violate section 2). The presence or absence of such political cohesion was hotly contested below at the Commission level and in this court. We conclude that the objectors have not made a showing that would enable us to reject the Commission's determination that District 60 as drawn under the Final Plan complies with section 2 of the Voting Rights Act.

III

Finding that the Final Plan complies with federal law and the equality of population requirement of article V, section 46, we now review the plan under article V, section 47. The most important concern under section 47 is whether the Final Plan unnecessarily divides counties or cities within counties. In re Reapportionment II, 647 P.2d at 210. Next in importance is "the requirement that each district be as compact in area as possible and the aggregate linear distance of all district boundaries as short as possible, Colo. Const. Art. V, § 47(1). In re Reapportionment II, 647 P.2d at 210-11. Also contained within section 47(1) is the mandate that "[e]ach district shall consist of contiguous whole general election districts." Colo. Const. art. V, § 47(1). The least weighty constitutional consideration is the "preservation wherever possible of communities of interest, including ethnic, cultural, economic, trade area, geographic, and demographic factors, Colo. Const. Art. V, § 47(3)." In re Reapportionment II, 647 P.2d at 211.

No objection has been raised that the configuration of senate districts in the Final Plan violates article V, section 47(2). Our review of the record reveals no violation of section 47(2) with respect to the senate districts. A number of objections have been raised, however, that the Final Plan for the house districts unnecessarily splits counties or cities, contrary to section 47(2).

Our examination of the Final Plan as a whole with respect to house districts reveals that, out of the fifty-two counties in Colorado with populations less than that of the ideal house district, six were split.²⁸ The Commission's justification for each county split was the requirement of equality of population among house districts. The Commission states that Voting Rights Act concerns initially determined the order and manner in which the boundaries were drawn and population was equalized. As we said in In re Reapportionment I, 647 P.2d at 197:

The constitution allows the Commission to divide a county only if necessary to meet the equal population requirement. The Commission's justification for some of the county divisions in the plan before us is not as precise as it might be. Nevertheless, substantial equality of population and avoidance of splitting counties cannot always be met simultaneously. When they cannot, the avoidance of split counties must yield. The area of the state in which these conflicts occur is subject to adjustment, and the Commission must have the discretion to choose where the necessary and constitutionally permissible compromises are made.

As in 1982, we conclude that the Commission complied with the constitutional requirement of article V, section 47(2). Similarly, we determine, with two exceptions, that the Final Plan drawn by the Commission complies with the dictates of article V, section 47(1) and section 47(3).

The one exception is the unnecessary but inadvertent split of the community of Perry Park (population 1,000) in Douglas County into House Districts 20 and 64. The objectors propose first that all of Perry Park be included in House District 20, a configuration which they say will not unduly disturb equality of population. Their second alternative would redraw the line between Districts 20 and 64 so as to include most of the rural area of Douglas County in District 20 and the urban and suburban areas of the county in District 64. At oral argument, counsel for the Commission stated that redrawing the boundaries of Districts 20 and 64 in order to preserve intact the Perry Park community would not be a

²⁸The reapportionment plan for house districts which was ultimately approved by the court in 1982 split seven out of fifty-three counties that were too small to comprise a single district. In re Reapportionment I, 647 P.2d at 195.

"hard problem" for the Commission. We, therefore, reject this portion of the Final Plan and return the plan to the Commission to redraw the boundaries of House Districts 20 and 64 to conform with article V, section 47(3).

Pitkin County

The second portion of the Final Plan that we disapprove is the division of Pitkin County and the City of Aspen into House Districts 57 and 61. The Pitkin County Board of County Commissioners objects to the division of Pitkin County into two house districts and the resulting division that "the City of Aspen and the economic-related and dependent communities of Aspen and Snowmass Village." The Commission asserts that the Pitkin County splits occurred as a result of the need to obtain the required population level in the districts involved.

District 61 is made up of five counties and two parts of counties, all located in a mountainous area of the state. It includes Lake County, with its county seat in Leadville; Park County, with its county seat in Fairplay; Chaffee County, having Salida as its county seat; and the northern part of Teller County, with Cripple Creek²⁹ as its county seat. All these counties are on the eastern slope. The balance of District 61 consists of the western slope counties of Gunnison, with its county seat in Gunnison; Hinsdale, with Lake City as its county seat; and part of Pitkin, with Aspen as its county seat. It is the division of Pitkin County between House Districts 57 and 61 that concerns us.

