**Who:** Child support enforcement services are available to help mothers, fathers, grandparents, and other caretakers.

**What:** The following services are provided:

- Location of alleged fathers
- Establishment of paternity (legally establish the father of the child)
- Establishment of child support orders and medical support orders
- Determine if any existing child support order should be modified and assist with the process
- Enforce the child support order, medical order or child support when combined with spousal support
- Provide all of the above services when one of the parties lives in another state
- Collect, distribute and document child support collections through the Family Support Registry

**Where:** An application for services is available on the internet at [www.childsupport.state/co.us](http://www.childsupport.state/co.us) or at your local county child support enforcement unit. A \$20.00 fee may apply. A list of Colorado county child support offices are on the back of this brochure.

**When:** Anytime you need help to establish paternity, child support payments, medical support or enforce an existing order for child support or medical support.

**How:** Child Support Enforcement will determine the legal action necessary to establish, modify, and enforce your order. The following are enforcement remedies that may be used depending on the circumstances of your case:

- Income withholding
- Driver's license suspension
- Intercept Federal and State tax refunds
- Intercept unemployment benefits
- Intercept worker's compensation benefits
- Place liens on personal and real property
- Report to the credit bureau agencies payment behavior and balances
- Suspend professional, occupational, and recreational licenses
- Garnish bank accounts
- Contempt proceedings
- Gambling/Gaming Intercept

**Why:** We believe that child support services provide hope as well as support to our children. We want to emphasize that children need the support of both parents. Our hope is that more parents will put their children first by providing financial and emotional support for their future.

The Child Support Enforcement Program represents the People of the State of Colorado when providing child support enforcement services. The program follows Federal and State laws when providing these services. The CSE program has no authority to take action in visitation (parenting time), custody (parental responsibilities), or property settlement issues. Additionally, the CSE unit cannot help with attorney fees and cannot establish, modify or enforce spousal (maintenance) support only orders.
