

FYI – For Your Information

International Fuel Tax Agreement (IFTA)

The International Fuel Tax Agreement (IFTA) is an agreement between member jurisdictions to simplify the reporting of motor fuel use taxes. One tax return is filed with the base jurisdiction for fuel consumed in all member jurisdictions.

All 48 contiguous states and 10 Canadian provinces are members. A complete list of the member jurisdictions can be found on the Web at www.iftach.org

Each jurisdiction assigns its own tax rates to each of the various fuel types. Each jurisdiction may define what constitutes taxable activity and what is tax exempt.

DEFINITIONS

“Applicant” is the person in whose name the uniform application for licensing is filed with a base jurisdiction for the purpose of motor fuel use tax reporting.

“Base Jurisdiction” means the member jurisdiction where qualified motor vehicles are based for vehicle registration purposes. The Base Jurisdiction is where the operational control and operation records of the licensee’s qualified motor vehicles are maintained or can be made available, and where some travel is accrued by qualified motor vehicles within the fleet. The commissioners of two or more affected jurisdictions may allow consolidation of several fleets that would otherwise be based in two or more jurisdictions.

“In-Jurisdiction Distance” means the total number of miles or kilometers operated by a licensee’s qualified motor vehicle within a jurisdiction including miles/kilometers operated under an IFTA temporary permit. In-jurisdiction distance does not include miles/kilometers operated on a fuel tax trip permit or exempted from fuel taxation by a jurisdiction.

“Jurisdiction” means a State of the United States, the District of Columbia or a Province or Territory of Canada or a State of the United Mexican States.

“Lessee” means the party acquiring the use of equipment with or without a driver from another.

“Lessor” means the party granting the use of equipment with or without a driver to another.

“Licensee” means a person who holds an uncanceled agreement license issued by a base jurisdiction.

“Motor Fuels” means all fuels placed in the supply tank of qualified motor vehicles.

“Person” means an individual, corporation, partnership, association, trust or other entity.

“Qualified Motor Vehicle” means a motor vehicle used, designed or maintained for transportation of persons or property and: (1) having two axles and a gross vehicle weight or registered gross vehicle weight exceeding 26,000 pounds or 11,797 kilograms, or (2) having three or more axles regardless of weight; or (3) is used in

combination, when the weight of such combination exceeds 26,000 pounds or 11,797 kilograms gross vehicle weight or registered gross vehicle weight. Qualified motor vehicle does not include recreational vehicles.

“*Reporting Period*” means a period of time consistent with the calendar quarterly periods of January 1 - March 31, April 1 - June 30, July 1 - September 30, and October 1 - December 31.

“*Temporary Permit*” means a permit issued by the base jurisdiction or its agent to be carried in a qualified vehicle in lieu of display of the permanent annual decals. A temporary permit is valid for a period of 30 days and is vehicle specific to give the carrier adequate time to affix the annual permanent decals.

“*Weight*” means the maximum weight of the loaded vehicle or combination of vehicles during the registration period.

APPLICATION, LICENSE, DECAL

Any person who is based in a member jurisdiction and operates a qualified motor vehicle(s) in two or more member jurisdictions is required to obtain an IFTA license unless an election is made to satisfy motor fuels use tax obligations on a trip-by-trip basis.

To obtain a Colorado-based IFTA license you must complete and submit an "International Fuel Tax Agreement (IFTA) form. You may download this form from the Web at www.taxcolorado.com Mail the original form to the Colorado Department of Revenue, Denver, CO 80261-0013; retain a photocopy of the completed form for your records. **NOTE:** The Colorado Department of Revenue does not process the registration of trade names for any type of business. **All** filing of trade names, renewals, inquiries and collection of trade name fees is provided by the Colorado Secretary of State's office at www.sos.state.co.us

You can obtain an IFTA license at the same time you register your truck for IRP online at <http://cvec.state.co.us> You will be required to register the truck before you are allowed to obtain the IFTA license. You will need to submit the application (Form DR 7119) if you have a

trade name that also needs to be registered since there is a fee for the trade name.