District 61 contains 50,329 residents. Of these, 5,297³⁰ are from Pitkin County. The remaining 7,364 Pitkin County residents, including a small number of Aspen residents, are placed in District 57, including as well most of Garfield County (county seat in Glenwood Springs), and all of Rio Blanco County (county seat in Meeker) and Moffat County (county seat in Craig). The redistricting boundaries in Pitkin County adversely affect the explicit constitutional criterion of maintaining counties and cities intact. In addition, District 61 lacks compactness. It ranks seventh poorest under both the Schwartzberg test and the Reock test. Visual inspection of the map of District 61

²⁹Cripple Creek, however, is not in District 61.

³⁰The materials submitted do not show the total population of Aspen. It appears likely, however, that the 5,297 persons in District 61 are almost entirely Aspen residents.

shows that the inclusion of part of Pitkin County as a peninsula jutting out from the mainland of the district contributes to the lack of compactness of the district as a whole.³¹ The division of Pitkin County can only be defended on the basis that it is necessary to meet the paramount equal population requirement of section 46 of article V.

In addition, the preservation of communities of interest criterion of section 47(3) has been seriously compromised by combining the up-valley, eastern part of Pitkin County with other counties across the continental divide. Although this area of Pitkin County is contiguous to Gunnison County, Lake County, and Chaffee County, reference to any highway map discloses that there is no improved road directly connecting principal population centers in Gunnison County to Pitkin County,³² and the only access from Aspen to the eastern slope counties is across Independence Pass, which, as the Pitkin County objectors point out, is closed for about six months each year. See Colo. Const. art. V, § 47(3).

The Pitkin County objectors also assert a strong community of interest between the residents of the resort City of Aspen and the all but contiguous recreational resort of Snowmass Village, and with other residents of the Roaring Fork Valley, from whom they will be separated by the district boundaries created by the Final Plan. The Commission states that if Pitkin County were not divided, it would be necessary to divide either Summit County or Eagle County in order to achieve substantial equality of population among districts. It does not suggest why such divisions would be equally or less adequate constitutionally than the one adopted.

We conclude that the Commission's explanation for dividing Pitkin County and the City of Aspen, and for the further division of Snowmass Village from Aspen, does not rise to the level of an adequate factual showing that less drastic alternatives could not have satisfied the equal population requirement of the Colorado Constitution. Furthermore, the explanation does not provide a basis for meaningful judicial review of the Commission's decision. We, therefore, disapprove that part of the Final Plan which divides Pitkin County and the City of Aspen into House

³¹This same irregularity in district boundaries adversely affects the compactness of District 57 as well.

³²A road across McClure Pass connects Redstone, in Pitkin County, with Paonia, in Delta County, and crosses a remote part of Gunnison County.

Districts 57 and 61. We return that part of the plan for reconsideration, revision, modification, and resubmission. If, after considering alternatives, the Commission concludes that the present Final Plan for Districts 57 and 61 is still constitutionally preferable to the alternatives, it may resubmit the present plan. In that case, the Commission should provide the court with additional information detailing the alternatives considered and the reasons for their rejection.

IV

We now discuss the remaining specific objections which have been filed to the Final Plan.

Arapahoe County

A number of objections have been lodged with respect to the boundaries of House District 3. Under the Final Plan, District 3 includes a portion of Denver and then crosses the county line into Arapahoe County. It includes the City of Sheridan and divides the City of Englewood into two House Districts: 3 and 37. The objectors contend that District 3 need not cross the Arapahoe County line in the manner approved by the Commission and that it does so only for political concerns which would allow Denver to keep ten representatives in the House, rather than the nine to which Denver is entitled under the 1990 census.

The Commission points out, however, that even under the Final Plan, Arapahoe County residents comprise a majority in House District 3. Moreover, under both the Final Plan and the alternate Arapahoe County plan, Arapahoe County is split. The objectors have alleged that equal population requirements can be met without dividing cities located in Arapahoe County into more than one house district, but we note that their alternate plan divides at least as many cities within Arapahoe County as does the Final Plan.

The Arapahoe County objectors also assert that the Final Plan does not preserve communities of interest as required under article V, section 47(3). Our examination of the Final Plan and the Arapahoe County alternate plan, however, convinces us that the Commission complied with constitutional requirements when it drew House District 3.

City of Westminster

The City of Westminster has filed a statement of opposition to the Final Plan on a number of grounds. The crux of Westminster's argument is that the City, which lies in both Adams and Jefferson Counties, has been subdivided into seven house districts, contrary to article V, section 47. Westminster also objects to House District 62 which runs from the Jefferson County portion of Westminster through Gilpin, Clear Creek, and Summit Counties.

The Commission explains that it began drawing the boundaries of house districts in the south central portion of the state including the San Luis Valley. The Commission started here primarily out of concern for the Voting Rights Act. It then worked its way west and north, completing districts with whole counties where possible. Summit, Clear Creek, and Gilpin Counties do not have a combined population sufficient for one house district, so the Commission crossed into Jefferson County, and included the western edge of Westminster in House District 62. The Commission explicitly subordinated concerns arising under article V, section 47 (unnecessary crossing of county lines or splitting of cities, compactness, and preserving communities of interest) to achieve equality of population under article V, section 46.

The Commission also asserts that a number of reasons made it necessary to place Westminster into seven house districts in apparent violation of article V, section 47(2). First, since Westminster's population exceeds that of an ideal house district, at least one split was required. Second, since Westminster lies in both Adams and Jefferson Counties, the Commission had to split the City in order to honor the prohibition against unnecessarily crossing county lines. Third, because of concerns under the Voting Rights Act, the Commission initially fixed the boundaries of two districts in the eastern part of Adams County and worked west. Simultaneously, the Commission was moving east out of the mountains in creating District 62. Because of the Commission's choices of where to begin drawing house districts, and in order to bring "closure" to the Final Plan and preserve equality of population, Westminster was split into more parts than if the Commission had proceeded differently.

Placing portions of Westminster into seven house districts is not per se unconstitutional. See In re Reapportionment I, 647 P.2d at 197 (court approved 1982 reapportionment plan which split Westminster among seven house districts).

The Commission's explanation of why it was necessary to split Westminster into so many house districts could have been stronger and

more detailed. However, we accord the Final Plan a presumption of validity when the Commission purports to follow the proper constitutional criteria and we will not "substitute our judgment for that of the Commission's unless we are convinced the Commission departed from constitutional criteria." In re Reapportionment I, 647 P.2d at 197. Although not absolutely dispositive, we deem it significant that the Westminster objectors have failed to come forward with a concrete alternative plan for house districts in Westminster. Although the question is close, we conclude that the Final Plan for House District 62 and for the City of Westminster does not violate article V, section 47.

Montezuma County

The Bipartisan Committee to Keep Montezuma County Whole asserts that the Final Plan unnecessarily divides Montezuma County into two house districts, contrary to article V, section 47(2), and splits communities of interest, in violation of article V, section 47(3). The alternate plan for rural counties, including Montezuma County, that the objectors have submitted is called the "Shawl/Whole Rural County Plan." Under this plan, which does not address reapportionment in the "Front Range Metropolitan Corridor," the largest deviation in population that is created is 3.73%. The objectors present "mathematical verification" that it would be theoretically possible to reapportion the Front Range districts so that the largest population deviation from the ideal district would be -0.58%, thus preserving the 5% constitutional deviation cap of article V, section 46. As the Commission has pointed out, however, adoption of the Shawl/Whole Rural County Plan would require state-wide reapportionment, an unacceptably large "ripple effect."

Although not dispositive of the objection now before the court, we note that Montezuma was split into two house districts in the 1982 plan that we ultimately approved. See In re Reapportionment I, 647 P.2d at 195. The Commission also states that its Voting Rights Act concerns in drawing the boundaries of District 60 had a "profound influence on the plan for the Western slope," and that once District 60 was fixed a split of Montezuma County was inevitable.

La Plata and Archuleta Counties have a total population of 37,629. The population of Montezuma County is 18,672. These three counties thus have a combined total population of 56,301, approximately ten percent higher than the population of the ideal house district. The Commission contends that if it created a house district comprising La Plata and Montezuma Counties, Archuleta County would have to be combined with Hinsdale and other counties to the north,

which would impact the population balances of House Districts 58 and 61. The Montezuma County objectors have not presented an acceptable alternate plan which disproves the Commission's assertions. We find that the Montezuma County split does not offend article V, section 47.

Baca County

The last specific objection to the Final Plan under article V, section 47(2) is brought by officials of Baca County. They have objected to the Final Plan as it pertains to House Districts 47 and 63. In the Final Plan, House District 47 is comprised of Crowley, Otero, Bent, and Baca Counties, and portions of Las Animas and Pueblo Counties. House District 63 is made up of Elbert, Lincoln, Kiowa, Cheyenne, Kit Carson, Yuma, and Prowers Counties, and the eastern part of Arapahoe County. Thus, three counties are split under the Final Plan.