As your base jurisdiction, Colorado will issue one IFTA license to the qualified applicant. You are required to make copies of the IFTA license so that one copy can be carried in each qualified motor vehicle. A vehicle will not be considered to be operating under IFTA unless there is a copy of the license in the vehicle. Failure to display a copy of the IFTA license may subject the vehicle operator to the purchase of a trip permit. The IFTA license is valid for the current calendar year and expires each December 31.

The qualified applicant will also be issued two IFTA decals for each qualified motor vehicle in your fleet. The IFTA decal must be placed on the lower, rear exterior portion of the cab's passenger side and driver's side. Failure to display IFTA decals in the required location may subject the vehicle operator to the purchase of a trip permit. The IFTA decals are issued annually and are not vehicle specific.

To order additional IFTA decals throughout the year, call (303) 205-8205. Have your Colorado account number ready when you call.

Your IFTA license and IFTA decal qualify you to operate in all member jurisdictions without further licensing requirements or identification requirements in regard to motor fuel use taxes.

Failure to comply with all the requirements shall be grounds for suspension or revocation of the license under the terms of the Agreement.

You will be sent a renewal application each year for a new IFTA license and decals. Licenses are renewed provided there are no delinquencies on the account and all tax reports have been filed.

RECORDKEEPING AND AUDIT INFORMATION

IFTA carriers are required to retain all records to substantiate tax reports for four (4) years from the due date of the return or date filed, whichever is later. Recordkeeping periods are longer if you fail to file reports or returns.

You must maintain a complete record of all fuel purchased, received and used in the conduct of your business. These records must contain the following:

1. The date of each receipt of fuel.
2. The name and address of the person from whom the fuel was purchased or received.
3. The number of gallons received.
4. The type of fuel.
5. The vehicle or equipment into which the fuel was placed.

You must maintain detailed mileage records on an individual vehicle basis. These records must contain the following:

1. Total number taxable and nontaxable gallons of motor fuel.
2. Total miles traveled for taxable and nontaxable use.
3. Mileage and taxable/non-taxable usage recaps for each vehicle for each jurisdiction in which the vehicle operated.

To obtain credit on the tax report for tax-paid purchases on a jurisdictional basis, you must keep the following in your records: a receipt, invoice, credit card receipt, automated vendor generated invoice or transaction listing, or micro-film/microfiche of the receipt or invoice that shows evidence of the purchase and that tax was paid. An acceptable receipt or invoice taken as credit must include:

1. Date of purchase.
2. Seller's name and address.
3. Number of gallons purchased.
4. Fuel type.
5. Price per gallon or total amount of sale.
6. Unit numbers.

7. Purchaser's name. (In the case of a lessee/lessor agreement, receipts will be accepted in either name, provided a legal connection can be made to the reporting party for that purchase.)

In the case of withdrawals from licensee-owned, tax-paid bulk storage, credit may be obtained if the following detailed records are maintained:

1. Date of withdrawal.
2. Number of Gallons
3. Fuel type.
4. Unit number.
5. Purchase and inventory records to substantiate that tax was paid on all bulk purchases. Inventory shall be maintained on first-in, first-out basis.

Noncompliance with any recordkeeping requirement may be cause for revocation of your license and disallowance of claimed credits. A licensee may request that its license be canceled. For more information, request FYI Excise 10 "IRP and IFTA Recordkeeping Requirements."

FUEL TAX REPORTING REQUIREMENTS

After you receive your IFTA license, the department will send you the "International Fuel Tax Agreement Tax Report" form (DR 0122) which you must complete and file quarterly with payment of any tax that is due. You must list on the report form all activities in member jurisdictions.

This form is available at:

www.taxcolorado.com Simply fill-in the form with the required information and it will calculate your IFTA fuel tax return for you. Print the completed return and mail the original form to the Colorado Department of Revenue, Denver, CO 80261-0013.