The alternate plan for District 63 places Baca County with Otero, Bent, Prowers, Kiowa, and Cheyenne Counties and thus splits no counties in that district. The alternate plan fails to demonstrate that the total number of county splits in the state will necessarily be reduced and that the "ripple effects" will not require numerous other changes in the reapportionment scheme. See In re Reapportionment I, 647 P.2d at 196 ("It is impossible for us to ascertain in larger counties whether different district configurations might result in a net reduction in the number of house districts which cross county lines."). The Commission explains the districting of eastern Colorado as follows:

The Commission followed the same basic process in defining [house] districts in eastern Colorado as it did for western Colorado, proceeding east and north from the San Luis valley and Pueblo area, and completing districts with as many whole counties and as few county splits as possible.

We determine that the Commission complied with article V, section 47, when it placed Baca County in House District 47.

V

Several objectors challenged the Final Plan under article V, section 47(1)'s requirements of compactness and contiguity. This provision is subordinate to section 47(2). In re Reapportionment II, 647 P.2d at 210-11. The constitutional compactness requirement "concerns a geographic area whose boundaries are as nearly equidistant as possible

from the geographic center of the area being considered, allowing for variances caused by population density and distribution, census enumeration districts, and reasonable variations necessitated by natural boundaries and by county lines." Acker v. Love, 178 Colo. 175, 177, 496 P.2d 75, 76 (1972). We discussed two objective, quantitative tests for compactness in In re Reapportionment II:

One method of measurement involves comparing each district's perimeter to its area. A smaller perimeter/area ratio indicates compactness. . . . The second method involves measuring the polar moment of inertia of each district. This method quantifies the distribution of the points in a region around its geographic center. A smaller polar moment of inertia indicates a region in which the points are more closely grouped around the region's geographic center and which is thus more compact.

647 P.2d at 212. In determining the degree of compactness within the Final Plan, the Commission used two somewhat different tests: the Reock test and the Schwartzberg test. According to the Commission, in the Reock Test,

the computer first determines the two points on the district's boundary that are farthest apart and calculates the area of a circle that would have the line between these two points as its diameter. The polygon area³³ of the district is then divided by the area of that circle to produce a ratio between zero (0) and one (1). The closer the ratio is to one, the more compact the district.

See Ernest C. Reock, Jr., Measuring Compactness as a Requirement of Legislative Apportionment, 5 *Midwest J. Pol. Sci.* 70 (1961).³⁴ The second test for compactness the Commission used is the Schwartzberg Test, and the Commission described the test as follows:

³³"Polygon area" is defined by the Commission as "[t]he sum of the areas of all census units (tracts and blocks) assigned to each district. Polygon area is stated in square miles."

³⁴The Reock test has been criticized for "giv[ing] a high rating (near 1) to an arbitrarily misshapen district so long as it meanders around within a confined area." H.P. Young, Measuring the Compactness of Legislative Districts, XIII *Legis. Stud. Q.* 105, 106 (1988).

Under the Schwartzberg Test, the computer divides the adjusted perimeter of the district (adjusted in accordance with a formula which straightens the boundary by connecting points where three or more units from any district meet) by the perimeter [circumference] of a circle having the same area as the polygon area of the district. The closer the quotient is to one, the more compact the district.

See Joseph E. Schwartzberg, Reapportionment, Gerrymanders, and the Notion of "Compactness", 50 Minn. L. Rev. 443 (1966).³⁵

Senate District 24

An objection was filed to Senate District 24 as drawn in the Final Plan on the ground that its configuration violates the compactness and contiguity requirements of section 47(1). As accurately described by the objectors, Senate District 24 consists of two somewhat rectangular areas, plus a "flag pole" waving a small "flag."

We need not delve into the Reock and Schwartzberg factors of the alternative plan submitted by the objectors, however, because the alternate plan splits the populations of Thornton and Westminster and the Final Plan does not. The shape of Senate District 24 was thus determined by the configuration of Thornton. Restrictions against the splitting of cities take precedence over compactness concerns under article V, section 47(1). We also find that Senate District 24 does not violate the requirement of contiguity. The "flag" is included in Senate District 24 because it is a contiguous portion of Thornton, joined with the rest of Thornton by measuring the "pole." Contiguous whole general election districts may, therefore, be drawn in Senate District 24, conforming with the requirement of article V, section 47(1).

Senate Districts 32 and 35

The next objection is made to the boundaries of Senate Districts 32 and 35 in Denver. The Commission states that it "was concerned about compactness as well in Denver, although it recognized that its

³⁵The Schwartzberg Test also has its critics. "The Schwartzberg measure is defective in that it places too much emphasis on the perimeter and not enough on the overall shape." H.P. Young, Measuring the Compactness of Legislative Districts, XIII Legis. Stud. Q. 105, 108 (1988).

Voting Rights Act obligations were superior to considerations of compactness. The Commission drew the three minority districts (districts 31, 33 and 34) and then divided the rest of Denver [between] districts 32 and 35 in the most compact way possible.”

According to the objectors, their alternate plan, the “1-11 Preliminary Denver Senate Plan,” was rejected by the Commission for political reasons at the last minute, and the boundary between Districts 32 and 35 was drawn to avoid placing more than one incumbent senator in a senate district.

In In re Reapportionment II, 647 P.2d at 213, we disapproved a portion of the 1982 reapportionment plan because extra-constitutional political considerations had entered into the Commission’s deliberations. The districts that we disapproved in 1982 were, therefore, not drawn as compactly as possible and did not preserve communities of interest wherever possible, contrary to article V, section 47(1) and (3). Political considerations are not per se improper, however. It is only when partisan factors are allowed an importance equal to or greater than the proper constitutional criteria that a plan is defective. As we said in In re Reapportionment II:

While it is not improper for the Commission to attempt to resolve political conflicts engendered by our disapproval of the election sequencing in the original plan, “[p]roblems created by partisan politics cannot justify an apportionment which does not otherwise pass constitutional muster.” Kirkpatrick v. Preisler, 394 U.S. 526, 533 (1969).

In re Reapportionment II, 647 P.2d at 213. The objectors assert that “[w]hile the 1-11 is not quite as compact in 32, it is much improved over the Final Plan’s 35.” Calculations under the Reock and Schwartzberg tests belie the objectors’ assertion. The Final Plan’s Reock and Schwartzberg factors for District 32 are 0.1951 and 3.2673, respectively. The 1-11 Plan’s factors for District 32 are 0.1990 and 3.2909, respectively. Id. Thus, District 32 under the Final Plan is somewhat more compact than the 1-11 Plan according to the Schwartzberg Test, and somewhat less compact under the Reock Test.

Under the Final Plan, Senate District 35 is a little more compact measured by the Reock Test (0.4803 as opposed to 0.4708 for the 1-11 Plan), and a little less compact measured by the Schwartzberg Test (2.4324 against 2.3110 for the 1-11 Plan).

The objectors have also submitted a second alternate plan for Districts 32 and 35 called the "Pascoe Plan." The Pascoe Plan's District 32 is slightly more compact than the Commission's District 35 under the Reock and Schwartzberg tests. On the other hand, under the Pascoe Plan, Senate District 32 is less compact under the same tests. Since the results of the objective tests for compactness are inconclusive between the Final Plan and either of the objectors' alternate plans, we determine that the Final Plan does not violate article V, section 47(1).

The objectors also assert that while their Pascoe Plan is similar to the Final Plan with respect to population equalization and compactness, it is superior in preserving communities of interest within Denver. They contend that central Denver is much more aligned with east Denver and parts of southeast Denver than it is with southwest Denver, and that southeast Denver has more in common with the southwest than with central Denver. The Commission has responded that these claims are unsubstantiated and that the geographic distance between southeast and southwest Denver makes the objectors' community of interest claim untenable. Moreover, the Pascoe Plan's Senate District 32, which links southeast and southwest Denver, is less compact than the Final Plan's District 32. We conclude, after a comparison of the overall differences between the two plans, that the Final Plan does not violate article V, section 47(3), which in any event is subordinate to the compactness requirements of article V, section 47(1). Since the proposed Final Plan passes constitutional muster, political considerations that may have been involved in the final determination should not vitiate the plan.

Columbine Knolls South

The final constitutional objection is brought under article V, section 47(3), by the Columbine Knolls South Homeowner's Association, which consists of 680 families. The homeowners state:

We are presently in Senate District 22, but under the proposed reapportionment we would be moved into Senate District 13. As part of District 13 we would be included in a district that is primarily mountain and rural. We feel that it would be in the best interest of our community to remain in District 22 as this would best meet the reapportionment criteria "Preservation of communities of interest."

The Commission states that placing the Columbine Knolls South area in District 13 was necessary in order to meet the equality of population requirements of article V, section 46. Since preservation of community

interest under article V, section 47(3), must yield to equality of population, we find no constitutional violation in this part of Final Plan.