The Colorado special fuel tax rate is 20.5 cents per gallon. Colorado allows IFTA qualified vehicles powered by gasoline to report gasoline fuel use tax at the rate of 22 cents per gallon. This allows an IFTA licensee to report and pay gasoline tax on the amount of fuel consumed while traveling in Colorado.

The IFTA tax reports are due on the last day of the month immediately following the end of each reporting period. If the last day of the month falls on a Saturday, Sunday or legal holiday, the next business day shall be considered the due date. Reports must be postmarked on or before the due date to be considered timely.

IFTA reports not filed by the due date will be assessed a penalty of \$50 or 10 percent of the total amount of tax due, whichever is greater. Interest will also be assessed at the rate of one percent per month for each state for which tax is due.

Each fuel type must be reported on a separate tax report. Clear photocopies of the "International Fuel Tax Agreement (IFTA) Tax Report" (DR 0122) may be used. Photocopies must show the correct filing period. When you report more than one fuel type, each tax report is considered a separate tax return. You must submit a separate check for each report.

After you file your first IFTA tax return, Colorado will pre-print the jurisdictions and fuel tax rates reported for the previous quarter on the **next** IFTA tax return. If you travel in other jurisdictions, you will have to add those jurisdictions on the tax return.

When the department mails each quarterly IFTA tax return, a fuel tax rate schedule and filing instructions will be included. The rate schedule will provide the current fuel tax rates for each fuel type by jurisdiction that must be used when completing the quarterly IFTA fuel tax return.

The base jurisdiction shall audit its licensees on behalf of all member jurisdictions. This shall not preclude another jurisdiction from also auditing a licensee.

The appeal process shall be conducted in accordance with the procedures established by the base jurisdiction.

If you wish to use a computerized printout or facsimile of the tax report, you must first obtain written approval by sending a sample of the computerized printout or facsimile to:

Special Tax Accounting Section
1375 Sherman St., Room 200
Denver, CO 80261

Tax reports must be filed even if there is no tax due or there were no operations for the reporting period.

SPECIAL FUEL TAX CREDITS

When filing the "International Fuel Tax Agreement Tax Report" (DR 0122), you may apply an overpayment generated in one jurisdiction to the taxes owed to another jurisdiction and remit the net tax owed to the base jurisdiction. If your total tax payments as a result of tax-paid purchases exceed the total tax due in any one period, the overpayment may be refunded.

Credit will be refunded if all motor fuel taxes, penalties and interest have been paid to member jurisdictions. The request for the refund of a credit balance must be indicated on the tax report.

The credit for special fuel tax paid at Ports of Entry has been eliminated for IFTA licensees. The miles covered by fuel tax trip permits should be excluded from taxable miles on the IFTA tax report but not in the computation of miles per gallon.

Also, tax paid credit will not be allowed on the IFTA tax report for fuel used off-road or used to operate a power take-off unit. A separate claim for refund must be made to the state in which the off-road, tax-exempt use occurred.

BOND REQUIREMENT

Bonds will not be required except when a licensee fails to file timely reports, when taxes have not been remitted or when an examination of the account indicates a financial guarantee is necessary.

The bond (if required) must be twice the estimated average net tax liability for the quarterly reporting period.

A bond may be in the form of cash, surety bond, certificate of deposit, investment certificates or share accounts.

PASSENGER MILE TAX

IFTA license holders who are owners and operators of commercial passenger carrying vehicles designed for 14 passengers or more are required to pay a passenger mile tax. A passenger carrying vehicle that makes two trips or less each month in Colorado is allowed to pay the tax on a trip-by-trip basis. The fee is \$25 or the actual tax, whichever is greater. The formula is $\$0.001 \times \text{number of passengers} \times \text{number of Colorado miles}$. These taxes can be paid at any Colorado Port of Entry. IFTA license holders can apply for a passenger mile tax account and report taxes on a quarterly basis to the Colorado Department of Revenue.