VI

Requests for Technical Changes to the Plan

Requests for technical changes in the boundaries of the Final Plan were filed by Boulder, Larimer, and Adams Counties. None of the requested modifications are based on the Colorado Constitution or federal law, and are, therefore, outside the scope of this court's review of the Final Plan which is "to measure the present reapportionment plan against the constitutional standards." In re Reapportionment I, 647 P.2d at 194; see also Colo. Const. art. V, § 48(1)(e).

The Commission views the changes requested changes by Larimer County and Boulder County as minor, technical, and meritorious. We, therefore, conclude that the Commission should incorporate the technical changes requested by Larimer and Boulder Counties into the Final Plan when it resubmits the plan to this court.

VII

Accordingly, we disapprove the Final Plan and return the plan for modification or revision of House Districts 57 and 61 to conform to the requirements set forth in this opinion and for resubmission to the court. In addition, the Perry Park portion of the Final Plan should be corrected and the plan is returned to the Commission to redraw the boundaries of House Districts 20 and 64 to conform with article V, section 47(3). The Commission shall also incorporate the technical changes requested by Larimer and Boulder Counties into the Final Plan when it resubmits the plan to this court.

JUSTICE LOHR concurs in part and dissents in part. JUSTICE QUINN concurs in part and dissents in part, and JUSTICE MULLARKEY joins in Parts I and IIA of the concurrence and dissent. JUSTICE VOLLACK concurs in part and dissents in part. JUSTICE MULLARKEY concurs in part and dissents in part, and JUSTICE QUINN joins in the concurrence and dissent.

Attachment F

SUPREME COURT OF COLORADO
No. 92SA19

March 30, 1992

IN RE REAPPORTIONMENT OF THE COLORADO GENERAL ASSEMBLY

ORIGINAL PROCEEDING PURSUANT TO THE RULES
REGARDING REAPPORTIONMENT

EN BANC

PLAN APPROVED

JUSTICE ERICKSON delivered the Opinion of the Court.
JUSTICE QUINN dissents, and JUSTICE MULLARKEY joins in the
dissent.

In In re Reapportionment of the Colorado General Assembly, No. 92SA19 (Colo. Mar. 13, 1992), we disapproved the Final Plan of the Colorado Reapportionment Commission and returned the plan to the Commission for revision, modification, and resubmission. Colo. Const. art. V, § 48(1)(e). We disapproved that part of the Final Plan which divided Pitkin County and the City of Aspen into House Districts 57 and 61, and the Commission was directed to consider alternative ways of achieving equality of population while minimizing county and city splits, and preserving compactness and communities of interest where possible. In re Reapportionment, No. 92SA19, slip op. at 23-24. Moreover, the Perry Park portion of the Final Plan was to be corrected and the boundaries of House Districts 20 and 64 were to be redrawn to conform with article V, section 47(3). In re Reapportionment, No. 91SA19, slip op. at 20. The Commission was also directed to incorporate the technical changes requested by Larimer and Boulder Counties. Id. at 36.

The Commission has now submitted a revised plan for the

reapportionment of the general assembly. We conclude that the revised plan conforms with our directions and satisfies the constitutional criteria of sections 46 and 47 of article V. Accordingly, we approve the revised Final Plan.

I

The original plan submitted to this court divided Pitkin County and the City of Aspen into House Districts 57 and 61. We found that

the Commission's explanation for dividing Pitkin County and the City of Aspen, and for the further division of Snowmass Village from Aspen, does not rise to the level of an adequate factual showing that less drastic alternatives could not have satisfied the equal population requirement of the Colorado Constitution. Furthermore, the explanation does not provide a basis for meaningful judicial review of the Commission's decision. We, therefore, disapprove that part of the Final Plan which divides Pitkin County and the City of Aspen into House Districts 57 and 61. We return that part of the plan for reconsideration, revision, modification, and resubmission. If, after considering alternatives, the Commission concludes that the present Final Plan for Districts 57 and 61 is still constitutionally preferable to the alternatives, it may resubmit the present plan. In that case, the Commission should provide the court with additional information detailing the alternatives considered and the reasons for their rejection.

In re Reapportionment, No. 92SA19, slip op. at 23-24. Upon remand, the Commission considered eight alternate plans for the boundaries of House Districts 57 and 61, and adjacent house districts. The alternative ultimately selected by the Commission (VIA) still splits Pitkin County into Districts 57 and 61, but the City of Aspen remains intact in District 61. Thus, the advantage of the revised plan for Pitkin County over the plan we rejected is that it eliminates one city split.

In addition to the revised plan, the Commission considered but rejected seven other possible plans. Alternative I kept all of Pitkin County in District 57 and split Eagle County. To maintain equality of population, the Town of Vail was included in District 57, but Glenwood Springs was divided. The Commission rejected this alternative because it split a city and offered no net improvement with respect to preservation of communities of interest. Alternative II was similar to the

first, but did not split Glenwood Springs. It was rejected because of no net improvement in preservation of communities of interest and because Glenwood Springs, the county seat of Garfield County, was placed in a district separate from the rest of the county.

Alternative III retained all of Pitkin County in District 57 and made compensating adjustments in boundaries of districts to the west. The Commission discarded this alternative because it split both Garfield and Delta Counties three ways rather than two, as in both the original and revised plans for Pitkin County. Alternative IV, which kept Pitkin County whole in District 57 and Glenwood Springs whole in District 56, made up the population loss by including a part of Summit County in District 61. This plan was unsatisfactory because it split more counties than the original Final Plan. Similarly, Alternative V, which made population adjustments to the east and then north, was eliminated because it caused more counties to be split than the Final Plan.

Alternative VII placed all of Pitkin County in District 61. The Commission concluded that this alternative would split a community of interest in Lake County. In addition, this alternative would not address the concerns of limited access between parts of Pitkin County and the rest of District 61. See In re Reapportionment, No. 92SA19, slip op. at 22. The final alternative, Alternative VIII, placed all of Pitkin County in House District 56. The Commission rejected it because it involved the same split of Eagle County and of communities of interest that led the Commission to reject the Alternatives I, II, IV, and V.

The Commission's revised plan for Pitkin County and Aspen is similar to the plan we disapproved except the new plan does not split Aspen. For the first time, however, the Commission has provided us with a sufficient basis for judicial review of its actions and reasons for the necessity that Pitkin County be divided. We conclude that the Commission's revised plan (VIA) for Pitkin County satisfies constitutional requirements. Colo. Const. art. V, §§ 46, 47.

II

In accordance with our directions on remand, the Commission has redrawn the boundaries of House Districts 20 and 64 to place all of Perry Park in District 20. In addition, the Commission has incorporated all but one of the technical modifications to the plan requested by Boulder and Larimer Counties. The Commission has determined that one of the Boulder County technical requests can not be incorporated in the Final Plan without upsetting the equality of population requirements of article

V, § 46. We therefore approve the Commission's revised and modified Final Plan which was submitted to this court on March 19, 1992, and we order that the Commission file the approved plan with the Secretary of State no later than March 30, 1992.

JUSTICE QUINN dissents, and JUSTICE MULLARKEY joins in the dissent.

In re Reapportionment of the Colorado General Assembly, No. 92SA19

JUSTICE QUINN dissenting:

I dissent from the court's approval of Plan VIA because, in my view, it not only sacrifices the more important constitutional requirement of compactness to the less important standard of preserving communities of interest but also results in a greater disruption of communities of interest than would result under the alternative plan VII rejected by the Commission.

I.

This court's opinion on March 13, 1992, disapproved that part of the Commission's plan which divided Pitkin County and the City of Aspen into House Districts 57 and 61. Our disapproval was based primarily on the fact that "the Commission's explanation for dividing Pitkin County and the City of Aspen, and for the further division of Snowmass Village from Aspen, does not rise to the level of an adequate factual showing that less drastic alternatives could not have satisfied the equal population requirement of the Colorado Constitution." In re Reapportionment, No. 92SA19, slip op. at 23 (Colo. March 13, 1992). In response to our direction that the Commission modify or revise House Districts 57 and 61, the Commission considered eight alternative plans. From these eight alternatives, the Commission selected Plan VIA. The majority today approves Plan VIA notwithstanding the fact that the only significant change in Plan VIA from the Commission's original plan for House Districts 57 and 61 is to place the entire city of Aspen, including the Aspen Grove subdivision which was split from the City of Aspen in the Commission's former plan, into one district, House District 61. In all other respects, Plan VIA is identical to the plan disapproved by this court in its former opinion.

II.

Plan VIA splits Pitkin County and places the greater part of the county, including the City of Snowmass Village, in House District 57, and places the remainder of Pitkin County, including the entire City of Aspen, in House District 61. Under Plan VIA, House District 61 includes the entire City of Aspen and a small section of the eastern portion of Pitkin County and the whole counties of Gunnison, Hinsdale, Chaffee, Lake, and Park. Under Plan VIA, the City of Aspen lies to the north and west of all of the counties and communities of House District 61 and

remains separated from the remainder of House District 61 by Independence Pass, which is closed a substantial part of the year. No similar barrier, however, separates the City of Aspen from Snowmass Village, from the remainder of Pitkin County not placed in House District 61, or from the City of Glenwood Springs, all of which are placed in House District 57 under Plan VIA. House District 57 includes portions of Garfield and Pitkin County and the whole counties of Moffat and Rio Blanco.

It is undisputed that the most important constitutional requirement under Article V, section 47 of the Colorado Constitution is equality of population. In re Reapportionment, 92SA19, slip op. at 18. Next in order of importance is compactness, and last is the preservation of the communities of interest. Id. Notwithstanding the superior status accorded by the Colorado Constitution to compactness, it appears to me that the Commission simply appropriated the City of Aspen, the population center and county seat of Pitkin County, from the remainder of Pitkin County in order to meet the population requirements of House District 61 without regard for either constitutional compactness or preserving communities of interest between the City of Aspen and the remainder of Pitkin County from which Aspen has been severed. While I concede that the constitutional requirement of compactness must to some extent be weighed with other constitutional criteria, including the preservation of communities of interest, I am nonetheless convinced that Plan VII, which was rejected by the Commission in favor of Plan VIA, achieves not only a substantially greater measure of compactness than Plan VIA but also results in less disruption of communities of interest than the disruption caused by Plan VIA.

III.

In contrast to Plan VIA, Plan VII places all of Pitkin County in House District 61 and includes within that district Gunnison, Chaffee, and Park Counties. Plan VII places Garfield, Rio Blanco, and Moffat Counties in House District 57, along with a small part of the southwestern portion of Eagle County encompassing the towns of Basalt and El Jebel, both of which are part of the Roaring Fork Valley community and thus have a close community of interest with the greater part of that community located in Garfield County.

Plan VII also would configure House District 56 to include Lake County with the northern counties of Eagle, Grand, Routt, and Jackson and the northern part of Summit County. The Commission, in its revised final plan, states that Plan VII does not offer a net improvement in

county splits over the original plan but concedes that it improves compactness in House Districts 57 and 61 while resulting in less compactness in House District 56. Obviously, the net result of Plan VII is the achievement of constitutional compactness in one more house district than is achieved under Plan VIA. The Commission nonetheless rejects Plan VII on the ground that Lake County, which Plan VII places in House District 61 with its neighboring counties to the north, has closer ties to southern counties. While Lake County's community of interest with its southern neighbors is undoubtedly of constitutional significance, that interest should yield to the constitutional requirement of compactness under the circumstances of this case. Severing the City of Aspen, which is the county seat and population center of Pitkin County, from the rest of Pitkin County, including the City of Snowmass Village, all of which would be integrated in the same district under Plan VII, is much more destructive to the values of the constitutional criteria than is the movement of Lake County as a whole from one house district to another.

Moreover, Plan VII, in contrast to Plan VIA, would preserve the communities of interest between the lower Roaring Fork Valley towns of Basalt and El Jebel with the greater part of that community located in Garfield County. Plan VIA severs these communities from the remainder of Garfield County and places them in House District 56 with Eagle, Routt, Jackson, and Grand Counties. A similar disruption of communities of interest is caused under Plan VIA by separating the City of Carbondale from Glenwood Springs, both of which would be placed in House District 57 under Plan VII.

Although some disruption of preexisting communities of interest will result under either Plan VIA or Plan VII, there would be a greater degree of compactness among House Districts under Plan VII than under Plan VIA and there would be less disruption of preexisting communities of interest under Plan VII than under the plan selected by the Commission and approved by this court. I therefore dissent from this court's approval of Plan VIA.

JUSTICE MULLARKEY joins in this dissent.

Hon. Natalie Meyer
Secretary of State
1560 Broadway, Suite 200
Denver, Colorado 80202

Dear Ms. Meyer:

Transmitted herewith is the Final Plan for districts in the Senate and House of Representatives as approved by the Colorado Supreme Court on March 30, 1992, in the proceeding entitled In Re Reapportionment of the Colorado General Assembly, Case No. 92 SA 19. The plan is being filed with your office for implementation in accordance with section 48 (1) (e) of article V of the state constitution and section 2-2-505 (3), Colorado Revised Statutes.

We are aware that Rule 8 of the Supreme Court's Rules for Reapportionment Commission Proceedings provides that petitions for rehearing may be filed within five days of the announcement of an opinion; however, we are transmitting the Final Plan to you at this time as directed by the Supreme Court opinion.

Yours very truly,

Becky Lennahan
Staff Director
